The Aryan Myth A History Of Racist And Nationalist Ideas In Europe:

Aryan Myth Léon Poliakov, 1974-08 In Nazi Germany between the years 1940 and 1944 proof of your Aryan or Semitic roots meant the difference between life and death How this inhuman and intrinsically absurd theory of racial superiority originated and how it took hold of the German imagination makes for a fascinating scholarly study Tracing the origins of the Aryan Myth in the West the author shows how in the heyday of nationalism most European people developed legends glorifying their high born ancestry He shows how these legends developed into pseudoscientific theories which treated Europeans as the norm and other peoples as inferior until in 19th century Germany they culminated in the concept of a superior Germanic race in contrast to the inferior Jewish race This cultural study sheds horrifying new light on the philosophy that justified the mass extermination of millions of subhumans during World War II From publisher description

Aryan Myth Edmund Howard, 1974 Encyclopaedia of Nationalism Athena Leoussi, 2018-02-06 Since the end of the internationalist Soviet experiment in 1989 nationalism is now recognized as a positive vital force in modern political cultural and social life if kept in check from excess As a result of the explosion of nationalism there has been a veritable resurgence of nationalism studies This proliferation calls for a survey of instruments which have been developed by scholars for the study of nationalism The Encyclopaedia of Nationalism brings together leading scholars in nationalism studies to survey this complex phenomenon With over one hundred entries the Encyclopaedia of Nationalism offers a complete and concise set of tools for the study of nationalism in a single volume The focus throughout is theoretical and for this reason particular nationalist movements and individual leaders are treated only as illustrative historical and contemporary cases in numerous entries The Encyclopaedia is organized in an alphabetical sequence of entries each of which includes a short bibliography for further reading The reader will find in depth discussions of the work of modern theoreticians of nationalism The defining figures of the eighteenth and nineteenth centuries including Herder Rousseau Fichte Marx and Renan Conceptual entries are treated historically and sociologically Crucial influential ideas and phenomena that continually redefine themselves with changing historical circumstances among them anti-Semitism art and nationalism assimilation class and nation decolonization ethnic competition genocide language and nation multiculturalism religion and nation state and nation and xenophobia are treated in depth A special attraction of this volume is its essay long entries many of which have been written by the scholars who developed them The Encyclopaedia of Nationalism discusses in lucid terms from an interdisciplinary perspective the central issues debates concepts and theories available to students and scholars of nationalism As such it is the most comprehensive and authoritative guide to the subject in all its varied manifestations and implications It will be an essential tool for historians political scientists sociologists and scholars of the history of ideas **The Rise and Fall of the Caucasian Race** Bruce Baum, 2008-07-01 The term Caucasian is a curious invention of the modern age Originating in 1795 the word identifies both the peoples of the Caucasus Mountains region as well as those thought to be Caucasian Bruce Baum

explores the history of the term and the category of the Caucasian race more broadly in the light of the changing politics of racial theory and notions of racial identity With a comprehensive sweep that encompasses the understanding of race even before the use of the term Caucasian Baum traces the major trends in scientific and intellectual understandings of race from the Middle Ages to the present day Baum's conclusions make an unprecedented attempt to separate modern science and politics from a long history of racial classification He offers significant insights into our understanding of race and how the Caucasian race has been authoritatively invented embraced displaced and recovered throughout our history

Zarathustra's Last Supper Weaver Santaniello, 2023-01-06 This book explores the historical contextualization of Nietzsche's thought focusing on Nietzsche's controversial *Thus Spoke Zarathustra* The fourth part of Nietzsche's *Zarathustra* consists of Zarathustra's encounter with eight higher men whom Zarathustra meets in succession on his path during the day The prophet then invites each individual to his cave for the evening festivities culminating in a blasphemous festival in which his guests worship an ass as God Revealing each guest's specific characteristics and very distinct roles Santaniello also attempts to discern who these guests are or represent historically through glimpsing the characteristics specific to each representative guest as portrayed by Nietzsche and through careful textual analysis comparison with Nietzsche's other works historical evidence and previous scholarly research This unique exploration of *Thus Spoke Zarathustra* offers students and researchers alike an invaluable new contribution to Nietzsche studies

British Imperial Strategies in the Pacific, 1750-1900 Jane Samson, 2021-02-28 The focus of this volume is Britain's trans Pacific empire This began with haphazard challenges to Spanish dominion but by the end of the 18th century the British had established a colony in Australia and had gone to the brink of war with Spain to establish trading rights in the north Pacific These rights led to formal colonies in Vancouver Island and British Columbia when Britain sought to maintain a north Pacific presence despite American expansionism In the later 19th century the international scramble for the Pacific resulted in new British colonies and protectorates in the Pacific islands The result was a complex imperial presence created from a variety of motives and circumstances The essays selected here take account of the wide range of economic political and cultural factors which prompted British expansion creating tension in Britain's imperial identity in the Pacific and leaving Pacific peoples with a complicated and challenging legacy Along with the important new introduction they provide a basis for the reassessment of British imperialism in the Pacific region

Population Politics in Twentieth Century Europe Maria-Sophia Quine, 2013-04-15 Maria Sophia Quine demystifies the population policies of fascist regimes by looking at them in the wider context of how societies in general reacted to the profound economic changes brought by industrialization *Population Politics in Twentieth Century Europe* provides an original comparative treatment of European population policies gives the historical background to twentieth century population policies considers topics such as racism and sexism in Nazi ideology Eugenics in England family allowance schemes in France and sterilization synthesizes the latest research in different fields and countries

Beyond the Racial State Devin Owen Pendas, Mark Roseman, Richard F. Wetzell, 2017-11-16 A fundamental reassessment of the ways that racial policy worked and was understood under the Third Reich Leading scholars explore race's function, content and power in relation to society and nation and above all in relation to the extraordinary violence unleashed by the Nazis

The Victorian Reinvention of Race Edward Beasley, 2010-07-02 In mid-Victorian England there were new racial categories based upon skin colour. The races familiar to those in the modern west were invented and elaborated after the decline of faith in Biblical monogenesis in the early nineteenth century and before the maturity of modern genetics in the middle of the twentieth. Not until the early nineteenth century would polygenetic and racist theories win many adherents. But by the middle of the nineteenth century in England racial categories were imposed upon humanity. How the idea of race gained popularity in England at that time is the central focus of *The Victorian Reinvention of Race*. New Racisms and the Problem of Grouping in the Human Sciences. Scholars have linked this new racism to some very dodgy thinkers. *The Victorian Reinvention of Race* examines a more influential set of the era's writers and colonial officials, some French but most of them British. Attempting to do serious social analysis, these men oversimplified humanity into biologically heritable, mentally and morally unequal, colour-based races. Thinkers giving in to this racist temptation included Alexis de Tocqueville when he was writing on Algeria, Arthur de Gobineau who influenced the Nazis, Walter Bagehot of *The Economist* and Charles Darwin whose *Descent of Man* was influenced by Bagehot. Victorians on Race also examines officials and thinkers such as Tocqueville in *Democracy in America*, the Duke of Argyll and Governor Gordon of Fiji who exercised methodological care, doing the hard work of testing their categories against the evidence. They analyzed human groups without slipping into racial categorization. Author Edward Beasley examines the extent to which the Gobineau-Bagehot-Darwin way of thinking about race penetrated the minds of certain key colonial governors. He further explores the hardening of the rhetoric of race prejudice in some quarters in England in the nineteenth century, the processes by which racism was first formed.

How Was It Possible? Peter Hayes, 2015 As the Holocaust passes out of living memory, future generations will no longer come face to face with Holocaust survivors. But the lessons of that terrible period in history are too important to let slip past. *How Was It Possible?*, edited and introduced by Peter Hayes, provides teachers and students with a comprehensive resource about the Nazi persecution of Jews. Deliberately resisting the reflexive urge to dismiss the topic as too horrible to be understood intellectually or emotionally, the anthology sets out to provide answers to questions that may otherwise defy comprehension. This anthology is organized around key issues of the Holocaust: from the historical context for antisemitism to the impediments to escaping Nazi Germany and from the logistics of the death camps and the carrying out of genocide to the subsequent struggles of the displaced survivors in the aftermath. Prepared in cooperation with the Jewish Foundation for the Righteous, this anthology includes contributions from such luminaries as Jean Ancel, Saul Friedländer, Tony Judt, Alan Kraut, Primo Levi, Robert Proctor, Richard Rhodes, Timothy Snyder and Susan Zuccotti. Taken together, the selections make the

ineffable fathomable and demystify the barbarism underlying the tragedy inviting readers to learn precisely how the Holocaust was in fact possible
