Garden at Monceau Carmontelle, 2020-12-08 Carmontelle's landmark publication *Garden at Monceau* beautifully reproduced to show the Parisian garden's artistic and cultural importance before the French Revolution. Originally published in 1779, *Garden at Monceau* is a richly illustrated presentation of the garden Louis Carrogis known as Carmontelle designed on the eve of the French Revolution for Louis Philippe Joseph d'Orléans, duc de Chartres. With its array of architectural follies intended to surprise and amaze the visitor, the garden was a setting for ancien régime social life. Carmontelle's portrayal of his work in *Garden at Monceau* therefore serves as an expression of a key moment in the history of European landscape design, garden architecture, and social history. This facsimile edition, with its English language text and reproductions of the original engravings, is accompanied by essays that interpret the landscape design and examine Carmontelle's larger career as a painter and theater producer.

The Poetry of Juan Ramón Jiménez. Julio Hans C. Jensen, 2012-07-01 The Spanish poet Juan Ramón Jiménez (1881-1958), Nobel laureate (1956), wrote at a key moment in literary history. Since Jiménez's lyrical output covers the poetic tradition from Romanticism through Symbolism to the Avant-Garde, his work can be regarded as a condensation of the modern paradigm. Julio Jensen investigates the lyrical subject appearing in Jiménez's poetry as exemplary of the notion of modern subjectivity. He does so by assuming a historical correlation between literature and philosophy in the sense that if philosophical discourse conceptualizes the prevailing understanding of the human being at a given moment, literary discourse represents it. Modern thought does not accept any other foundation than subjectivity. At the same time, the awareness of the subject's finitude engenders pessimism with respect to its status as world-generating principle. One of the primary aims of this study then is to show how Jiménez poignantly enacts this vacillation between self-enthronement and self-eradication. With insightful readings of Jiménez's poetry, the author opens a rich vein in the work of a writer who would serve

as a central reference for later Spanish language poets such as Federico Garc Lorca Pablo Neruda and Octavio Paz ???
