The Augustinian Epic Petrarch To Milton:

The Augustinian Epic, Petrarch to Milton J. Christopher Warner, 2005-06 New interpretations of Petrarch and Milton in an ambitious and revisionist history of epic tradition **The Augustinian Epic, Petrarch to Milton** J. Christopher Warner, 2010-06-10 The Augustinian Epic Petrarch to Milton rewrites the history of the Renaissance Vergilian epic by incorporating the neo Latin side of the story alongside the vernacular one revealing how epics spoke to each other across the language gap and together comprised a single Augustinian tradition of epic poetry Beginning with Petrarch's Africa Warner offers major new interpretations of Renaissance epics both famous and forgotten from Milton's Paradise Lost to a Latin Christiad by his near contemporary Alexander Ross thereby shedding new light on the development of the epic genre For advanced undergraduate students graduate students and scholars in the fields of Italian English and Comparative literatures as well as the Classics and the history of religion and literature Eternity in British Romantic Poetry Madeleine

Callaghan, 2022-05-13 Eternity in British Romantic Poetry explores the representation of the relationship between eternity and the mortal world in the poetry of the period It offers an original approach to Romanticism that demonstrates against the grain the dominant intellectual preoccupation of the era the relationship between the mortal and the eternal The project's scope is two fold firstly it analyses the prevalence and range of images of eternity from apocalypse and afterlife to transcendence in Romantic poetry secondly it opens up a new and more nuanced focus on how Romantic poets imagined and interacted with the idea of eternity Every poet featured in the book seeks and finds their uniqueness in their apprehension of eternity From Blake's assertion of the Eternal Now to Keats's defiance of eternity Wordsworth's two consciousnesses versus Coleridge's capacious poetry Byron's swithering between versions of eternity compared to Shelleyan yearning and Hemans's superlative account of everlasting female suffering each poet finds new versions of eternity to explore or reject This monograph sets out a paradigm shifting approach to the aesthetic and philosophical power of eternity in Romantic poetry

Virgil in the Renaissance David Scott Wilson-Okamura, 2010-08-12 The disciplines of classical scholarship were established in their modern form between 1300 and 1600 and Virgil was a test case for many of them This book is concerned with what became of Virgil in this period how he was understood and how his poems were recycled What did readers assume about Virgil in the long decades between Dante and Sidney Petrarch and Spenser Boccaccio and Ariosto Which commentators had the most influence What story if any was Virgil's Eclogues supposed to tell What was the status of his Georgics Which parts of his epic attracted the most imitators Building on specialized scholarship of the last hundred years this book provides a panoramic synthesis of what scholars and poets from across Europe believed they could know about Virgil's life and poetry **Ancient Latin Epics in Girolamo Vida's Christiad** Stefano Cianciosi, 2025-09-12 The Christiad 1535 is a Neo Latin epic by the Italian Renaissance writer Girolamo Vida based on the Gospels and written at the behest of Pope Leo X Long seen as a Christian Aeneid it emerges in this study as a far more complex work demonstrating that while

Virgil remains the main model Vida also engages deeply with Lucretius Ovid Lucan Silius Italicus and Statius By examining Vida's imitative techniques and integration of multiple epic models this monograph reassesses the Christiads relationship with the ancient Latin epic tradition In doing so it sheds new light on the afterlife of these classical poems as print made them more widely available

Heroic Awe Kelly Lehtonen, 2022-12-01 During the Renaissance the most renowned model of epic poetry was Virgil's Aeneid a poem promoting an influential concept of heroism based on the commitment to one's nation and gods However Longinus theory of the sublime newly recovered during the Renaissance contradicted this absolute devotion to nation as a marker of religious piety Heroic Awe explores how Renaissance epic poetry used the sublime to challenge the assumption that epic heroism was primarily about civic duty and glorification of state The book demonstrates how the significant investment of Renaissance epic poetry in Longinus theory of the sublime reshaped the genre of epic To do so Kelly Lehtonen examines the intersection between the Longinian sublime and early modern Protestant and Catholic discourses in Renaissance poems such as the Jerusalem Liberata Les Semaines The Faerie Queene and Paradise Lost In illuminating the role of Longinus along with that of religious discourses Heroic Awe offers a new perspective on epic heroism in Renaissance epic poetry redefining heroism as the capacity to be overwhelmed emotionally psychologically and spiritually by encounters with divine glory In considering the links between religion the sublime and epic the book aims to shed new light on several core topics in early modern studies including epic heroism Renaissance philosophy theories of emotion and the psychology of religion

The Choice of Odysseus Sarah Van der Laan, 2024 The Choice of Odysseus demonstrates how the Odyssey provided Renaissance authors and readers with a poetic ethics for their age Sarah Van der Laan reconstructs Renaissance readings of the Odyssey by Petrarch Poliziano Ariosto Tasso Spenser Monteverdi and Milton to recover a powerful Renaissance tradition of Odyssean epic

Encyclopedia of Renaissance Philosophy Marco Sgarbi, 2022-10-27 Gives accurate and reliable summaries of the current state of research It includes entries on philosophers problems terms historical periods subjects and the cultural context of Renaissance Philosophy Furthermore it covers Latin Arabic Jewish Byzantine and vernacular philosophy and includes entries on the cross fertilization of these philosophical traditions A unique feature of this encyclopedia is that it does not aim to define what Renaissance philosophy is rather simply to cover the philosophy of the period between 1300 and 1650

Textual Traditions and Medieval Literary Culture Noëlle Phillips, Daniel Helbert, William Green, 2025-01-07 Essays illuminating how medieval cultures and identities have influenced later authors texts and communities How did medieval literary cultures shape and how were they shaped by their received textual traditions And how have cultures continued to respond to the inherited medieval tradition in later eras This volume explores these important questions considering how language and literature mediate the narration of history or culture especially the culture and identity of Britain In addressing the overarching concern of the conception of the past in the literatures of medieval Britain and the later reception of medieval texts the contributors essays respond to the diverse areas

of medieval studies upon which Professor Echard's work has had significant influence. They address amongst other subjects Arthuriana and Matter of Britain texts, the literary interrelationships between medieval Wales and England, medieval adaptations and interpretations of texts from classical antiquity, the poet John Gower and medievalism in later centuries. As Professor Echard has consistently demonstrated in these fields, and as these essays overwhelmingly confirm, the past is rarely if ever represented at face value in the cultural products that lay claim to it.

The Roman Self in Late Antiquity Marc Mastrangelo, 2008-01-21

The Roman Self in Late Antiquity for the first time situates Prudentius within a broad intellectual, political, and literary context of fourth-century Rome. As Marc Mastrangelo convincingly demonstrates, the late fourth-century poet drew on both pagan and Christian intellectual traditions, especially Platonism, Vergilian epic poetics, and biblical exegesis, to define a new vision of the self for the newly Christian Roman Empire. Mastrangelo proposes an original theory of Prudentius's allegorical poetry and establishes Prudentius as a successor to Vergil. Employing recent approaches to typology and biblical exegesis, as well as the most current theories of allusion and intertextuality in Latin poetry, he interprets the meaning and influence of Prudentius's work and positions the poet as a vital author for the transmission of the classical tradition to the early modern period. This provocative study challenges the view that poetry in the fourth century played a subordinate role to patristic prose in forging Christian Roman identity. It seeks to restore poetry to its rightful place as a crucial source for interpreting the rich cultural and intellectual life of the era.
