And 36 Other Key Financial Measures* Frank Gallinelli,2008-10-08 Formulas that make the difference between making profits and losing equity The only way to win the real estate investing game is by mastering the numbers This revised and updated edition of the popular reference shows how to target the best investments in the present market It answers all your real estate questions and provides new discussions of capital accumulation and internal rate of return This book s basic formulas will help you measure critical aspects of real estate investments including Discounted Cash Flow Net Present Value Capitalization Rate Cash on Cash Return Net Operating Income Internal Rate of Return Profitability Index Return on Equity *Christ's Associations* John S. Kloppenborg,2019-11-26 A groundbreaking investigation of early Christ groups in the ancient Mediterranean As an urban movement the early groups of Christ followers came into contact with the many small groups in Greek and Roman antiquity

Organized around the workplace a deity a diasporic identity or a neighborhood these associations gathered in small face to face meetings and provided the principal context for cultic and social interactions for their members Unlike most other groups however about which we have data on their rules of membership financial management and organizational hierarchy we have very little information about early Christ groups Drawing on data about associative practices throughout the ancient world this innovative study offers new insight into the structure and mission of the early Christ groups John S Kloppenborg situates the Christ associations within the broader historical context of the ancient Mediterranean and reveals that they were probably smaller than previously believed and did not have a uniform system of governance and that the attraction of Christ groups was based more on practice than theological belief
