The Autobiography Of Bertrand Russell 1914 1944 Volume

Lauren Gardner

The Autobiography Of Bertrand Russell 1914 1944 Volume :

The Autobiography of Bertrand Russell, 1968 **The Collected Papers of Bertrand Russell, Volume 10** John Slater, Assisted by Peter Köllner, 2024-12-11 During the period covered by this volume Bertrand Russell first retired from and then resumed his philosophical career In 1927 he published two philosophy books *The Analysis of Matter* and *An Outline of Philosophy* His next book in academic philosophy *An Inquiry into Meaning and Truth* was not published until 1940 Yet Russell published a significant amount of essays and popular books between 1927 and 1946 mostly to finance the running of Beacon Hill School and his growing family Those years also saw his break up with Dora Russell his marriage to Patricia Peter Spence and a move of the family to the United States Volume 10 brings together Russell's writings on ethics politics religion and academic philosophy It is an invaluable guide to the thought and development of one of the most famous philosophers of this century

The Collected Papers of Bertrand Russell, Volume 26 Bertrand Russell, 2020-12-30 The Collected Papers of Bertrand Russell Volume 26 covers a period of transition in Russell's political life between his orthodox and sometimes pugnacious defence of the West in the early post war and the dissenting advocacy of nuclear disarmament and détente that started in earnest in the mid 1950s While some of the assembled writings echo harsh prior criticism of Soviet expansionism and dictatorship others register growing qualms about the recklessness of American foreign policy and the baneful effects on civil liberties of anti communist hysteria inside the United States Whether continuing to push for western rearmament or highlighting in a more placatory vein the folly of the Cold War's divisions and rival fanaticisms Russell's paramount objective was avoiding a war that threatened global catastrophe Suspended between fear and hope he expounded his evolving political concerns and much else besides including autobiographical reflections and typically common sense guidance for living well in a constant flow of newspaper and magazine articles letters to editors radio broadcasts and discussions and of special note a Nobel Prize acceptance speech Russell also completed two lecture tours of the United States the last of many as well as a landmark such visit to Australia All three of these journeys and the textual record they left are examined in depth using manuscript material and unpublished correspondence from the Bertrand Russell Archives at McMaster University which is mined extensively throughout the volume

Bertrand Russell Ray Monk, 1996 Russell's avant garde philosophy of free love combined with his principled pacificism would make him an icon of the international Left in the 1960s [The Collected Papers of Bertrand Russell, Volume 14](#) Bertrand Russell, 2024-08-01 During the First World War Bertrand Russell was political commentator for *The Tribunal* the official weekly publication of the No Conscription Fellowship of which Russell was Action Chairman This volume contains many short papers from that period which reflect Russell's immediate responses to developments in the conflict These documents bear witness to Russell's growing commitment to pacifism and reveal the development of the patterns of political argument rhetoric and activism which were to characterise his work throughout his life

The Collected Papers of Bertrand Russell, Volume 15 Beryl Haslam, Richard A. Rempel, 2024-08-01 The

Collected Papers of Bertrand Russell Volume 15 assembles Russell's writings on his experiences of visiting and reflecting on Russia and China. Having emerged from the Great War determined to prevent another armed conflict, Russell became a champion of international socialism as the antidote to the destructive forces of nationalism and capitalism. His quest for international reconstruction led to two enduring experiences: his trip first to Bolshevik Russia in 1920 and then to divided China in 1920-21. These letters describe those experiences which confirmed his emergence as a popular commentator on contemporary political issues. The volume includes two unpublished papers on Russell's trip to Russia.

Wittgenstein's Artillery James C. Klagge, 2021-08-03 How Wittgenstein sought a more effective way of reaching his audience by a poetic style of doing philosophy. Ludwig Wittgenstein once said: "Really one should write philosophy only as one writes poetry." In Wittgenstein's *Artillery*, James Klagge shows how, in search of ways to reach his audience, Wittgenstein tried a more poetic style of doing philosophy. Klagge argues that deploying this new philosophical artillery—Klagge's term for Wittgenstein's methods of influencing his readers and students—Wittgenstein moved from an esoteric mode to an evangelical mode, aiming for an effect on his audience that was noncognitive, appealing to the temperament in addition to the intellect. Wittgenstein was an artillery spotter directing artillery fire to targets in the Austrian army during World War I, and Klagge argues that years later he became a philosophical spotter struggling to find the right artillery to accomplish his philosophical purpose. Klagge shows how Wittgenstein's work with his students influenced his style of writing philosophy and motivated him to care about the effect of his ideas on his audience. To illustrate Wittgenstein's evolving approach, Klagge draws on not only Wittgenstein's best-known works but also such lesser-known material as notebooks, dictations, lectures, and recollections of students. Klagge then goes beyond Wittgenstein to present a range of literature, biblical parables, and children's stories—Dostoevsky and Tolstoy, Kierkegaard and Nietzsche—as other examples of the poetic approach. He concludes by offering his own attempts at a poetic approach to addressing philosophical issues.

The Roots and Flowers of Evil in Baudelaire, Nietzsche, and Hitler Claire Ortiz Hill, 2006 Baudelaire, Nietzsche, and Hitler: a poet, a philosopher, and a politician each profoundly understood the seductive attraction of evil. All three clearly and candidly depicted evil in idealized garb. Underneath superficial appearances of contradiction, we find in their writings uncanny insight into the human essence behind the masks of convention and hypocrisy.

Seven Types of Atheism John Gray, 2018-10-02 From the provocative author of *Straw Dogs* comes an incisive, surprising intervention in the political and scientific debate over religion and atheism. When you explore older atheisms, you will find that some of your firmest convictions—secular or religious—are highly questionable. If this prospect disturbs you, what you are looking for may be freedom from thought. For a generation now, public debate has been corroded by a shrill, narrow derision of religion in the name of an often vaguely understood science. John Gray's stimulating and enjoyable new book *Seven Types of Atheism* describes the complex, dynamic world of older atheisms, a tradition that, as he writes, in many ways is intertwined with and as rich as religion itself. Along a spectrum that ranges from the

convictions of God haters like the Marquis de Sade to the mysticism of Arthur Schopenhauer from Bertrand Russell's search for truth in mathematics to secular political religions like Jacobinism and Nazism Gray explores the various ways great minds have attempted to understand the questions of salvation purpose progress and evil The result is a book that sheds an extraordinary light on what it is to be human

Encyclopedia of Global Justice Deen K. Chatterjee, 2012-01-23 This two volume Encyclopedia of Global Justice published by Springer along with Springer's book series Studies in Global Justice is a major publication venture toward a comprehensive coverage of this timely topic The Encyclopedia is an international interdisciplinary and collaborative project spanning all the relevant areas of scholarship related to issues of global justice and edited and advised by leading scholars from around the world The wide ranging entries present the latest ideas on this complex subject by authors who are at the cutting edge of inquiry The Encyclopedia sets the tone and direction of this increasingly important area of scholarship for years to come The entries number around 500 and consist of essays of 300 to 5000 words The inclusion and length of entries are based on their significance to the topic of global justice regardless of their importance in other areas

Unveiling the Magic of Words: A Report on "**The Autobiography Of Bertrand Russell 1914 1944 Volume** "

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring.
