The Distressed Body Drew Leder, 2016-10-17 Bodily pain and distress come in many forms They can well up from within at times of serious illness but the body can also be subjected to harsh treatment from outside The medical system is often cold and depersonalized and much worse are conditions experienced by prisoners in our age of mass incarceration and by animals trapped in our factory farms In this pioneering book Drew Leder offers bold new ways to rethink how we create and treat distress clearing the way for more humane social practices Leder draws on literary examples clinical and philosophical sources his medical training and his own struggle with chronic pain He levies a challenge to the capitalist and Cartesian models that rule modern medicine Similarly he looks at the root paradigms of our penitentiary and factory farm systems and the way these produce distressed bodies asking how such institutions can be reformed Writing with coauthors ranging from a prominent cardiologist to long term inmates he explores alternative environments that can better humanize even spiritualize the way we treat one another offering a very different vision of medical criminal justice and food systems Ultimately Leder proposes not just new answers to important bioethical questions but new ways of questioning accepted concepts and practices

Philosophy Imprisoned Sarah Tyson, Joshua M. Hall, 2014-07-30 Western philosophy's relationship with prisons stretches from Plato's own incarceration to the modern era of mass incarceration *Philosophy Imprisoned: The Love of Wisdom in the Age of Mass Incarceration* draws together a broad range of philosophical thinkers from both inside and outside prison walls in the United States and beyond who draw on a variety of critical perspectives including phenomenology deconstruction and feminist theory and historical and contemporary figures in philosophy including Kant Hegel Foucault and Angela Davis to think about prisons in this new historical era All of these contributors have experiences within prison walls some are or have been incarcerated some have taught or are teaching in prisons and all have been students of both philosophy and the carceral system The powerful testimonials and theoretical arguments are appropriate reading not only for philosophers and prison theorists generally but also for prison reformers and abolitionists

Solitary Confinement Lisa Guenther, 2013-08-01 Prolonged solitary confinement has become a widespread and standard practice in U S prisons even though it consistently drives healthy prisoners insane makes the mentally ill sicker and according to the testimony of prisoners threatens to reduce

life to a living death In this profoundly important and original book Lisa Guenther examines the death in life experience of solitary confinement in America from the early nineteenth century to today s supermax prisons Documenting how solitary confinement undermines prisoners sense of identity and their ability to understand the world Guenther demonstrates the real effects of forcibly isolating a person for weeks months or years Drawing on the testimony of prisoners and the work of philosophers and social activists from Edmund Husserl and Maurice Merleau Ponty to Frantz Fanon and Angela Davis the author defines solitary confinement as a kind of social death It argues that isolation exposes the relational structure of being by showing what happens when that structure is abused when prisoners are deprived of the concrete relations with others on which our existence as sense making creatures depends Solitary confinement is beyond a form of racial or political violence it is an assault on being A searing and unforgettable indictment Solitary Confinement reveals what the devastation wrought by the torture of solitary confinement tells us about what it means to be human and why humanity is so often destroyed when we separate prisoners from all other people

Criminal Intimacy Regina Kunzel,2022-03-22 Sex is usually assumed to be a closely guarded secret of prison life But it has long been the subject of intense scrutiny by both prison administrators and reformers as well as a source of fascination and anxiety for the American public Historically sex behind bars has evoked radically different responses from professionals and the public alike In *Criminal Intimacy* Regina Kunzel tracks these varying interpretations and reveals their foundational influence on modern thinking about sexuality and identity Historians have held the fusion of sexual desire and identity to be the defining marker of sexual modernity but sex behind bars often involving otherwise heterosexual prisoners calls those assumptions into question By exploring the sexual lives of prisoners and the sexual culture of prisons over the past two centuries along with the impact of a range of issues including race class and gender sexual violence prisoners rights activism and the HIV epidemic Kunzel discovers a world whose surprising plurality and mutability reveals the fissures and fault lines beneath modern sexuality itself Drawing on a wide range of sources including physicians psychiatrists sociologists correctional administrators journalists and prisoners themselves as well as depictions of prison life in popular culture Kunzel argues for the importance of the prison to the history of sexuality and for the centrality of ideas about sex and sexuality to the modern prison In the process she deepens and complicates our understanding of sexuality in America

Death and Other Penalties Lisa Guenther,Scott Zeman,2015-04-01 Mass incarceration is one of the most

pressing ethical and political issues of our time In this volume philosophers join activists and those incarcerated on death row to grapple with contemporary U S punishment practices and draw out critiques around questions of power identity justice and ethical responsibility This work takes shape against a backdrop of disturbing trends The United States incarcerates more of its own citizens than any other country in the world A disproportionate number of these prisoners are people of color and today a black man has a greater chance of going to prison than to college The United States is the only Western democracy to retain the death penalty even after decades of scholarship statistics and even legal decisions have depicted a deeply flawed system structured by racism and class oppression Motivated by a conviction that mass incarceration and state execution are among the most important ethical and political problems of our time the contributors to this volume come together from a diverse range of backgrounds to analyze critique and envision alternatives to the injustices of the U S prison system with recourse to deconstruction phenomenology critical race theory feminism queer theory and disability studies They engage with the hyper incarceration of people of color the incomplete abolition of slavery the exploitation of prisoners as workers and as raw material for the prison industrial complex the intensive confinement of prisoners in supermax units and the complexities of capital punishment in an age of abolition The resulting collection contributes to a growing intellectual and political resistance to the apparent inevitability of incarceration and state execution as responses to crime and to social inequalities It addresses both philosophers and activists who seek intellectual resources to contest the injustices of punishment in the United States
