The Artisans of Banaras Nita Kumar, 2017-03-14 Nita Kumar offers an evocative and sensitive portrayal of rarely explored aspects of Hindu culture through her analysis of the way leisure time is used by Hindu and Muslim artisans of Banaras the weavers metalworkers and woodworkers Music festivals the place of physical culture and the importance of going to the outer side all are examined as Kumar looks at changes that have occurred in leisure time activities over the last century The discussion raises questions of the cultural and conceptual aspects of working class life the role of fun and play in Indian thought the importance of public activities in terms of personal identity and the meaning of an Indian city to its residents This analysis turns away from the usual models of Hindu Muslim conflict by seeing divisions based on occupation income level education and urban neighborhood as more relevant for the construction of identity than those based on religion or community Kumar draws her information from police station records Hindi newspapers and periodicals publications of local individuals and organizations oral history and ethnographic data Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Banaras: Urban Forms and Cultural Histories Michael S. Dodson, 2021-01-31 The book presents a rich and surprising account of the recent history of the north Indian city of Banaras Supplementing traditional accounts which have focused upon the city's religious imaginary this volume brings together essays written by acknowledged experts in north Indian culture and history to examine the construction of diverse urban identities in and after the British colonial period Drawing on fields such as archaeology literature history and architecture these accounts of Banaras understand the narratives which inscribe the city as having been forged substantially in the experiences of British rule But while British rule transformed the city in many respects the essays also emphasize the importance of Indian agency in these processes The book also examines the essential ambiguity of modernization schemes in the city as well as the contingency of elements of religious narrative The introduction

moreover attempts to resituate Banaras into a wider tradition of urban studies in South Asia The book will be of interest to not only scholars and students of north Indian culture and urban history but also anyone looking to gain a deeper appreciation of this remarkable and complex city
