Kabbalah and Sex Magic Marla Segol, 2021-09-08 In this provocative book Marla Segol explores the development of the kabbalistic cosmology underlying Western sex magic Drawing extensively on Jewish myth and ritual Segol tells the powerful story of the relationship between the divine and the human body in late antique Jewish esotericism in medieval kabbalah and in New Age ritual practice Kabbalah and Sex Magic traces the evolution of a Hebrew microcosm that models the powerful interaction of human and divine bodies at the heart of both kabbalah and some forms of Western sex magic Focusing on Jewish esoteric and medical sources from the fifth to the twelfth century from Byzantium Persia Iberia and southern France Segol argues that in its fully developed medieval form kabbalah operated by ritualizing a mythos of divine creation by means of sexual reproduction She situates in cultural and historical context the emergence of Jewish cosmological models for conceptualizing both human and divine bodies and the interactions between them arguing that all these sources position the

body and its senses as the locus of culture and the means of reproducing it Segol explores the rituals acting on these models attending especially to their inherent erotic power and ties these to contemporary Western sex magic showing that such rituals have a continuing life Asking questions about its cosmology myths and rituals Segol poses even larger questions about the history of kabbalah the changing conceptions of the human relation to the divine and even the nature of religious innovation itself This groundbreaking book will appeal to students and scholars of Jewish studies religion sexuality and magic

Making Magic in Elizabethan England Frank Klaassen, 2019-07-26 This volume presents editions of two fascinating anonymous and untitled manuscripts of magic produced in Elizabethan England the Antiphoner Notebook and the Boxgrove Manual Frank Klaassen uses these texts which he argues are representative of the overwhelming majority of magical practitioners to explain how magic changed during this period and why these developments were crucial to the formation of modern magic The Boxgrove Manual is a work of learned ritual magic that synthesizes material from Henry Cornelius Agrippa the Fourth Book of Occult Philosophy Heptameron and various medieval conjuring works The Antiphoner Notebook concerns the common magic of treasure hunting healing and protection blending medieval conjuring and charm literature with materials drawn from Reginald Scot's famous anti magic work Discoverie of Witchcraft Klaassen painstakingly traces how the scribes who created these two manuscripts adapted and transformed their original sources In so doing he demonstrates the varied and subtle ways in which the Renaissance the Reformation new currents in science the birth of printing and vernacularization changed the practice of magic Illuminating the processes by which two sixteenth century English scribes went about making a book of magic this volume provides insight into the wider intellectual culture surrounding the practice of magic in the early modern period Portraits of Old Russia Donald Ostrowski, Marshall T.

Poe, 2015-07-17 This book introduces readers to a little known place and time in world history early modern Russia from its beginnings as Muscovy in the fourteenth century through the reign of Peter I 1689 1725 by portraying the lives of representative individuals from the major levels of the society of that era The portraits written by professional historians are imaginative reconstructions or composites of individual lives rather than biographies The portraits are arranged into socio political categories and include members of ruling families government servitors clerks military personnel church prelates monks provincial landowners townspeople and artisans Siberian explorers and traders free peasants serfs slaves and holy fools Using these portraits the book brings old Russian society to life in an interesting way **Medicine, Religion, and**

Magic in Early Stuart England Ofer Hadass, 2018-03-26 The astrologer physician Richard Napier 1559 1634 was not only a man of practical science and medicine but also a master of occult arts and a devout parish rector who purportedly held conversations with angels This new interpretation of Napier reveals him to be a coherent and methodical man whose burning desire for certain true knowledge contributed to the contemporary venture of putting existing knowledge to useful ends Originally trained in theology and ordained as an Anglican priest Napier later studied astrological medicine and combined

astrology religious thought and image and ritual magic in his medical work Ofer Hadass draws on a remarkable archive of Napier's medical cases and religious writings including the interviews he claimed to have held with angels to show how Napier's seemingly inconsistent approaches were rooted in an inclusive and coherent worldview combining equal respect for ancient authority and for experientially derived knowledge Napier's endeavors exemplify the fruitful relationship between religion and science that offered a well founded alternative to the rising mechanistic explanation of nature at the time Carefully researched and compellingly told *Medicine Religion and Magic in Early Stuart England* is an insightful exploration of one of the most fascinating figures at the intersection of medicine magic and theology in early modern England and of the healing methods employed by physicians of the era
