The Autobiography Of An American Communist:

The Autobiography of an American Communist Peggy Dennis, 1977 Black Bolshevik Harry Haywood, 1978 Black Bolshevik is the autobiography of Harry Haywood the son of former slaves who became a leading member of the Communist Part USA and a pioneering theoretician on the Afro American struggle The author s first hand accounts of the Chicago race riot of 1919 the Scottsboro Boys defense communist work in the South the Spanish Civil War the battle against the revisionist betrayal of the Party and other history shaping events are must reading for all who are interested in Black history and the working class struggle Communism in America Albert Fried, 1997 And overview The 1920s birth insurgency retrenchment Militancy and combat third period communism 1929 1934 The popular front against fascism 1935 1945 Cold War and demise 1945 *The Many Worlds of American Communism* Joshua Morris, 2022-09-08 This book explores the multifaceted dimensions that make up the American communist movement from its early years in the 1920s to its peak in the years leading up to World War II The author argues that in order to effectively understand a social movement it is necessary to take an approach that differentiates between the political social and labor oriented motivations taken by the movement s participants By exploring the political community and labor dimensions of American communism the author helps convey the complex nature of social movements and the various ways they attempted to create agency in their society **A Black Communist in the Freedom Struggle** Harry Haywood, 2012 An extraordinary life story that encompasses the fight for African American freedom throughout the twentieth century **Encyclopedia of American Social Movements** Immanuel Ness, 2015-07-17 This four volume set examines every social movement in American history from the great struggles for abolition civil rights and women s equality to the more specific quests for prohibition consumer safety unemployment insurance and global justice *Street Meeting* Mark Wild, 2005-06-06 Immigrant neighborhoods of the early twentieth century have commonly been viewed as segregated homogeneous slums isolated from the larger American city But as Mark Wild demonstrates in this new study of Los Angeles such districts often nurtured dynamic diverse environments where residents interacted with individuals of other races and cultures In fact as his engaging account makes clear between 1900 and 1940 such multiethnic areas mushroomed in Los Angeles *Street Meeting* enriched with oral histories reminiscences newspaper reports and other sources examines interactions among working class Mexicans Chinese Japanese Jews Italians African Americans and others reminding us that Los Angeles has been a multiethnic city since its birth This study further argues that these ethnic interactions played a crucial role in the urban development of the United States during the early decades of the twentieth century *Hammer and Hoe* Robin D. G. Kelley, 2015-08-03 A groundbreaking contribution to the history of the long Civil Rights movement *Hammer and Hoe* tells the story of how during the 1930s and 40s Communists took on Alabama s repressive racist police state to fight for economic justice civil and political rights and racial equality The Alabama Communist Party was made up of working people without a Euro American radical political tradition devoutly

religious and semiliterate black laborers and sharecroppers and a handful of whites including unemployed industrial workers housewives youth and renegade liberals In this book Robin D G Kelley reveals how the experiences and identities of these people from Alabama s farms factories mines kitchens and city streets shaped the Party s tactics and unique political culture The result was a remarkably resilient movement forged in a racist world that had little tolerance for radicals After discussing the book s origins and impact in a new preface written for this twenty fifth anniversary edition Kelley reflects on what a militantly antiracist radical movement in the heart of Dixie might teach contemporary social movements confronting rampant inequality police violence mass incarceration and neoliberalism

Red Apple Phillip Deery, 2014-01-01 From the late 1940s through the 1950s McCarthyism disfigured the American political landscape Under the altar of anticommunism domestic Cold War crusaders undermined civil liberties curtailed equality before the law and tarnished the ideals of American democracy In order to preserve freedom they jettisoned some of its tenets Congressional committees worked in tandem although not necessarily in collusion with the FBI law firms university administrations publishing houses television networks movie studios and a legion of government agencies at the federal state and local levels to target subversive individuals Exploring the human consequences of the widespread paranoia that gripped a nation Red Apple presents the international and domestic context for the experiences of these individuals the House Un American Activities Committee hearings of the Joint Anti Fascist Refugee Committee resulting in the incarceration of its chairman Dr Edward Barsky and its executive board the academic freedom cases of two New York University professors Lyman Bradley and Edwin Burgum culminating in their dismissal from the university the blacklisting of the communist writer Howard Fast and his defection from American communism the visit of an anguished Dimitri Shostakovich to New York in the spring of 1949 and the attempts by O John Rogge the Committee s lawyer to find a third way in the quest for peace which led detractors to question which side he was on Examining real life experiences at the ground level Deery explores how these six individuals experienced responded to and suffered from one of the most savage assaults on civil liberties in American history Their collective stories illuminate the personal costs of holding dissident political beliefs in the face of intolerance and moral panic that is as relevant today as it was seventy years ago

New Studies in the Politics Michael E. Brown, 1993 This pathbreaking collection of essays recasts the prevailing conceptions of the historical roots and role of the U S Communist Party and its social setting The contributors focus on the movement that formed around the party and the popular culture it expressed particularly in the period from 1930 to 1960 They look at the impact of the party and its followers in the areas of education literature and the arts in the African American community and on the women s and labor movements In their preface the editors place the book in the context of the broader critical examination of the history of the left in the United States By analyzing the historical reasons for the party s appeal and its relationship to those outside its ranks the volume contributes to a fuller understanding of the broader societal context within which all oppositional movements are formed Contributors in order of appearance in book
