The Austrian Electoral Reform Of 1907:

The Austrian Electoral Reform of 1907 William Alexander Jenks, 1950 In 1815 the forces of nationalism and democracy which had been propagated in Europe during the Revolutionary and Napoleonic years were halted momentarily by a coalition of European powers which included Metternich's Austria. A hundred years later the Habsburg monarchy found itself involved in its last fateful struggle with these forces. This study has as its purpose the description of one of the last efforts made to reconcile nationalism and democracy with Habsburg tradition in the period preceding the final collapse of the empire. Preface Austria 1867-1955 John W. Boyer, 2022-09-15 Austria 1867-1955 connects the political history of German speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine Lands with the history of the Austrian Republic that emerged in 1918. John W. Boyer presents the case of modern Austria as a fascinating example of democratic nation building. The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown. The decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes. Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands. Rather social class, occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties: Christian Socialism and Social Democracy in Vienna in the 1890s. The war crisis of 1914-1918 exploded the Empire with the Crown self destructing in the face of military defeat, chronic domestic unrest and bitter national partisanship. But this crisis also accelerated the emergence of new structures of democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920. Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation. After 1945 the surviving legatees of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance. *A Short History of Electoral Systems in Western Europe (Routledge Library Editions: Political Science Volume 22)* Andrew McLaren Carstairs, 2013-04-15 This book provides a concise and accessible account of the historical experience of European parliaments: why different electoral systems were adopted, how they have functioned, how they have affected the development of political parties and in what respects they have been found over time to be either suitable or unsatisfactory. The book begins with a summary of the main electoral systems analysing and re-assessing each in the light of historical experience. The

core of the book however is a country by country account of the systems which have operated in each of the main West European countries in the context of their own constitutional political and social developments

A History of the Habsburg Empire, 1526-1918 Robert A. Kann, 1980-11-26 Describes surveys and discusses the major historical aspects of the Habsburg Empire diplomatic political institutional socioeconomic and cultural Henryk Grossman and the Recovery of Marxism Rick Kuhn, 2007 The first comprehensive English language Grossman biography

Nationalism and the Crowd in Liberal Hungary, 1848-1914 Alice Freifeld, 2000-07-17 Audiences at theaters fairs statue raisings and commemorations of national figures political rallies ethnic mobs May Day celebrations monarchical festivities and finally war rallies all take up places in this history Not only insurgent crowds but festive ones as well have political and material goals Freifeld finds And hope for liberal nationalism which Hungarian crowds carried from their experience of 1848 thus continued to confront the monarchy its bureaucracy and the gentry

Culture and Political Crisis in Vienna John W. Boyer, 1995 In this sequel to Political Radicalism in Late Imperial Vienna John Boyer picks up the history of the Christian Social movement after founder Karl Lueger's rise to power in Vienna in 1897 and traces its evolution from a group of disparate ward politicians through its maturation into the largest single party in the Austrian parliament by 1907 to its major role in Imperial politics during the First World War Boyer argues that understanding the unprecedented success that this dissident bourgeois political group had in transforming the basic tenets of political life is crucial to understanding the history of the Central European state and the ways in which it was slowly undermined by popular electoral politics The movement's efforts to save the Austrian Empire by trying to create an economically integrated but ethnically pluralistic state are particularly enlightening today in the shadow of ethnic violence in Sarajevo where began the end of the Austrian Empire in 1914 The most comprehensive account of any mass political movement in late nineteenth century Central Europe this two volume work is crucial reading for anyone interested in Hapsburg history German history or the history of social democracy

The Problem of Peace and Austrian Society, 1889-1914 Richard Robert Laurence, 1968 The Jews in Poland and Russia: A Short History Antony Polonsky, 2013-09-26 A very readable and comprehensive overview that examines the realities of Jewish life while setting them in their political economic and social contexts
