The Asian Challenge

Daniel A. Bell

The Asian Challenge:

The East Asian Challenge for Human Rights Joanne R. Bauer, Daniel A. Bell, 1999-02-13 The East Asian Challenge for Human Rights shows that critical intellectuals in East Asia have begun to chart a middle ground between the extremes of the international debate on human rights making particular headway in the areas of group rights and economic social and cultural ethnic minority rights The chapters form a collective intellectual inquiry into the following areas critical perspectives on the Asian values debate theoretical proposals for an improved international human rights regime with greater input from East Asians the resources within East Asian cultural traditions that can help promote human rights and key human rights issues facing East Asia as a result of rapid economic growth in the region *The East Asian Challenge for Democracy* Daniel A. Bell, 2013-08-12 The rise of China along with problems of governance in democratic countries has reinvigorated the theory of political meritocracy But what is the theory of political meritocracy and how can it set standards for evaluating political progress and regress To help answer these questions this volume gathers a series of commissioned research papers from an interdisciplinary group of leading philosophers historians and social scientists The result is the first book in decades to examine the rise or revival of political meritocracy and what it will mean for political developments in China and the rest of the world Despite its limitations meritocracy has contributed much to human flourishing in East Asia and beyond and will continue to do so in the future This book is essential reading for those who wish to further the debate and perhaps even help to implement desirable forms of political change **The Asian Challenge** John Andrews, 1991-01-01 **The Asian Modern** C.J.W.-L. Wee, 2007-10-01 How does one comprehend the phenomenon of the modernization of an Asian society in a globalized East Asian context With this opening question the author proceeds to give an account of how the modernization processes for postcolonial societies in Asia such as those of India Malaysia and Singapore are fraught with collaborations and conflicts between different socio political historical economic and cultural agents Such ambivalent dynamics contribute to what Wee argues as a revealing distortion of the extant models of Western modernity which is nonetheless rooted in the politics of worldwide capitalism Wee s narrative refuses to accept the uncritical interpretation of the modernizing processes in Asia as liberation from the hegemony of Euro American capitalism But neither is Wee prepared to concede that all cultural initiatives in the postcolonial societies are therefore denied all power to devise alternative forms of expression in the face of this haunting presence It is the persistent effort to see the many faces of modernization in Asia in their full complexity that sets this study apart Readers will discover that what seems to be the modernization of a single geopolitical entity is inevitably linked to the dynamics of various agents in other locations at different times which makes us reflect on the existence of the many distortions in our societies **The North Korean Nuclear Challenge** United States. Congress. House. Committee on International Relations. Subcommittee on Asia and the Pacific, 2005 The Battle for Asia Mark T. Berger, 2004 This book is a history of the Asian region from 1945 to the present day which delineates the various ideological battles over Asia s

development The United States and Japan in Asia: challenges for U.S. Policy, 1993 *An East Asian Challenge to Western Neoliberalism* Niv Horesh, Kean Fan Lim, 2017-08-03 Analysts generally agree that in the long term the biggest challenge to American hegemony is not military but rather China's economic rise. This perception is spread in no small measure because Xi Jinping has in the face of patent military inferiority conducted himself much more boldly on the world stage than Hu Jintao. Meanwhile China has also begun conjuring up an alternative vision for global leadership now widely termed as the China model. This book therefore offers a critical and comprehensive explanation of the China model and its origins. Using a range of case studies covering varying historical and geographical approaches it debates whether the Chinese experience in the last three decades of economic reform should be interpreted as an answer to the reigning hegemony of neoliberalism or rather a further reinforcement of it. To answer these questions it provides an investigation into what China may have learned from its East Asian neighbours earlier economic successes. It also examines how it is responding to and might even reconfigure the world political economic system as it develops fresh and potentially more powerful regulatory capacities. Providing a multi-dimensional analysis of the China model the book will be of interest to students and scholars of Chinese Economics, Economic Geography and Chinese Studies.

Sovereignty Under Challenge
 Nathan Glazer, 2017-09-20 Sovereignty the authority of a state to wield ultimate power over its territory its citizens its institutions is everywhere undergoing change as states respond in various ways to the challenges posed from above and below. Above the state is the widening net of international institutions and treaties dealing with human rights trade investment and monetary affairs and below it are rising claims within states from long resident groups discontented with the political order and from new migrants testing its authority. *Sovereignty Under Challenge* deals with a range of such challenges and responses analyzed in authoritative studies by leading scholars. The introductory chapter sets forth the theme that sovereignty is asserted clearly but often unpredictably when governments respond to challenge. It suggests ways of classifying these responses as variables that help explain the changing nature of sovereignty. Part 1 The Citizen and the State treats the rising tide of dual citizenship and the concerns this arouses in the United States the work of national human rights commissions in Asia and the challenge posed to the state by the Falungong movement in China. The two chapters in Part 2 The Government as Decision Maker examine Japan's response to global warming and the problems of the World Health Organization in orchestrating collaboration among Southeast Asian states in implementing infectious disease control. Part 3 Sovereignty and Culture looks at conflicts engendered by outside change on indigenous economic cultural and legal institutions in India Fiji Indonesia and Malaysia. The chapters in Part 4 Sovereignty and the Economy analyze the economic and cultural instability induced by Chinese migration to Russia's far east the impact on state sovereignty brought about by transnational regulatory campaigns and social activism the question of indigenous land rights in the Philippines and the impact of transnational corporations on information technology in Asia. A concluding chapter offers a global assessment of

the current status of state sovereignty The Elgar Companion to the Asian Development Bank M. G. Quibria, Albab Akanda, 2024-02-12 Providing an authoritative yet accessible introduction to the Asian Development Bank ADB this comprehensive Companion offers a detailed examination of the ADB's objectives policies development outcomes strengths and weaknesses areas for reform and challenges going forward
