**Leading-edge Educational Technology** Thomas B. Scott,James I. Livingston,2008 This new book focuses on the that latest research gains in the field of educational technology which is a creative blending of idea and product technologies with subject matter content in order to engender and improve teaching and learning processes Educational technology is often associated with the terms instructional technology or learning technology Product technologies are tangible for example computer hardware or software Idea technologies are cognitive frameworks or schemes for example the Multiple Intelligence Theory proposed by Howard Gardner When products are thoughtfully blended with subject matter content such as mathematics or science concepts for a specific audience in a specific educational context such as a school one is using educational technology The words educational and technology in the term educational technology have the general meaning Educational technology is not restricted to the education of children nor to the use of high technology *Teaching Languages Online* Carla Meskill,Natasha Anthony,2015-07-30 This new edition of Teaching Languages Online supports the professional development of language educators as they teach all or part of their courses online Containing extensive additions this revised edition includes new models illustrations and

heuristics to further support research based conceptualization creativity and practice In non technical prose with emphasis on excellence in pedagogical practice the text takes both the new and experienced language instructor through the nuts and bolts of online teaching practices using a wide range of examples to illustrate these practices As well as providing new resources and models this new edition also considers the impact of broader technological and pedagogical changes including mobility learning on the move and learning in 3D environments The Green Book of Language Revitalization in Practice

Leanne Hinton,Kenneth Hale,2013-06-13 With world wide environmental destruction and globalization of economy a few languages especially English are spreading rapidly in use while thousands of other languages are disappearing taking with them important cultural philosophical and environmental knowledge systems and oral literatures We all stand to suffer from such a loss none more so than the communities whose very identity is being threatened by the impending death of their languages In response to this crisis indigenous communities around the world have begun to develop a myriad of projects to keep their languages alive This volume is a set of detailed accounts about the kind of work that is going on now as people struggle for their linguistic survival It also serves as a manual of effective practices in language revitalization Following are the key features 23 case studies of language revitalization in practice from Native American languages Australian languages Maori Hawaiian Welsh Irish and others written primarily by authors directly involved in the programs short introductions situate the languages to help make the languages more real in the minds of readers each chapter gives a detailed overview of the various kinds of programs and methods in practice today introductions and maps for each of the languages represented familiarize the reader with their history linguistic structure and sociolinguistic features and strong representation in authorship and viewpoint of the people and communities whose languages are threatened gives the readers an inside understanding of the issues involved and the community internal attitudes toward language loss and revitalization This book was previously published by Academic Press under ISBN 978 01 23 49354 5 **Voyage** Amanda Rainger,Paul

Rogers,2003-06 With the objectives of the KS3 Framework this title is a four stage multimedia French course designed to meet the requirements of the National Curriculum and the demands of the GCSE examination for a wide ability range of students It is also suitable for students studying other UK curricula Automated Speaking Assessment Klaus Zechner,Keelan Evanini,2019-11-28 Automated Speaking Assessment Using Language Technologies to Score Spontaneous Speech provides a thorough overview of state of the art automated speech scoring technology as it is currently used at Educational Testing Service ETS Its main focus is related to the automated scoring of spontaneous speech elicited by TOEFL iBT Speaking section items but other applications of speech scoring such as for more predictable spoken responses or responses provided in a dialogic setting are also discussed The book begins with an in depth overview of the nascent field of automated speech scoring its history applications and challenges followed by a discussion of psychometric considerations for automated speech scoring The second and third parts discuss the integral main components of an automated speech scoring

system as well as the different types of automatically generated measures extracted by the system features related to evaluate the speaking construct of communicative competence as measured defined by the TOEFL iBT Speaking assessment. Finally the last part of the book touches on more recent developments such as providing more detailed feedback on test takers spoken responses using speech features and scoring of dialogic speech. It concludes with a discussion summary and outlook on future developments in this area. Written with minimal technical details for the benefit of non experts this book is an ideal resource for graduate students in courses on Language Testing and Assessment as well as teachers and researchers in applied linguistics.

## Unveiling the Power of Verbal Beauty: An Emotional Sojourn through **Sound Bites Pronunciation Activities**

In a global inundated with screens and the cacophony of instantaneous communication, the profound power and mental resonance of verbal artistry often disappear into obscurity, eclipsed by the constant onslaught of sound and distractions.
