The Ballad Of Tradition:

The Ballad in Literature Thomas Finlayson Henderson, 1912 **Review of The Ballad of Tradition by Gordon Hall Gerould** Reed Smith, 1933 The Ballad of Tradition Gordon Hall Gerould, 1957 *The Ballad as Song* Bertrand H. Bronson, 2023-11-15

The Ballad as Song is a collection of essays tracing the author's decades-long exploration of the intersection between traditional ballads and their accompanying tunes. Initially approached as a casual hobby, the project grew into a comprehensive inquiry into the melodies of Child ballads and their historical and cultural significance. The essays aim to bring together folk song and balladry, offering a perspective on how these elements interact and evolve through traditional transmission. The author reflects on challenges in classifying melodies, understanding modal shifts, and analyzing the interplay of text and tune areas that remain underexplored in the field of folk music studies. While the essays adhere to a consistent viewpoint, they also provide insights into enduring problems in ballad research, such as melodic identity variation and the transmission of tradition. Though not aligned with contemporary trends in social theory, the collection emphasizes the value of historical perspective, underscoring the importance of roots in understanding folk music. Through these essays, the author seeks to engage with current assumptions and open up new directions for comparative and analytical approaches to traditional balladry and its music. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. The Ballad and the Folk David Buchan, 2015-02-11

The ballad is an enduring and universal literary genre. In this book, first published in 1972, David Buchan is concerned to establish the nature of a ballad and of the people who produced it through a study of the regional tradition of the Northeast of Scotland, the most fertile ballad area in Britain. His account of this tradition has two parallel aims: one specifically literary, to investigate the ballad as oral literature; and one broadly ethnographic, to set the regional tradition in its social context. Dr. Buchan applies the interesting and important work which has recently been done on oral tradition in Europe on the relationship of the ballad to society to his study of this particular part of Scotland. He examines a nonliterate society to discover what factors, besides nonliteracy, helped foster its ballad tradition. He analyses the processes of composition and transmission in the oral ballad and considers the changes which removed nonliteracy, altered social patterns, and seriously affected the ballad tradition. By demonstrating how people who could neither read nor write were able to compose literature of a high order, David Buchan provides a convincing explanation of the ballad's perennial appeal and an answer to the ballad enigma. His book is also a valuable study in social history of this culturally distinct region, the Northeast of Scotland.
