change because it is an ongoing challenge for most of us So are relationships With more than six decades of experience working with couples we knew we had vital information lessons and insights to share but we insisted that the book be short engaging and easy to read A helpful book does not have to be dense to be packed with wisdom skills and ideas that can open the door to a new era of fulfilling relationships We have brought complex material and common sense into a format that is carefully constructed to achieve results by being communicative and consistent enjoyable and hopeful Unlike the textbook appearance of most self help books that include psychological jargon case examples and exercises The Art of Love The Craft of Relationship uses stories and dialogue to teach profound insights and valuable skills It sticks to people talking in a way the reader can identify with and understand It brings hope because the reader who is experiencing stress in a relationship can see that other people like them are too And that learning a few basic skills can bring lasting change and renew love The best news is that our book will be useful to many people because it will give them a new way to look at their relationship and the skills to handle problem after problem in a way that builds love and trust Our mission is to appeal strongly to those who are considering a relationship seeking to renew one or are looking for a way to understand a partner and a process for dealing with problems in love romance sex intimacy and living together
