The Auschwitz Myth A Judge Looks At The Evidence:

The Auschwitz Myth Wilhelm Stäglich,1990 *The Case for Auschwitz* Robert Jan van Pelt,2016-03-23 From January to April 2000 historian David Irving brought a high profile libel case against Penguin Books and Deborah Lipstadt in the British High Court charging that Lipstadt's book *Denying the Holocaust* 1993 falsely labeled him a Holocaust denier The question about the evidence for Auschwitz as a death camp played a central role in these proceedings Irving had based his alleged denial of the Holocaust in part on a 1988 report by an American execution specialist Fred Leuchter which claimed that there was no evidence for homicidal gas chambers in Auschwitz In connection with their defense Penguin and Lipstadt engaged architectural historian Robert Jan van Pelt to present evidence for our knowledge that Auschwitz had been an extermination camp where up to one million Jews were killed mainly in gas chambers Employing painstaking historical scholarship van Pelt prepared and submitted an exhaustive forensic report that he successfully defended in cross examination in court [Holocaust Denial as an International Movement](#) Stephen E. Atkins,2009-04-30 The end of World War II saw an emergence of Holocaust dissent that began in Europe and has since developed into an international movement with adherents in almost every country in the world At first this denial was fueled by the desire to rehabilitate Adolf Hitler and the Nazi regime in an effort to reestablish a neo Nazi state In the following years coupled with the renewal of anti-Semitism this dissent has been used as a means of denying the legitimacy of the state of Israel Despite these motivations the ultimate cause for concern is in the way this denial attracts its members by both challenging the existence of the Holocaust and the testimony of its witnesses By tracing the history causes and spread of Holocaust denial Atkins reveals the dangers this mindset poses to rational thinkers who become vulnerable to fringe ideas This book traces the state of the international Holocaust denial movement in the early 21st century grounding contemporary thought in the history of the movement Since Holocaust deniers have distorted the facts about this mass genocide Atkins discusses just what is known about the Holocaust from historical research conducted since World War II The role of negative racial genetics is explored in both Hitler's intellectual makeup and among the leaders of the German right wing including historians' assessments of Hitler's anti-Semitism motivations and decision making Also provided is a roll call of Holocaust dissenters in countries such as the United States Germany France Great Britain Russia and Italy among many others By analyzing the arguments of leaders within this expanding dissention movement this book demonstrates how extremists build informational links that have wide ranging effects **The Rise of David Duke** Tyler Bridges,1994 A gripping biography tracing the controversial Louisiana politician's quest for political legitimacy **Auschwitz** Wilhelm Stäglich,2015 Auschwitz is the epicenter of the Holocaust There is no place on earth where more people are said to have been murdered than at Auschwitz At this detention camp the industrialized mass murder of the Jews by Nazi Germany reached its demonic pinnacle This narrative is based on a wide range of evidence the most important of which was presented during two trials whose findings form the foundation of our

present image of Auschwitz the International Military Tribunal of 1945 1946 in Nuremberg Germany and the German Auschwitz Trial of 1963 1965 in Frankfurt When we dig deeper into the rulings of these trials and the actual evidence they are based upon however the story looks quite differently The late Wilhelm St gligh until the mid 1970s a German judge has so far been the only legal expert to critically analyze the foundations of what we today think we know about Auschwitz His research results as presented in this book leave the reader at times breathless when confronted with the incredibly scandalous way in which the Allied victors and later the German judicial authorities bent and broke the law in order to come to politically foregone conclusions St gligh also exposes the shockingly superficial way in which historians are dealing with the many incongruities and discrepancies of the historical record The present study is an eye opener for all those who think that the Auschwitz Holocaust has been proved beyond doubt either during these legal proceedings or by any other means This new edition is corrected and slightly revised It contains a foreword by the editor pointing the curious reader to more recent research results as well as an epilogue describing the persecution suffered by the author for his peaceful dissent after his book was first published in Germany in 1979 and then confiscated and burned by the authorities

The Force of Prejudice Pierre-André Taguieff, 2001 Pierre Andr Taguieff puts forward a powerful thesis that racism has evolved from an argument about races naturalizing inequality between biologically defined groups on the basis of fear of the other to an argument about cultures naturalizing historical differences and justifying exclusion Correspondingly Taguieff shows how antiracism must adopt the strategy that fits the variety of racism it opposes Already viewed as an essential work of reference in France *The Force of Prejudice* is an invaluable tool for identifying and understanding both racism and its antidote in our day

The Holocaust on Trial D. D. Guttenplan, 2012-08-13 The account of a trial in which the very meaning of the Holocaust was put on the stand D D Guttenplan s *The Holocaust on Trial* is a bristling courtroom drama where the meaning of history is questioned The plaintiff is British author David Irving one of the world s preeminent military historians whose works are considered essential World War II scholarship and whose biographies of leading Nazi figures have been bestsellers Irving refuses to admit to Hitler s responsibility in the extermination of European Jewry replying that the Holocaust as we know it never happened The defendant is Deborah Lipstadt who blew the whistle on Irving calling him one of the most dangerous spokespersons for Holocaust denial Irving sued for libel and under English law it was up to Lipstadt to prove the truth of her writings and the falseness of Irving s views
