Marshall,2003 The idea that the Caribbean could be devolving downward in wealth function and sovereignty has become a recurrent theme in both academic and popular literature By focusing on some of the current issues facing Caribbean nation states the editors and contributors to this volume hope to inform and contribute to the ongoing debate on the broad themes of Sovereignty and Development and the prospects for survival of Caribbean nation states in a globalised world While some of the papers seek to describe and analyse the range and complexity of the challenge to national sovereignty and public policy autonomy others focus on issues relating to small country size gender and ethnic tensions security constitutional reform and regional integration The result is a balanced perspective the contributors do not gloss over the problem faced by the region At the same time they do not present a hyper pessimistic picture of Caribbean development prospects What gives the collection a particular dynamism is the way in which the authors have challenged the terrain of political possibilities traditionally defined for small peripheral societies **Callaloo** ,1993 Some special issues devoted to the literatures of other minorities **Small Press** ,1995
