The Art Of Parmigianino:

The Art of Parmigianino David Franklin, Parmigianino, 2003-01-01 The beauty and range of the work of the sixteenth century artist Parmigianino as painter draughtsman and printmaker make him one of the most remarkable figures of the Italian Renaissance He was an artist who seemed to discover his style without any effort and his art was universally recognized as being graceful or full of grace In his day grace was understood to be a spiritual endowment conferring qualities that could not be taught It was one of the preconditions of natural genius so highly valued among Renaissance artists But nothing as effortlessly elegant as Parmigianino's drawings and paintings could have been achieved without effort It is through a close study of the drawings in particular that one is able to discern the sources of Parmigianino's style and the creative struggles he endured This illustrated study offers a comprehensive reassessment of his work as a draughtsman More than eighty works on paper selected from collections around the world are discussed in detail Among Renaissance artists Parmigianino was perhaps more conscious than any of the potential of the graphic arts to convey and indeed broadcast complex ideas He explored this potential himself not only by means of his numerous drawings but also through the etchings he produced on his own effectively introducing this print medium into Italian art and through the engravings and chiaroscuro woodcuts that were made after his designs In these media his influence travelled farther and wider than it could have through his paintings alone This book coinciding with the quincentenary of the artist's birth in Parma in 1503 accompanies an exhibition presented at the National Gallery of Canada Ottawa from October 3 2003 to January 4 2004 and at The Frick Collection New York from January 27 to April 18 2004 [The Art of Parmigianino](#) David Franklin, Parmigianino, David Ekserdjian, National Gallery of Canada, 2003

Correggio and Parmigianino Elisabetta Fadda, Maddalena Spagnolo, Mary Vaccaro, 2016 The exhibition aims to allow visitors to avail themselves of a selection of masterpieces from some of the world's leading museums to compare and contrast the artistic careers of two of the greatest luminaries of the Italian Renaissance Antonio Allegri known as Correggio 1489-1534 and Francesco Mazzola known as Parmigianino 1503-40 The formidable talent of these two artists alone placed the city of Parma in the early 16th century on an equal footing with the peninsula's other great art capitals Rome Florence and Venice 00 Correggio only travelled to Parma when he was already at the height of his career in the late 1510s but he was to remain in the city for the rest of his life Some twenty of his paintings covering his entire career have been selected to underscore the extraordinary emotive force and expressive range that the artist put not only into his religious works but also into his mythological paintings which were to have such a huge impact on later artists ranging from the Carracci brothers to Watteau and even to Picasso 00 The exhibition Correggio e Parmigianino Arte a Parma nel Cinquecento Correggio and Parmigianino Art in Parma during the 16th century hosts such unquestioned masterpieces as the Barrymore Madonna from the National Gallery of Art in Washington the Portrait of a Lady from the State Hermitage Museum in St Petersburg the Martyrdom of Four Saints from the Galleria Nazionale in Parma the Noli Me Tangere from the

Parmigianino's enigmatic painting of *The Madonna of the Long Neck* It treats the subject in terms of iconography semiotics studio practice and art theory The painting is not merely an example of mannerist extravagance but that the Virgin in her extraordinary distension can be explained by a litany in Ecclesiasticus with her enlargement read as a signifier of her mercy Parmigianino's panel is interpreted as an Immaculate Conception Because the magisterium had not fully defined the belief as dogma the theological debate confused the artist and his contemporaries but also gave them flexibility in their depictions of this abstract doctrine The subject's genesis as a theological exercise is traced through the artist's drawings Illustrations in full color and b w *Parmigianino: 116 Master Drawings* Blagoy Kiroff, 2015-06-24 Girolamo Francesco Maria Mazzola also known as Parmigianino the little one from Parma was an Italian Mannerist painter and printmaker active in Florence Rome Bologna and his native city of Parma His work is characterized by elongation of form and includes *Vision of Saint Jerome* 1527 and the *Madonna with the Long Neck* 1534 Parmigianino was also an early Italian etcher a technique that was pioneered in Italy by Marcantonio Raimondi but which appealed to draughtsmen though the techniques of printing the copper plates require special skills the ease with which acid when substituted for ink can reproduce the spontaneity of an artist's hand attracted Parmigianino a master of elegant figure drawing Parmigianino also designed chiaroscuro woodcuts and although his output was small he had a considerable influence on Italian printmaking Some of his prints were done in collaboration with Giovanni Jacopo Caraglio **The Self-deceiving Muse** Alan Singer, 2010 Focuses on the phenomenon of self deception and proposes a radical revision of our commonplace understanding of it as a token of irrationality Argues that self deception can illuminate the rationalistic functions of character Provided by publisher
