The Ballad As Song

The Ballad As Song:

The Ballad as Song Bertrand H. Bronson, 2023-11-15 *The Ballad as Song* is a collection of essays tracing the author's decades long exploration of the intersection between traditional ballads and their accompanying tunes. Initially approached as a casual hobby, the project grew into a comprehensive inquiry into the melodies of Child ballads and their historical and cultural significance. The essays aim to bring together folk song and balladry, offering a perspective on how these elements interact and evolve through traditional transmission. The author reflects on challenges in classifying melodies, understanding modal shifts, and analyzing the interplay of text and tune areas that remain underexplored in the field of folk music studies. While the essays adhere to a consistent viewpoint, they also provide insights into enduring problems in ballad research, such as melodic identity, variation, and the transmission of tradition. Though not aligned with contemporary trends in social theory, the collection emphasizes the value of historical perspective, underscoring the importance of roots in understanding folk music. Through these essays, the author seeks to engage with current assumptions and open up new directions for comparative and analytical approaches to traditional balladry and its music. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1969. Poetic Origins and the Ballad Louise Pound, 1921 **The Intertextuality and Intermediality of the Anglophone Popular Song** Michael Ingham, 2022-09-07 Popular song is a liminal hybrid form of cultural production. As a manifestation of adaptation studies, it has lacked visibility by comparison with more dominant adaptation practices, especially those for the screen. This book serves to fill this gap. It investigates what songwriters read and write before they start singing, showing that they need either to adapt material from existing sources or write their own lyrics drawn from a wide range of source texts and personal experiences. They are subject to myriad influences, and among these are other song lyrics, poems, novels, plays, films, and hybrid cultural forms. This deep structure of intertextuality is embedded in the cultural flux of language and operates at both conscious and subconscious levels. This book thus explores the complex and multifarious intertextual connections between popular songs of various genres, styles, and eras and literary works, including but by no means limited to the Bible and Shakespeare. As such, it offers a valuable resource by exploring the deep intertextual significance of literary source material for the intellectual and emotional diversity that can be found in the popular song form, the inverse reciprocal relationship while much less common is also considered in the study.
