Ecolinguistics Reader Alwin Fill, Peter Mühlhäusler, 2006-05-01 Thirty years ago a new linguistic paradigm was created when Einar Haugen for the first time combined language with ecology For Haugen the ecology of language meant the study of the interrelations between languages in the human mind and in the multilingual community Since then a special branch of linguistics named ecolinguistics has developed in which the connection between language and ecology has been established in a variety of ways and by using a multitude of methods and approaches This reader contains important articles from all the different fields of ecolinguistics a volume long overdue for a discipline now recognized as a significant contribution to variety within the subject

Reading the Skies Vladimir Jankovic, 2001-04-19 From the time of Aristotle until the late eighteenth century meteorology meant the study of meteors spectacular objects in the skies beneath the moon which included everything from shooting stars to hailstorms In *Reading the Skies* Vladimir Jankovic traces the history of this meteorological tradition in Enlightenment Britain examining its scientific and cultural significance Jankovic interweaves classical traditions folk popular beliefs and practices and the increasingly quantitative approaches of urban university men to understanding the wonders of the skies He places special emphasis on the role that detailed meteorological observations played in natural history and chorography or local geography in religious and political debates and in agriculture Drawing on a number of archival sources including correspondence and weather diaries as well as contemporary pamphlets tracts and other printed sources reporting prodigious phenomena in the skies this book will interest historians of science Britain and the environment

Reading, Writing and Dyslexia Andrew W. Ellis, 1993 This textbook attempts to present work on reading and writing and on acquired and developmental dyslexia to a non specialist audience

The Internet as Second Action Space Aharon Kellerman, 2014-07-11 One of the most significant and important advancements in information and communication technology over the past 20 years is the introduction and expansion of the Internet Now almost universally available the Internet brings us email global voice and video communications research repositories reference libraries and almost unlimited opportunities for daily activities Bridging geographical distances in unprecedented ways the Internet has impacted all aspects of our daily lives from facilitating the running of businesses the attainment of services and keeping in touch with friends and family Accessible at any time and for many of us from our mobile phones the Internet has opened up a world of knowledge and communication platforms that we cannot now imagine living without This book explores the concept that the Internet has become a second action space for individuals Coexisting with traditional and obvious real space the Internet serves as a novel spatial platform and action space to its subscribers all

over the world Kellerman expertly discusses this notion and examines the practical integration of cyberspace with real space Part I examines the Internet as a platform for action and presents its relations with physical space concerning a range of uses and applications which were traditionally performed in physical space only It discusses the idea that the Internet has become a second space and explores theoretical perspectives surrounding this notion The Internet has undeniably made humankind more efficient and connected Part II explores the Internet as an action space for human life considering basic human needs curiosity identity and social relations It further considers instances whereby use and application of the Internet cannot be fully performed in real space mainly regarding people s presentation of identity Part III explores daily actions over the Internet such as work shopping banking and social interactions Kellerman also briefly touches on the darker aspects that the expansion of the Internet has made possible including its role in fraud and other crimes The concluding chapter discusses people living across the two spaces and identifies potential future developments The Internet as Second Actions Space will appeal to students across the social sciences in particular those studying Geography Sociology Media Studies Internet Studies Business and related disciplines

Entertainment Industry Economics Harold L. Vogel, 2007-04-23 In this newly revised book Harold L Vogel examines the business economics of the major entertainment enterprises movies music television programming broadcasting cable casino gambling and wagering publishing performing arts sports theme parks and toys and games The seventh edition has been further revised and broadened and differs from its predecessors by restructuring and repositioning the previous Internet chapter including new material on the economics of networks and advertising adding a new section on policy implications and further expanding the section on recent theoretical work pertaining to box office behaviour The result is a comprehensive up to date reference guide on the economics financing production and marketing of entertainment in the United States and overseas Investors business executives accountants lawyers arts administrators and general readers will find that the book offers an invaluable guide to how entertainment industries operate

Reader's Guide to the Social Sciences Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense

Beyond Little Women Lauren Hehmeyer, 2025-02-24 This collection concentrates on the secondary works of Louisa May Alcott and looks at the idea that Alcott was as heavily influenced by her times as by her transcendentalist upbringing Her work often subverts the conventional and includes the new the practical and the real The sections include 1 the gothic and the monstrous feminine 2 the theme of useful work 3 the themes of physical and mental health and 4 Alcott s philosophy concerning creativity and genius Contributors emphasize Alcott s belief in women s agency and argue that Alcott can be considered as a brilliant bridge between the Transcendental idealism of the early nineteenth

century and later reforms *The Thought Reader Craze* Barry H. Wiley, 2012-10-06 Beginning in 1870 the hunger for scientific discovery in Great Britain drove prominent scientists philosophers and others to promote the legitimacy of telepathy At the same time mind reading as a form of entertainment gained increasing popularity as persuasive performers like John Randall Brown W I Bishop and Stuart C Cumberland convinced reporters that they truly could read the thoughts of others The widely publicized sometimes bizarre interactions between scientists and these charlatans ushered in the Thought Reader Craze a period that lasted through about 1910 and saw entertainers make and lose fortunes and scientists make and lose reputations This volume explores this unusual cultural phenomenon showing how it was aided through the years by public scientific pronouncements astonishing performances by the thought readers and the rapidly changing industrial society **The Reader, the Body, and the Book** Natasha Anderson, 2025-05-15 How do books dazzle disgust or delight audiences What entices readers to track characters trials and tribulations Why do stories echo across the ages with their intensity Books with vibrant somatic elements prompt us to identify with protagonists who fall in love flee from pursuers and fight for survival enhancing the awareness of our own bodies This transatlantic diachronic study of 19th century literature analyzes the rising complexity of sensorimotor descriptions in four major Victorian novels Anne Brontë's *The Tenant of Wildfell Hall* Charlotte Brontë's *Villette* Henry James's *The Portrait of a Lady* and Thomas Hardy's *Tess of the d'Urbervilles* Based on phenomenological insights of French philosophers Maurice Merleau-Ponty and Paul Ricœur this groundbreaking research on visceral reading experiences in British and U S American fiction illuminates the immersive appeal of bodily motions and sensations in books film adaptations and digital resources of the 21st century
