*Song, Speech, and Ventriloquism* ,1967 Explains how the voice works discusses the formation of vowels and consonants and shows how the singer and the ventriloquist use their voices

The Mortal Voice in the Tragedies of Aeschylus Sarah Nooter,2017-10-26 Voice connects our embodied existence with the theoretical worlds we construct This book argues that the voice is a crucial element of mortal identity in the tragedies of Aeschylus It first presents conceptions of the voice in ancient Greek poetry and philosophy understanding it in its most literal and physical form as well as through the many metaphorical connotations that spring from it Close readings then show how the tragedies and fragments of Aeschylus gain meaning from the rubric and performance of voice

concentrating particularly on the Oresteia Sarah Nooter demonstrates how voice as both a bottomless metaphor and performative agent of action stands as the prevailing configuration through which Aeschylus dramas should be heard This highly original book will interest all those interested in classical literature as well as those concerned with material approaches to the interpretation of texts

*Myth and the Making of Modernity* ,2022-04-19 The contributors to this collection of essays on the literary use of myth in the early twentieth century and its literary and philosophical precedents from romanticism onwards draw on a range of disciplines from anthropology comparative literature and literary criticism to philosophy and religious studies The underlying assumption is that modernist myth making does not retreat from modernity but projects a mode of being for the future which the past could serve to define Modernist myth is not an attempted recovery of an archaic form of life so much as a sophisticated self conscious equivalent Far from seeking a return to an earlier romantic valorizing of myth these essays show how the true interest of early twentieth century myth making lies in the consciousness affirmative as well as tragic of living in a human world which in so far as it must embody value can have no ultimate grounding Although myth may initially appear to be the archaic counterterm to modernity it is thus also the paradigm on which modernity has repeatedly reconstructed or come to understand its own life forms The very term myth by combining in its modern usage the rival meanings of a

grounding narrative and a falsehood encapsulates a central problem of modernity how to live given what we know

*Psychoanalysis and Performance* Patrick Campbell, Adrian Kear, 2002-09-11 The field of literary studies has long recognised the centrality of psychoanalysis as a method for looking at texts in a new way But rarely has the relationship between psychoanalysis and performance been mapped out either in terms of analysing the nature of performance itself or in terms of making sense of specific performance related activities In this volume some of the most distinguished thinkers in the field make this exciting new connection and offer original perspectives on a wide variety of topics including hypnotism and hysteria ventriloquism and the body dance and sublimation the unconscious and the rehearsal process melancholia and the uncanny cloning and theatrical mimesis censorship and activist performance theatre and social memory The arguments advanced here are based on the dual principle that psychoanalysis can provide a productive framework for understanding the work of performance and that performance itself can help to investigate the problematic of identity **The United States**

Hogan, 2018-08-23 The *Two cines con nino* is the first genre study of Spanish language child starred cinemas It illuminates continuities in the political use of the child protagonist in over fifty years of Spanish cinema and how the child starred genres use the concept of childhood to retrospectively define the nation and its future **The Elementary School Library**

**Collection** Lois Winkel, 1982 **Toward a Cultural Archive of la Movida** William J. Nichols, H. Rosi Song, 2013-11-26

*Toward a Cultural Archive of la Movida* revisits the cultural and social milieu in which laMovida an explosion of artistic production in the late 1970s and early 1980s was articulated discursively aesthetically socially and politically We connect this experience with a broader national and international context that takes it beyond the city of Madrid and outside the borders of Spain This collection of essays links the political and social undertakings of this cultural period with youth movements in Spain and other international counter cultural or underground movements Moving away from biographical experiences or the identification of further participants and works that belong to laMovida the articles collected in this volume situate this movement within the political and social development of post Franco Spain Finally it also offers a reading of recent politically motivated recoveries of this cultural phenomenon through exhibitions state sponsored documentaries musicals or tourist itineraries The perception of Spain as representative of a successful dual transition from dictatorship to democracy and free market capitalism created a Spanish model that has been emulated in countries like Portugal Argentina Chile and Hungary all formerly ruled by totalitarian regimes While social scientists study the promises contradictions and failures of the Spanish Transición especially on issues of memory repression and the lack of reconciliation our approach from the humanities offers another vantage point to a wider discussion of an unfinished chapter in recent Spanish history by focusing on laMovida as the cultural archive whose cultural transitions parallel the political and economic ones The transgressive urban nature of this movement demonstrated an overt desire especially among Spanish youth to reach onto a global arena emulating the punk

and new wave aesthetic of such cities as London New York Paris and Berlin Art design film music fashion during this period helped to forge a sense of a modern urban identity in Spain that also reflected the tensions between modernity and tradition global forces and local values international mass media technology and regional customs     Musical Illusions and Phantom Words Diana Deutsch,2019 In this ground breaking synthesis of art and science Diana Deutsch shows how illusions of music and speech have fundamentally altered thinking about the brain Deutsch addresses many fascinating questions Why is perfect pitch so rare Why do some people hallucinate music Why do we hear phantom words Why do we sometimes hear speech as song Drawing on psychology music theory linguistics and neuroscience this book will prove engrossing to specialists and non specialists alike     William Goyen William Goyen,2014-02-19 Proclaimed one of the great American writers of short fiction by the New York Times Book Review William Goyen 1915 1983 had a quintessentially American literary career in which national recognition came only after years of struggle to find his authentic voice his audience and an artistic milieu in which to create These letters which span the years 1937 to 1983 offer a compelling testament to what it means to be a writer in America A prolific correspondent Goyen wrote regularly to friends family editors and other writers Among the letters selected here are those to such major literary figures as W H Auden Archibald MacLeish Joyce Carol Oates William Inge Elia Kazan Elizabeth Spencer and Katherine Anne Porter These letters constitute a virtual autobiography as well as a fascinating introduction to Goyen s work They add an important chapter to the study of American and Texas literature of the twentieth century
