

THE PHENOMENOLOGY OF THE BODY

In Gabriel Marcel's Thought

WHAT IS PHENOMENOLOGY?

✓ Phenomenology is simply the **philosophy of experience**.

Soul And Body In Huberlian Phenomenology

Anna-Teresa Tymieniecka

Soul And Body In Huberlian Phenomenology:

Soul and Body in Husserlian Phenomenology Anna-Teresa Tymieniecka, 2012-12-06 **Soul and Body in Husserlian Phenomenology** Anna-Teresa Tymieniecka, 1983-08-31 Soul and Body in Husserlian Phenomenology Anna-Teresa Tymieniecka, 1983 *Husserl's Legacy in Phenomenological Philosophies* Anna-Teresa Tymieniecka, 1991-10-31

In this third volume of a monumental four book survey of Phenomenology world wide fifty years after the death of its chief founder Edmund Husserl we have a collection of studies which in the first place consider Husserl's legacy in the postmodern world The extent of our indebtedness to the Master is shown in explorations of the archeology of knowledge hermeneutics and critical studies of language by A Ales Bello P Pefialver P Million V Martinez Guzman H Rodriguez Pifiero Y Vlaisavlevich and others There follow calls for renewing the critique of reason by C Schrag F Bosio and J Lerin Riera and discussion by D Laskey K G6rniak Kocikowska M R Barral Y Park and N Delle Site on A T Tymieniecka's phenomenology of life which proposes a total reorientation of phenomenology by introducing a conception of the human condition in which the human creative act is the Archimedean point for philosophy *Overcoming Psychologism: Husserl and the Transcendental Reform of Psychology* Larry Davidson, 2020-11-21 This book shows us how rather than abandoning psychology once he liberated phenomenology from the psychologism of the philosophy of arithmetic Edmund Husserl remained concerned with the ways in which phenomenology held important implications for a radical reform of psychology throughout his intellectual career The author fleshes out what such a radical reform actually entails and proposes that it can only be accomplished by following the trail of the transcendental reduction described in Husserl's later works In order to appreciate the need for the transcendental even for psychology the book tracks Husserl's thinking on the nature of this relationship between phenomenology as a philosophy and psychology as a positive science as it evolved over time The text covers Husserl's definition of phenomenology as descriptive psychology in the Logical Investigations rejecting the hybrid form of phenomenological psychology described in the lectures by that name and ends with his proposal for a fundamental refashioning of psychology by situating it within the transcendental framework of *The Crisis of European Sciences and Transcendental Phenomenology* The Author argues for a re-grounding of psychology by virtue of a return to positivity after having performed the reduction to transcendental intersubjectivity What results is a phenomenological approach to a transcendently grounded psychology which while having returned to the life world no longer remains transcendently naive A phenomenologically grounded psychology thus empowers researchers clinicians and clients alike to engage in social actions that move the world closer to achieving social justice for all This text appeals to students and researchers working in phenomenology and psychology

Husserl's Phenomenology of Intersubjectivity Frode Kjosavik, Christian Beyer, Christel Fricke, 2018-12-07 This collection examines the instrumental role of intersubjectivity in Husserl's philosophy and explores the potential for developing novel ways of addressing and resolving contemporary philosophical issues on that basis This is the first time Iso Kern offers an

extensive overview of this rich field of inquiry for an English speaking audience Guided by his overview the remaining articles present new approaches to a range of topics and problems that go to the heart of its core theme of intersubjectivity and methodology Specific topics covered include intersubjectivity and empathy intersubjectivity in meaning and communication intersubjectivity pertaining to collective forms of intentionality and extended forms of embodiment intersubjectivity as constitutive of normality and finally the central role of intersubjectivity in the sciences The authors perspectives are strongly influenced by Husserl s own methodological concerns and problem awareness and are formed with a view to applicability in current debates be it within general epistemology analytic philosophy of language philosophy of mind meta ethics or philosophy of science With contributions written by leading Husserl scholars from across the Analytic and Continental traditions Husserl s Phenomenology of Intersubjectivity is a clear and accessible resource for scholars and advanced students interested in Husserl s phenomenology and the relevance of intersubjectivity to philosophy sociology and psychology

Spaces - a Phenomenological Investigation Giorgio Rizzo, 2012

An Annotated Bibliography on Ibn Sînâ (1970-1989) Jules L. Janssens, 1991 In this bibliography more extensive and systematic attention is paid to non Western publications especially Arabian persian Turkish and Russian Of special interest is the inclusion of a number of Indian publications

Corporeity and Affectivity Karel Novotny, Pierre Rodrigo, Jenny Slatman, Silvia Stoller, 2013-10-02 The articles in this volume reflect upon the intersections of corporeity and affectivity in Maurice Merleau Ponty s phenomenology They illuminate the meaning of his phenomenology regarding corporeity and affectivity from various phenomenological perspectives Corporeity and Affectivity explores his invaluable contribution in interdisciplinary and trans disciplinary respect including the humanities the arts and the sciences Contributors include Alexei Chernyakov Jagna Brudziska Uniwersytet Warszawski Nicola Zippel Sapienza University of Rome Department of Philosophy Karel Novotny Faculty of Humanities Charles University of Prague James Mensch Charles University in Prague Faculty of Humanities Annabelle Dufourcq Charles University Prague Faculty of Humanities Juho Hotanen University of Helsinki Silvia Stoller Universität Wien Pierre Rodrigo Université de Bourgogne Dijon Antonino Firenze University Pompeu Fabra Barcelona Shaun Gallagher University of Memphis Department of Philosophy Kwok ying Lau The Chinese University of Hong Kong Monika Murawska The Academy of Fine Arts Warsaw Irene Breuer Bergische Universität Wuppertal Mauro Carbone Université Jean Moulin Lyon 3 Faculté de philosophie László Tengelyi Bergische Universität Wuppertal Björn Thorsteinsson University of Iceland Institute of Philosophy Mikkel B. Tønne Telemark University College Porsgrunn Tamás Ullmann ELTE University of Budapest Institute of Philosophy Johann P. Arnason La Trobe University Melbourne Charles University Faculty of Humanities Prague Michael Staudigl Vienna University Department of Philosophy Suzi Adams Flinders University Adelaide

Impetus and Equipose in the Life-Strategies of Reason Anna-Teresa Tymieniecka, 2000-12-31 Employing her original concept of the onto-poiesis of life the author uncovers the intrinsic law of the primogenital logos that which operates in the working of the indivisible

dyad of impetus and equipoise This is the crucial intrinsically motivated device of logico constructivism This key instrument is engaged is at play at every stage of the advance of life In a feat unprecedented in the history of western philosophy the emergence and unfolding of the entire orbit of the human universe is shown to bear out this insight Furthermore the intrinsic rhythms of impetus and equipoise are taken as a guide in uncovering the workings of the logos all at once in contrast to the piecemeal exposition of a single line of argument In a schema covering the entire career of beingness in becoming between the infinities of origin and destiny an historically unprecedented harmonizing all sectors of rationality is accomplished in a span of reflection comparable to Spinoza's Ethics The work draws on interdisciplinary investigations in both science and the arts All of the history of Occidental philosophy finds summary in it even as feelers guidelines leitmotifs are thrown out for its future development A landmark of Occidental philosophy at the turn of the millennium **Issues in Husserl's Ideas II**

Thomas Nenon, Lester Embree, 2013-03-14 This volume is chiefly composed of revised versions of essays presented and discussed at the research symposium of the same title held in Delray Beach Florida on May 7-9 1993 The symposium was conducted under the sponsorship of the William F Dietrich Eminent Scholar Chair in Philosophy at Florida Atlantic University and the Center for Advanced Research in Phenomenology Inc Several essays have been added including the Husserl ineditum and its translation The intention of the project was to attract even wider appreciation for this posthumous work by Husserl especially since it has now been first translated into English by Andre Schuwer and Richard Rojcewicz In manuscript form the Ideas II was known to Martin Heidegger and Maurice Merleau Ponty before Sein und Zeit 1927 and Phenomenologie de la perception 1945 as well to Edith Stein and Ludwig Landgrebe of course who worked on it as Husserl's assistants It was published in 1952 as Volume IV of the Husserliana series and critical studies of that volume were written by Paul Ricoeur and Alfred Schutz Now that there is an English translation it is increasingly being taught in the United States along with the Ideas I **Being a Lived Body** Tonino Griffero, 2023-12-29 This book begins with the distinction between the so called lived

body or felt body Leib and the physical body Körper tracing the conceptual history of this distinction through key figures in philosophical and social thoughts and articulating a theory of the lived body that draws on the New Phenomenology developed by Hermann Schmitz An explanation of our being in the world in terms of a felt bodily communication with all perceived forms and their affective bodily resonance in us Being a Lived Body integrates and critically assesses the leading theories of embodiment while presenting a new approach to the body It will therefore appeal to scholars of philosophy social theory and anthropology with interests in phenomenology and embodiment *Emotion, Depth, and Flesh: A Study of*

Sensitive Space Suzanne L. Cataldi, 1993-09-30 This book philosophically explores the topic of emotional depth The insights of James J Gibson and Maurice Merleau Ponty on the nature of perceived depth are compared and then extended to the dynamics of emotional experience and alterations in self understanding **Edith Stein and Edmund Husserl** Angela Ales

Bello, 2024-12-15 This book offers a reconsideration and re evaluation of the philosophical exchange between Edmund

Husserl and Edith Stein by addressing their unique and differing positions in light of the thinkers shared phenomenological roots Angela Ales Bello highlights the depth and breadth of the philosophers thinking on questions related to intersubjectivity ethics religion ontology gender anthropology method personhood and psychology The Cambridge Companion to Husserl Barry Smith, David Woodruff Smith, 1995-05-26 Exploring the full range of Husserl's work these essays reveal just how systematic his philosophy is An underlying theme is resistance to the idea current in much intellectual history of a radical break between modern and postmodern philosophy with Husserl as the last of the great Cartesians *Transcending Boundaries in Philosophy and Theology* Kevin Vanhoozer, Martin Warner, 2016-02-24 Presenting new opportunities in the dialogue between philosophy and theology this interdisciplinary text addresses the contemporary reshaping of intellectual boundaries Exploring human experience in a post Christian era the distinguished contributors bring to bear what have been traditionally seen as theological resources while drawing on contemporary developments in philosophy both continental and analytic Set in the context of two complementary narratives one philosophical concerning secularity the other theological about the question of God the authors point to ways of reconfiguring both traditional reason faith oppositions and those between interpretation text and language experience Contributors David Brown Philip Clayton Chris Firestone Grace Jantzen Nicholas Lash George Pattison Dan Stiver Charles Taylor Kevin Vanhoozer Graham Ward Martin Warner

Philosophy of Mind: The Key Thinkers Andrew Bailey, 2013-11-21 Exploring what great philosophers have written about the nature of thought and consciousness *Philosophy of Mind The Key Thinkers* offers a comprehensive overview of this fascinating field Thirteen specially commissioned essays written by leading experts introduce and explore the contributions of those philosophers who have shaped the subject and the central issues and arguments therein The modern debate about the mind was shaped by Descartes in the seventeenth century and then reshaped in the mid twentieth century and since by exciting developments in science and philosophy This book concentrates on the development of philosophical views on the mind since Descartes offering coverage of the leading thinkers in the field including Husserl Ryle Lewis Putnam Fodor Davidson Dennett and the Churchlands Crucially the book demonstrates how the ideas and arguments of these key thinkers have contributed to our understanding of the relationship between mind and brain Ideal for undergraduate students the book lays the necessary foundations for a complete and thorough understanding of this fascinating subject

Children of God in the World Paul O'Callaghan, 2016-10-14 *Children of God in the World* is a textbook of theological anthropology structured in four parts The first attempts to clarify the relationship between theology philosophy and science in their respective approaches to anthropology and establishes the fundamental principle of the text stated in Vatican II's *Gaudium et spes* n 22 Christ manifests man to man The second part provides a historical overview of the doctrine of grace in Scripture especially the teaching of the book of Genesis on humans made in the image of God as well as Paul and John among the Fathers in particular the oriental doctrine of divinization and Augustine during the Middle Ages especially Thomas Aquinas and the

Reformation period centered particularly on Luther and the Council of Trent right up to modern times The third part of the text the central one provides a systematic understanding of Christian grace in terms of the God s life present in human believers by which they become children of God disciples friends and brothers of Christ temples of the Holy Spirit This section also provides a reflection on the theological virtues faith hope and charity on the relationship between grace and human freedom on the role of the Church and Christian apostolate in the communication of grace and on the need humans have for divine grace After considering the relationship between the natural and the supernatural order the fourth and last part deals with different philosophical aspects of the human condition in the light of Christian faith the union between body and soul humans as free historical social sexual and working beings The last chapter concludes with a consideration of the human person Christianity s greatest and most enduring contribution to human thought *The Ethics of Karl Barth* Robert E. Willis,2023-12-28 **About Face** Richard T. Gray,2004 A critical history of physiognomic thought in German speaking Europe that traces the roots of twentieth century racial profiling to the Enlightenment Once associated with astrology and occultist prophecy the art of interpreting personal character based on facial and other physical features dates back to antiquity About Face tells the intriguing story of how physiognomics became particularly popular during the Enlightenment no longer as a mere parlor game but as an empirically grounded discipline The story expands to illuminate an entire tradition within German culture stretching from Goethe to the rise of Nazism In About Face Richard T Gray explores the dialectical reversal from the occult to the scientific realm that entered physiognomic thought in the late eighteenth century beginning with the positivistic writings of the Swiss pastor Johann Caspar Lavater Originally claimed to promote understanding and love physiognomics devolved into a system aimed at valorizing a specific set of physical moral and emotional traits and stamping everything else as deviant This development not only reinforced racial national and characterological prejudices but lent such beliefs a presumably scientific grounding In the period following World War I physiognomics experienced yet another unprecedented boom in popularity Gray explains how physiognomics had by then become a highly respected super discipline that embraced many prominent strands of German thought the Romantic philosophy of nature the life philosophy propagated by Dilthey and Nietzsche the cultural pessimism of Schopenhauer Husserl s method of intuitive observation Freudian psychoanalysis and early twentieth century eugenics and racial biology A rich exploration of German culture About Face offers fresh insight into the intellectual climate that allowed the dangerous thinking of National Socialism to take hold
