The Australian Abc:

Strangling Aunty: Perilous Times for the Australian Broadcasting Corporation Virginia Small, 2021-09-24

Drawing on a wealth of academic research statistics and interviews with key Australian media people including present and former Australian Broadcasting Corporation staffers this book explores the transitions of the ABC under various types of organisational re strategising governance and political shifts The book provides the reader with an authoritative narrative as to how the ABC has lost its iconic status in Australian society and unfolds how the ABC has strayed from its respected public charter which endowed the ABC with a distinctive and important role in informing educating and entertaining the Australian public Successive federal government funding cuts have shrunk staffing levels and services while it has pursued a corporatist model that mimics the trappings and practices of commercial media In that process it has become politicised and trivialised thereby threatening its demise The book is a unique and timely contribution at a time of dwindling interest for the funding of public assets everywhere There is no other book in the market that addresses the decline of the organisation the ABC and analyses the reasons for its demise within an organisational theoretical framework The book is written for an educated general audience with academics and media practitioners specifically in mind and has everyday applications for business organisations operating in the public sector by bringing together important findings of public funding budgets management and organisational strategies and evolution

Transnational History of the Australian Animal Movement, 1970-2015 Gonzalo Villanueva, 2017-10-20 This book offers the first transnational historical study of the creation contention and consequences of the Australian animal movement Largely inspired by Peter Singer and his 1975 book *Animal Liberation* a new wave of animal activism emerged in Australia and across the world In an effort to draw public and media attention to the plight of animals such as the rearing of pigs and poultry in factory farms and the export of live animals to the Middle East and South East Asia Australian activists were often innovative and provocative in how they made their claims Through lobbying disruptive methods and vegan activism the animal movement consistently contested the politics and culture of how animals were used and exploited Australians not only observed and learnt from people and events overseas but also played significant international roles This book examines the complex and conflicting consequences of the animal movement for Australian politics as well as its influence on broader social change

The Australian TV Book Stuart Cunningham, 2020-07-25 Television is the most pervasive mass medium of the industrialised world It is blamed for creating alienation and violence in society yet at the same time regarded as trivial and unworthy of serious attention It is the main purveyor of global popular culture yet also intensely local The Australian TV Book paints the big picture of the small screen in Australia It examines industry dynamics in a rapidly changing environment the impact of new technology recent changes in programming and the ways in which the television industry targets its audiences The authors highlight what is distinctive about television in Australia and how it is affected by international

developments This book is essential reading for anyone who wants to understand Australian television today Stuart Cunningham is Professor of Media and Journalism at Queensland University of Technology Graeme Turner is director of the Centre for Critical and Cultural Studies at the University of Queensland They are editors of the leading textbook *The Media in Australia* and authors of many other works on the media

APAIS 1991: Australian public affairs information service , **Australian National Bibliography: 1992** National Library of Australia,1988 **The Australian Country Girl: History, Image, Experience** Catherine Driscoll,2016-03-23 The Australian Country Girl History Image Experience offers a detailed analysis of the experience and the image of Australian country girlhood In Australia country girl names a field of experiences and life stories by girls and women who have grown up outside of the demographically dominant urban centres But it also names a set of ideas about Australia that is surprisingly consistent across the long twentieth century despite also working as an index of changing times For a long period in Australian history well before Federation and long after it public and popular culture openly equated Australian character with rural life This image of Australian ness sometimes went by the name of the bush man now a staple of Australian history This has been counterbalanced post World War II and increased immigration by an image of sophisticated Australian modernity located in multicultural cities These images of Australia balance rather than contradict one another in many ways and the more cosmopolitan image of Australia is often in dialogue with that preceding image of the bush This book does not offer a corrective to the story of Australian national identity but rather a fresh perspective on this history and a new focus on the ever changing experience of Australian rural life It argues that the country girl has not only been a long standing counterpart to the Australian bush man she has more importantly figured as a point of dialogue between the country and the city for popular culture and for public sphere narratives about Australian society and identity

The Australian Government Muscling in on School Education Grant Rodwell,2020-05-07 Despite the Australian Constitution implying school education to be a state responsibility the Commonwealth has increasingly interfered with state school education The Australian Government Muscling in on School Education therefore offers a historical account of this government involvement in Australian education from federation to the present day providing a much needed fully updated and relevant overview the topic Arguing that education has become an arena for competing political forces this book examines the powerful influence of the Commonwealth over education and the political motives behind it exploring how politics influences aspects of the curriculum teaching standards assessment and reporting funding teacher selection and policy more broadly Ultimately questioning whether this influence is in the interests of the members of the community who depend on education the book holds government engagement in education to account Taking the major epochs of federalism as an organizing framework the book s chapters include explorations of The efficiency dynamic and the progressive years 1919 39 Postwar imperatives and the Menzies years 1949 72 Coordinative federalism and treading softly the Whitlam years 1972 5 and Fraser years 1975 83 Corporate federalism the Hawke Keating years 1983 96

Supply side federalism and globalization the Howard years 1996 2007 National control and the Rudd Gillard Abbott Turnbull and Morrison years 2007 15 A thorough and significant examination of the historical engagement of the Australian government in education this book is essential reading for student teachers and postgraduate students in education studies and politics **International Broadcasting and Its Contested Role in Australian Statecraft** Geoff Heriot, 2023-03-14 This book offers an insightful reappraisal of international broadcasting as discursive rather than soft power in service of democratic statecraft This at a time when issues of transnational media the credibility of news and the perils of disinformation and information warfare figure worryingly in public discourse Reflecting the perspective of middle power Australia author Geoff Heriot locates the strategic utility of multiplatform international broadcasting with reference to contemporary theories of soft hard smart power projection and intercultural communication He applies a fresh model of strategic analysis to the political history of Radio Australia examining the various external and internal variables that resulted in its flawed success in political communication during the late Cold War period Media Perceptions of Religious Changes in Australia Enqi Weng, 2019-12-05 This volume explores the contradiction between the news coverage given to issues of religion particularly since 2001 in relation to issues such as terrorism politics security and gender and the fact of its apparent decline according to Census data Based on media research in Australia and offering comparisons with the UK the author demonstrates that media discussions overlook the diversity that exists within religions particularly the country's main religion Christianity and presents religion according to specific interpretations shaped by race class and gender which in turn result in very limited understandings of religion itself Drawing on understandings of the sacred as a non negotiable value present in religious and secular form Media Perceptions of Religious Changes in Australia calls for a broader sociological perspective on religion and will appeal to scholars of sociology and media studies with interests in religion and public life
