The Awkward Warrior Frank Cousins His Life And Adventures:

The Awkward Warrior Geoffrey Goodman, 1984 **The Awkward Warrior** Geoffrey Goodman, 1979 **Searching for Socialism** Leo Panitch, Colin Leys, 2020-04-21

Jeremy Corbyn's rapid ascent to the leadership of the Labour Party driven by a groundswell of popular support particularly among the young was met at the time by a baffled media. Just where did Jeremy Corbyn come from? In *Searching for Socialism* Leo Panitch and Colin Leys argue that it is only by understanding Corbyn's roots in the Bennite Labour New Left's long struggle to transcend the limits of parliamentary socialism and democratise the party as a precondition for democratising the state can you understand his surge to become leader of the party. Closely analyzing the forces inside the party aligned against Corbyn's leadership, Panitch and Leys explain what happened between the validation of the Corbyn project in the 2017 election while advancing an ambitious programme of democratic socialist measures unmatched anywhere since the 1970s and the electoral defeat amidst the Brexit conjuncture of 2019. They argue that while this defeat marked the farthest point to which the generation formed in the 1970s was able to carry the Labour new left project, it seems unlikely that the new generation of activists will quickly see any other way forward than continuing the struggle inside the Labour Party so as to fundamentally change it. In the face of the contradictions being generated by twenty-first century capitalism and the need for discovering and developing new political forms adequate to addressing them, this book is required reading for democratic socialists not just in Britain but everywhere.

British Trade Unions, 1945-1995 Chris Wrigley, 1997

In this the first full-length treatment of the child in Spanish cinema, Sarah Wright explores the ways that the cinematic child comes to represent prosthetic memory. The central theme of the child and the monster is used to examine the relationship of the self to the past and to cinema. Concentrating on films from the 1950s to the present day, the book explores religious films, musicals, art house, horror, science fiction, social realism, and fantasy. It includes reference to Eric's *The Spirit of The Beehive*, del Toro's *Pan's Labyrinth*, Ma's *El Bola*, and the Marisol films. The book also draws on a century of filmmaking in Spain and intersects with recent revelations concerning the horrors of the Spanish past. The child is a potent motif for the loss of historical memory and for its recuperation through cinema. This book is suitable for scholars and undergraduates working in the areas of Spanish cinema, Spanish cultural studies, and cinema studies.

NYE Nick Thomas-Symonds, 2014-12-18

Aneurin Nye Bevan was one of the pivotal Labour Party figures of the post-war era in Britain. As Minister for Health in Attlee's government, his role in the foundation of the National Health Service, the world's largest publically funded health service, changed the face of British society forever. The son of a coal miner from South Wales, Bevan was a life-long champion of social justice and the rights of working people, as such becoming one of the leading proponents of Socialist thought in Britain. In this book, acclaimed author Nicklaus Thomas Symonds provides the first full biography of Bevan in over two decades. Drawing on first-hand interviews as well as recently released sources, he provides a unique portrait of one of the great British statesmen of the twentieth century.

Davis,2007-12-05 A fascinating study of the reforms of British central government in the post war years from Harold Macmillan to Edward Heath The book also looks in detail at the relationship between the Civil Service and ministers including the Fulton Report of 1968 and the war it caused in Whitehall Meticulously researched and written by an expert in the field Peace and Power in Cold War Britain Christopher R. Hill,2018-08-09 Peace and Power in Cold War Britain explores the ban the bomb and anti Vietnam War movements from the perspective of media history focusing in particular on the relationship between radicalism and the rise of television In doing so it addresses two questions both of which seem to recur with each major breakthrough in communications technology what do advances in communications media mean for democratic participation in politics and how do distinctive types of media condition the very nature of that participation itself In answering these the book views the ban the bomb and anti Vietnam War movements in relation to communication power and media discourse It highlights how these movements intersected with parts of public life that were being transformed by television themselves shaping struggles for social change among activists and public intellectuals on the streets in the Labour Party and in the law courts The significance of this relationship between media and movements was complex and wide ranging Christopher R Hill demonstrates that it contributed to the enrichment of democracy in Cold War Britain with radicals serving to innovate and pioneer creative forms of political expression from both in and outside of media organisations However the movements increasingly succumbed to news coverage and values that revolved around human interest and violence feeding into the revolutionary spectacle of 1968 and the turn towards identity politics UNITE History Volume 2 (1932-1945) Roger Seifert,2022-08-03 Sold as a multi volume set the individual volumes are also available for purchase This is the second volume on the history of the Transport and General Workers Union TGWU covering the period 1932 to 1945 In 1931 when the economic slump created mass unemployment the TGWU was a large rambling union The union lost members struggled to hold its activists together and split politically between communists and their allies and the right wing labour leadership of Bevin This spilled over to the struggle of the unemployed the role of the state and attitudes to the growth of fascism at home and abroad By the late 1930s an armament inspired boom allowed the TGWU to negotiate industry wide formal agreements in many of its strongholds docks passenger and commercial road transport and general labourers These deals favoured the weak but held back the strong such as the London bus workers who staged strikes based on rank and file organisation These were matched by local strikes against a range of speed up initiatives The TGWU backed rearmament and the war when it came The leadership put aside its anti communism for the duration and communist inspired shop stewards played major roles in improving war time productivity The union grew and large numbers of women joined forming their own groups and playing an increasing role in union affairs At the same time the TGWU hesitantly supported liberation in the colonies As the war came to an end the union supported the welfare reforms of the Beveridge report and backed the election of a Labour Government *Prophets of Computing* Dick van Lente,2022-12-14

When electronic digital computers first appeared after World War II they appeared as a revolutionary force Business management the world of work administrative life the nation state and soon enough everyday life were expected to change dramatically with these machines use Ever since diverse prophecies of computing have continually emerged through to the present day As computing spread beyond the US and UK such prophecies emerged from strikingly different economic political and cultural conditions This volume explores how these expectations differed assesses unexpected commonalities and suggests ways to understand the divergences and convergences This book examines thirteen countries based on source material in ten different languages the effort of an international team of scholars In addition to analyses of debates political changes and popular speculations we also show a wide range of pictorial representations of the future with computers

British Parliamentary Parties Jack Brand, 1992 In this book Jack Brand examines the role of the British Conservative and Labour parliamentary parties in the development of government policy since 1945 Focusing on six major policy fields agriculture education housing defence the economy and Scottish affairs he argues that the influence of back benchers has been consistently underestimated and that the close interdependence of front and back benchers frequently produces surprising and significant effects on policy development Dr Brand concludes that the common perception of back benchers as powerless to affect the policies of their leaders is misleading and that they are essential to the development of government policy
