Celebrating the Artistic Touch in Therapeutic Interventions Thomas Houlihan, 2017-01-05 What is noticeably absent in the scientific based mental health professional literature is any recognition of the art in their craft An artistic touch in the mental health field consists of a person who takes some actions that are outside of the standard professional interventions of their craft Their artistic touch s actions pull together and unify the skills of the professional s craft with the efforts of everyone involved in the treatment process Their therapeutic results often far exceed most people s expectations and sometimes they are special extraordinary and unique Artistic touches are not precisely definable entities rather they reveal more about themselves within the context of their specific situations Thus short stories can provide a much greater understanding and appreciation for artistic touches This book contains twenty eight short stories of actual events and each story highlights various aspects of artistic touches Every story is followed by the author s comments These stories and comments sections are separated in case the reader prefers to enjoy each story and draw their own inferences Either way that a person chooses to

read these stories the two objectives of this book are to celebrate the art within some therapeutic interventions and to inspire every reader to recall those special moments of risk and artistry within their own life s work and experiences their own artistic touches

The Artist's Touch S. H. Pratt, 2015-11-20 The Artist s Touch Book 1 of the Artist s Touch Set **All About Process** Kim Grant, 2017-02-28 In recent years many prominent and successful artists have claimed that their primary concern is not the artwork they produce but the artistic process itself In this volume Kim Grant analyzes this idea and traces its historical roots showing how changing concepts of artistic process have played a dominant role in the development of modern and contemporary art This astute account of the ways in which process has been understood and addressed examines canonical artists such as Monet C zanne Matisse and De Kooning as well as philosophers and art theorists such as Henri Focillon R G Collingwood and John Dewey Placing process art within a larger historical context Grant looks at the changing relations of the artist s labor to traditional craftsmanship and industrial production the status of art as a commodity the increasing importance of the body and materiality in art making and the nature and significance of the artist s role in modern society In doing so she shows how process is an intrinsic part of aesthetic theory that connects to important contemporary debates about work craft and labor Comprehensive and insightful this synthetic study of process in modern and contemporary art reveals how artists explicit engagement with the concept fits into a broader narrative of the significance of art in the industrial and postindustrial world

The American Schoolmaster ,1928 *Motor* ,1913 The Language of Art History Salim Kemal, Ivan Gaskell, 1991 The first volume in the series Cambridge Studies in Philosophy and the Arts offers a range of responses by distinguished philosophers and art historians to some crucial issues generated by the relationship between the art object and language in art history Each of the chapters in this volume is a searching response to theoretical and practical questions in terms accessible to readers of all human science disciplines The editors one a philosopher and one an art historian provide an introductory chapter which outlines the themes of the volume and explicates the terms in which they are discussed The contributors open new avenues of enquiry involving concepts of presence projective properties visual conventions and syntax and the appropriateness of figurative language in accounting for visual art The issues they discuss will challenge the boundaries to thought that some contemporary theorising sustains
