The Artists Zoo:

Political Animals Jesse Donahue, Erik Trump, 2007-01-01 Political Animals offers a unique study and perspective on the relationship between politics and the art found in American zoos and aquariums Jesse Donahue and Erik Trump examine the ways that zoos and aquariums have successfully served as sculptural gardens for the masses and have incorporated art and architecture that convey political messages about both the patrons and the animals This book demonstrates how art has been used for a range of economic and political purposes including providing jobs a medium to reach out to minority interest groups a fundraising tool and a surrogate for the animals themselves Donahue and Trump skillfully analyze and compare zoos to other areas of public art to highlight the calculated strategies on the part of the zoos that have incorporated a range of artistic styles for different audiences Incorporating photographs of zoo and aquarium art from around the country Political Animals is an exciting and captivating text for the mind and eye *Zoo Talk* Patricia G. Patrick, Sue Dale

Tunncliffe, 2012-09-28 Founded on the premise that zoos are bilingual that the zoo in the shape of its staff and exhibits and its visitors speak distinct languages this enlightening analysis of the informal learning that occurs in zoos examines the speech of exhibits and staff as well as the discourse of visitors beginning in the earliest years Using real life conversations among visitors as a basis for discussion the authors interrogate children's responses to the exhibits and by doing so develop an informal learning model and a zoo knowledge model that prompts suggestions for activities that classroom educators can use before during and after a zoo visit Their analysis of the visitor voice informs creative suggestions for how to enhance the educational experiences of young patrons By assessing visitors entry knowledge and their interpretations of the exhibits the authors establish a baseline for zoos that helps them to refine their communication with visitors for example in expanding knowledge of issues concerning biodiversity and biological conservation The book includes practical advice for zoo and classroom educators about positive ways to prepare for zoo visits engaging activities during visits and follow up work that maximizes the pedagogical benefits It also reflects on the interplay between the developing role of zoos as facilitators of learning and the ways in which zoos help visitors assimilate the knowledge on offer In addition to being essential reading for educators in zoos and in the classroom this volume is full of insights with much broader contextual relevance for getting the most out of museum visits and field trips in general *Directed Drawing-V5-Zoo Animals* abcschoolhouse.com, Tracy

Jarboe, Stefani Sadler, 2013-06-26 We have included twelve directed drawings in this zoo animal themed volume Hippo Tiger Parrot Elephant Lion Monkey Giraffe Zebra Kangaroo Panda Camel Koala These drawings have been specifically designed for beginning artists Even the youngest children will experience success with these drawings If you desire greater challenge you may consider adding more detail to each of the drawings or use one of the additional art suggestions listed in each section All drawings are completed in an easy to follow five step format These step by step drawing cards may be used as posters on an overhead projector or docu cam Our directed drawing books are sold singly or in discounted group sets As teachers with over

40 years of experience each we have always believed that a hands on creative and balanced approach to instruction is the most successful framework for developing skills in young children As both parents and educators we know that involving children in the arts and providing children with ample opportunity to create while using a wide variety of media provides a strong research based foundation for academic development We have enjoyed and practiced techniques we have learned from educational leaders such as Mona Brookes and Betty Edwards However with a movement in recent years to teach to standardized tests many teachers have felt pressured to stop providing the opportunity to explore the arts We know that research has shown time and time again the importance of art in the educational process Children who are exposed to music and art instruction do much better in reading math and science They develop a greater curiosity about understanding of and appreciation for the subject matter being taught We know that providing arts in education stimulates better behavior personal esteem and socialization skills So why do so many educators discount it s importance and so many children stop drawing by second grade The truth is that whole learning is a combination of current research sound philosophy and good teaching practice For many years we have been teaching presenting and publishing materials that integrate music art movement and literature across the curriculum Even though we now have a wealth of quality materials and training available to us as teachers we are always learning and modifying our educational practice and supplementing district adopted curriculum The activities in this book are not intended to replace core instruction but rather to enhance and extend the concepts taught within this practice These patterns may be used as independent practice and are applicable to both school and home learning We sincerely hope you will find these activities and patterns complimentary to your instructional program and that the children you teach will find joy and success in reading writing and drawing

Oak Park and the Montgomery Zoo Heather S. Trevino,Linda E. Pastorello,2007 Established at the beginning of the 20th century with a total of 41 acres Oak Park was the social and recreational center of Alabama s capital city Montgomery It was here in 1935 that a menagerie of animals was housed in facilities built by the Works Progress Administration called the Oak Park Zoo As the civil rights movement gathered steam in the 1950s there was a class action suit to desegregate the city s parks including the zoo In response all parks were closed including Oak Park In 1967 plans were approved for a 34 acre recreational park in north Montgomery which included acreage for a small zoo Unfortunately although the zoo was scheduled to open in 1971 thirteen years after the closing of Oak Park the opening was delayed for almost a year when the zoo s first director died in a car accident just 37 days after accepting his post The opening of the new Montgomery Zoo was finally celebrated in 1972 and included the happy homecoming of a female capuchin monkey an original resident of Oak Park

Metamorphoses of the Zoo Ralph R.

Acampora, 2010-06-14 *Metamorphoses of the Zoo Animal Encounter* After Noah is a volume dedicated to radically transformative approaches to spaces set aside as zoological parks or gardens. Historically these establishments served as symbols of power and venues for entertainment but today they have taken to portraying themselves as flagships of environmental education, scientific research, and wildlife conservation. Along with the past century's turn in exhibition design toward increasingly naturalistic architecture, such portrayals have been received by many in an uncritically positive light. At the same time it remains clear that zoos are immensely popular attractions drawing hundreds of millions of visitors globally per year. This level of participation is consistent with the suggestion that humans harbor a strong sense of biophilia, one which moves them to seek out diverse life forms when their own territories become too biologically homogenous. From such a vantage it is no accident that zoos are most often situated in urbanizing areas. *Metamorphoses of the Zoo* emphasizes creative and reconstructive analyses of zoos that do not simply advocate marginal reform or quick abolition. By focusing on issues such as interspecies progress and eco-psychological health, this unique collection will satisfy those in disciplines ranging from ecophilosophy to humanistic psychology to environmental studies.
