Carver, 2010-03-30 Jesus proclaimed an empowering message about the Kingdom of God in order to encourage the common people of his day to care for one another as a demonstration of their love for God Yet Christians eventually proclaimed a formulaic message about Jesus Christ in order to convince people Jesus was the only way of salvation How did this change

occur The UnGospel presents a reconstruction of the life and teachings of the historical Jesus and then contrasts the basic message of Jesus with the layers of interpretation added to Jesus message by the early Christian church Who Are You to Judge? Erwin W. Lutzer,2015-12-15 This book is a treasure of biblical wisdom Dr R C Sproul founder Ligonier Ministries Can I judge without being judgmental We live in a world that tolerates everything but judgment What we don't realize is that right judgment is the key to right living Who Are You To Judge is Lutzer's word to a culture that hates being told how to live and to a church called to purity After explaining the difference between judging and being judgmental Lutzer guides Christians in discerning various critical issues including miracles matters of doctrine and godly engagement with entertainment and culture With a passion for biblical truth and intolerance for lies Lutzer is compelling and gut honest Who Are You to Judge calls us to not only embrace the truth but also to live according to it speaking the truth in love to a world so desperately in need of both *Who Are You To Judge?* Erwin W. Lutzer,2008-09-01 A church that has made its peace with the world can no longer affect it As 21st century Christians we have settled down to a complacent form of faith that demands very little of us and thus makes very little impact on the world When secular values infiltrate the church we accept them without a twinge of conscience and congratulate ourselves on our tolerance We believe that we no longer have the right to challenge secular trends and decisions in or out of the church Erwin Lutzer looks at today's world and confronts us with our responsibility as believers in the church of Jesus Christ to again be a force for what is right not easy *Light Up the Dark* Douglas A. Balzer,2021-11-30 The power of darkness remains notably present in our world The ministries of healing and deliverance have always been intended to function as primary signs of Christ's advancing Kingdom of Light Yet why were they so prolific during the time of Christ and the Early Church but distant today How might we reclaim these while avoiding the ditches that harmed the church in the past How might we re-establish healing and deliverance as critical facets to disciple making Balzer leads you on this exploratory journey considering the foundation of scripture history and evidence based research Numerous recommendations are given to forming these expressions in a healthy balanced and reproducible manner Jesus desires to light up the dark **The Environment** William P. Kabasenche,Michael O'Rourke,Matthew H. Slater,2012-04-27 Original essays by leading scholars consider the environment from biological and ethical perspectives Philosophical reflections on the environment began with early philosophers invocation of a cosmology that mixed natural and supernatural phenomena Today the central philosophical problem posed by the environment involves not what it can teach us about ourselves and our place in the cosmic order but rather how we can understand its workings in order to make better decisions about our own conduct regarding it The resulting inquiry spans different areas of contemporary philosophy many of which are represented by the fifteen original essays in this volume The contributors first consider conceptual problems generated by rapid advances in biology and ecology examining such topics as ecological communities adaptation and scientific consensus The contributors then turn to epistemic and axiological issues first considering philosophical aspects of

environmental decision making and then assessing particular environmental policies largely relating to climate change including reparations remediation and nuclear power from a normative perspective Contributors Katie McShane Robert Brandon Rachel Bryant Michael Trestman Brian Steverson Denis Walsh Lorraine Code Jay Odenbaugh Joseph Cannon Mariam Thalos Chrisoula Andreou Clare Palmer Ben Hale Kristin Shrader Frechette Andrew Light *Conceiving God: The Cognitive Origin and Evolution of Religion* David Lewis-Williams, 2010-03-01 A controversial exploration of the origin of religion in the neurology of the human brain In this book the noted cognitive archaeologist David Lewis Williams confronts a question that troubles many people in the world today Is there a supernatural realm that intervenes in the material world of daily life and leads to the evolution of religions Professor Lewis Williams first describes how science developed within the cocoon of religion and then shows how the natural functioning of the human brain creates experiences that can lead to belief in a supernatural realm beings and interventions Once people have these experiences they formulate beliefs about them and thus creeds are born Forty thousand years ago people were leaving traces in the archaeological record of activities that we can label religious and Lewis Williams discusses in detail the evidence preserved in the Volp Caves in France He also shows that mental imagery produced by the functioning of the human brain can be detected in widely separated religious communities such as Hildegard of Bingen s in medieval Europe or the San hunters of southern Africa *Civilization* Orestes Augustus Brownson, 1884 **The Works of Orestes A.
