The Autobiographical Consciousness of Aging Edmund Sherman, 2000-07 [Aging, Spirituality, and Religion](#) Melvin Kimble, Susan H. McFadden, 2002-12-01 Volume II picks up where Volume I left off with practical advice and tools for ministry with the aging in a variety of settings Gerontological and theological perspectives undergird the practical guidance and a final section treats of the unique ethical issues involved in ministry with the aging **Religion, Spirituality, and Aging** Harry R Moody, 2012-12-06 Learn how to make a more positive impact with your social work with the aged Religion is an important coping mechanism for many aging adults Religion Spirituality and Aging A Social Work Perspective presents the latest research that shows how religion and spirituality can improve quality of life for elders Respected social work researchers and scholars provide insight and practical methods for fostering positive aging while also considering how spirituality and religion can affect practitioners themselves The full range of advantages and ethical implications are discussed in clear detail from a social work viewpoint Case studies plainly illustrate the positive impact that the inclusion of spirituality and religion in an aging person's life may have on their physical and mental welfare Organized social work in the early twentieth century actively tried to distance itself from its roots as a form of religious charity in favor of becoming a scientific and professional endeavor Religion Spirituality and Aging once again bridges the gap between social work and spiritual matters by presenting penetrating articles that discuss the issues of the aging soul while examining ways to improve care Creative strategies are offered to contribute to the spiritual side of aging while considering every implication and ethical question The compilation is extensively referenced and includes helpful figures and tables to clearly illustrate data and ideas Religion Spirituality and Aging discusses the latest social work trends and attitudes toward spirituality prayer meditation and acts of altruism as interventions an empirical study of how social workers use religion and spirituality as an intervention ethical considerations and best practices religion and spirituality during long term care the Postcards to God project dreams and their relationship to the search for meaning in later life a spiritual approach to positive aging through autobiography dementia and spirituality creating new rituals for sacred aging spiritual master Henri Nouwen's principles of aging and his approaches to caring for older people an interview study on elders spirituality and the changes manifested in their views of religion Religion Spirituality and Aging is a remarkable reminder that elders are our future selves This erudite well reasoned examination of aging and spirituality from a social work perspective is crucial reading for social workers human service professionals who work with the aged and gerontology scholars **Aging And Ethics** Nancy S. Jecker, 2012-12-06 The Aging Self and the Aging Society Ethical issues involving the elderly have recently come to the fore This should come as no surprise Since the turn of the century there has been an eightfold increase in the number of Americans over the age of sixty five and almost a tripling of their proportion to the general population Those over the age of eighty five the fastest growing group in the country are twenty one more times as numerous as in 1900 Demographers expect

this trend to accelerate into the twenty first century The aging of society casts into vivid relief a number of deep and troubling questions On the one hand as individuals we grapple with the immediate experience of aging and mortality and seek to find in it philosophical or ethical significance We also wonder what responsibilities we bear toward aging family members and what expectations of others our plans for old age can reasonably include On the other hand as a community we must decide What special role if any do older persons occupy in our society What constitutes a just distribution of medical resources between generations And How can institutions that serve the old foster imperiled values such as autonomy self respect and dignity Only recently have we begun to explore these themes yet already a rich and fruitful literature has grown up around them
