The Autobiography Of A Forest Monk:

The Autobiography of a Forest Monk Thêt,1998 *The Autobiography of a Forest Monk* Thêt,1993 *The Autobiography of a Forest Monk* Ariyesako (Phikkhu.),1993 Forest Recollections Tiyavanich Kamala,1997-03-01 I stayed in the forest for two nights The first night nothing happened The second night at about one or two in the morning a tiger came which meant that I didn't get any sleep the whole night I sat in meditation scared stiff while the tiger walked around and around my umbrella tent klot My body felt all frozen and numb I started chanting and the words came out like running water All the old chants I had forgotten now came back to me thanks both to my fear and to my ability to keep my mind under control I sat like this from 2 until 5 a.m. when the tiger finally left A forest monk During the first half of this century the forests of Thailand were home to wandering ascetic monks They were Buddhists but their brand of Buddhism did not copy the practices described in ancient doctrinal texts Their Buddhism found expression in living day to day in the forest and in contending with the mental and physical challenges of hunger pain fear and desire Combining interviews and biographies with an exhaustive knowledge of archival materials and a wide reading of ephemeral popular literature Kamala Tiyavanich documents the monastic lives of three generations of forest dwelling ascetics and challenges the stereotype of state centric Thai Buddhism Although the tradition of wandering forest ascetics has disappeared a victim of Thailand's relentless modernization and rampant deforestation the lives of the monks presented here are a testament to the rich diversity of regional Buddhist traditions The study of these monastic lineages and practices enriches our understanding of Buddhism in Thailand and elsewhere

The Sociology of Early Buddhism Greg Bailey,Ian Mabbett,2003-11-27 Early Buddhism flourished because it was able to take up the challenge represented by buoyant economic conditions and the need for cultural uniformity in the newly emergent states in north eastern India from the fifth century BCE onwards This book begins with the apparent inconsistency of Buddhism a renunciant movement surviving within a strong urban environment and draws out the implications of this In spite of the Buddhist ascetic imperative the Buddha and other celebrated monks moved easily through various levels of society and fitted into the urban landscape they inhabited The Sociology of Early Buddhism tells how and why the early monks were able to exploit the social and political conditions of mid first millennium north eastern India in such a way as to ensure the growth of Buddhism into a major world religion Its readership lies both within Buddhist studies and more widely among historians sociologists and anthropologists of religion

Meditation in the Wild , Roaming Free Like a Deer Daniel Capper,2022-03-15 By exploring lived ecological experiences across seven Buddhist worlds from ancient India to the contemporary West *Roaming Free Like a Deer* provides a comprehensive critical and innovative examination of the theories practices and real world results of Buddhist environmental ethics Daniel Capper clarifies crucial contours of Buddhist vegetarianism or meat eating nature mysticism and cultural speculations about spirituality in nonhuman animals Buddhist environmental ethics often are touted as useful weapons in the fight against climate change However two

formidable but often overlooked problems with this perspective exist First much of the literature on Buddhist environmental ethics uncritically embraces Buddhist ideals without examining the real world impacts of those ideals thereby sometimes ignoring difficulties in terms of practical applications Moreover for some understandable but still troublesome reasons Buddhists from different schools follow their own environmental ideals without conversing with other Buddhists thereby minimizing the abilities of Buddhists to act in concert on issues such as climate change that demand coordinated large scale human responses With its accessible style and personhood ethics orientation *Roaming Free Like a Deer* should appeal to anyone who is concerned with how human beings interact with the nonhuman environment **The Lovelorn Ghost and**

the Magical Monk Justin Thomas McDaniel, 2013-12-01 Focusing on representations of a famous ghost and monk from the late eighteenth century to today Justin Thomas McDaniel builds a case for interpreting modern Thai Buddhist practice through the movements of these transformative figures He follows embodiments of the ghost and monk in a variety of genres and media including biography drama ritual art liturgy film television and the Internet Sourcing nuns monks laypeople and royalty McDaniel shows how relations with these figures have been instrumental in crafting histories and modernities particularly local conceptions of being Buddhist and the formation and transmission of such identities across different venues and technologies **The Autobiography of Venerable Acariya Thoon Khippapañño** Acariya Thoon

Khippapañño, 2022-09-15 Venerable Acariya Thoon Khippapa o 1935 2008 led an extraordinary life Volume One of his illustrated autobiography begins with the peculiar events surrounding his birth and culminates in the end of rebirth his attainment of ultimate enlightenment nibbana Along Luang Por Thoon s path to full awakening lie meditative visions encounters with tigers and ghosts a trip to hell and priceless Dhamma lessons *Buddhism and Postmodern Imaginings in Thailand* James Taylor, 2016-12-05 This book presents a rethink on the significance of Thai Buddhism in an increasingly complex and changing post modern urban context especially following the financial crisis of 1997 Defining the cultural nature of Thai urbanity the implications for local global flows interactions and emergent social formations James Taylor opens up new possibilities in understanding the specificities of everyday urban life as this relates to perceptions conceptions and lived experiences of religiosity Changes in the centre are also reverberating in the remaining forests and the monastic tradition of forest dwelling which has sourced most of the nation s modern saints The text is based on ethnography taking into account the rich variety of everyday practices in a m lrange of the religious In Thailand Buddhism is so intimately interconnected with national identity and social economic and ethno political concerns as to be inseparable Taylor argues here that in recent years there has been a marked reformulation of important conventional cosmologies through new and challenging Buddhist ideas and practices These influences and changes are as much located outside as inside the Buddhist temples monasteries
