Creatively spent and politically irrelevant the American horror film is a mere ghost of its former self or so goes the old saw from fans and scholars alike Taking on this undeserved reputation the contributors to this collection provide a comprehensive look at a decade of cinematic production covering a wide variety of material from the last ten years with a clear critical eye Individual essays profile the work of up and coming director Alexandre Aja and reassess William Malone s much maligned FearDotCom in the light of the torture debate at the end of President George W Bush s administration Other essays look at the economic social and formal aspects of the genre the globalization of the US film industry the alleged escalation of cinematic violence and the massive commercial popularity of the remake Some essays examine specific subgenres from the teenage horror flick to the serial killer film and the spiritual horror film as well as the continuing relevance of classic directors such as George A Romero David Cronenberg John Landis and Stuart Gordon Essays deliberate on the marketing of nostalgia and its concomitant aesthetic and on the curiously schizophrenic perspective of fans who happen to be scholars as well Taken together the contributors to this collection make a compelling case that American horror cinema is as vital creative and thought provoking as it ever was The West American Scientist ,1889 **The Breakup Artists** Adriana Mather,2024-06-04 Adriana Mather New York Times bestselling author of How to Hang a Witch brings her signature wit wild imagination and all the feels to her new YA novel The Breakup Artists perfect for fans of Jennifer E Smith s The Statistical Probability of Love at First Sight August and Valentine seventeen year old best friends run a business called Summer Love Inc They hire themselves out to unhappy parents whose kids are in bad relationships adopting fake identities and going undercover to break up these relationships by any means necessary Valentine the brains of the operation believes that they re making the world a better place by steering people away from a relationship precipice so they can someday find true love But for August every case is personal another chance to prove that true love doesn t exist He blames his sister s manipulative boyfriend for her death and unlike Valentine he doesn t believe in soulmates No he thinks the idea of falling head over heels is ridiculous at any age But then August meets Ella who suddenly turns everything he thought he believed about love upside down The problem is that she s their new case which means that everything he s told her about himself is a lie including his name
