Adams**

The Autumn Of The Middle Ages:

The Autumn of the Middle Ages Johan Huizinga, 2020-04-25 Here is the first full translation into English of one of the twentieth century's few undoubted classics of history. The Washington Post Book World: The Autumn of the Middle Ages is Johan Huizinga's classic portrait of life, thought, and art in fourteenth and fifteenth century France and the Netherlands. Few who have read this book in English realize that *The Waning of the Middle Ages*, the only previous translation, is vastly different from the original Dutch and incompatible with all other European language translations. For Huizinga, the fourteenth and fifteenth century marked not the birth of a dramatically new era in history, the Renaissance, but the fullest, ripest phase of medieval life and thought. However, his work was criticized both at home and in Europe for being old-fashioned and too literary. When *The Waning of the Middle Ages* was first published in 1919, in the 1924 translation Fritz Hopman adapted, reduced, and altered the Dutch edition, softening Huizinga's passionate arguments, dulling his nuances, and eliminating theoretical passages. He dropped many passages Huizinga had quoted in their original, old French. Additionally, chapters were rearranged, all references were dropped, and mistranslations were introduced. This translation corrects such errors, recreating the second Dutch edition, which represents Huizinga's thinking at its most important stage. Everything that was dropped or rearranged has been restored. Prose quotations appear in French, with translations preprinted at the bottom of the page; mistranslations have been corrected. A once pathbreaking piece of historical interpretation, this new translation will no doubt bring Huizinga and his pioneering work back into the discussion of historical interpretation. Rosamond McKitterick, *The New York Times Book Review*. [The Waning of the Middle Ages](#) J. Huizinga, 2010-07-03 A study of the forms of life, thought, and art in France and the Netherlands in the fourteenth and fifteenth centuries. **Rereading Huizinga** Peter Arnade, Martha Howell, Anton Lem, 2025-10-01 Rereading Huizinga's *Autumn of the Middle Ages* a century later explores the legacy and historiographical impact of Johan Huizinga's 1919 masterwork a century after its publication. Often considered one of the most successful books in medieval European history, its reception has varied over the last hundred years: popular with non-academic readers and appraised more critically by fellow historians and those more generally in the field of medieval studies. There is broad consensus, however, about the work's absolute centrality, and the authors of this volume assess the *Autumn of the Middle Ages*' reception, afterlife, and continued vitality. *The Waning of the Middle Ages* Johan Huizinga, 1924. **The Waning of the Middle Ages** Johan Huizinga, 2021-03-09 This work is a classic, a thorough examination of life and culture in the Middle Ages as it progressed toward the Renaissance. The author shows how the 14th and 15th century history marked not only the birth of a dramatically new era, the Renaissance, but the fullest, ripest phase of medieval life and thought. This work is a classic, a thorough examination of life and culture in the Middle Ages as it progressed toward the Renaissance. The author shows how the 14th and 15th century history marked not only the birth of a dramatically new era, the Renaissance, but the fullest, ripest phase of medieval life and thought. **Essays in Later Medieval History** Ernest Fraser Jacob, 1968

The Waxing of the Middle Ages Charles-Louis Morand-Métivier, Tracy Adams, 2023-04-14 Johan Huizinga's much loved and much contested *Autumn of the Middle Ages* first published in 1919 encouraged an image of the Late French Middle Ages as a flamboyant but empty period of decline and nostalgia. Many studies, particularly literary studies, have challenged Huizinga's perceptions of individual works or genres. Still, the vision of the Late French and Burgundian Middle Ages as a sad transitional phase between the High Middle Ages and the Renaissance persists. Yet a series of exceptionally significant cultural developments mark the period. *The Waxing of the Middle Ages* sets out to provide a rich, complex and diverse study of these developments and to reassert that late medieval France is crucial in its own right. The collection argues for an approach that views the late medieval period not as an afterthought or a blind spot but as a period that is key in understanding the fluidity of time, traditions, culture and history. Each essay explores some cultural form to borrow Huizinga's expression to expose the false divide that has dominated modern scholarship.

The History of Emotions Jan Plamper, 2015-01-22 The history of emotions is one of the fastest growing fields in current historical debate and this is the first book-length introduction to the field synthesizing the current research and offering direction for future study. *The History of Emotions* is organized around the debate between social constructivist and universalist theories of emotion that has shaped most emotions research in a variety of disciplines for more than a hundred years. Social constructivists believe that emotions are largely learned and subject to historical change while universalists insist on the timelessness and pan-culturalism of emotions. In historicizing and problematizing this binary, Jan Plamper opens emotions research beyond constructivism and universalism. He also maps a vast terrain of thought about feelings in anthropology, philosophy, sociology, linguistics, art history, political science, the life sciences from nineteenth-century experimental psychology to the latest affective neuroscience and history from ancient times to the present day.

Huizinga's Autumn of the Middle Ages Rodney Johns Payton, 1994 *The Haskins Society Journal* 14 Stephen Morillo, Stephen R. Morillo, 2005-02 Recent research on the Anglo-Saxon, Anglo-Norman, Viking and Angevin worlds of the eleventh and twelfth centuries. The latest volume of the *Haskins Society Journal* presents recent research on the Anglo-Saxon, Anglo-Norman, Viking and Angevin worlds of the eleventh and twelfth centuries and includes topics ranging from emotional communities in the middle ages, English identity and the artistic construction of sacred space to the organization of royal estates, Jewish credit operations, the English colonization of Wales and more. This volume of the *Haskins Society Journal* includes papers read at the 21st Annual Conference of the Charles Homer Haskins Society at Cornell University in October 2002 as well as other submissions. Contributors include Barbara Rosenwein, Kate Rambridge, Nicholas Brooks, Ryan Lavelle, Robin Mundill, Diane Korngiebel, Ryan Crisp, Philadelphia Ricketts, Louis Hamilton and Brigitte Bedos Rezak.
