Sharifi-Yazdi, 2015-06-29 Iranian ambitions in the Persian Gulf and rivalries with Arab neighbours are subject to intense and heated speculation controversy and debate Here Farzad Cyrus Sharifi scrutinises the rival Arab Iranian claims to Bahrain the Shatt al Arab waterway and the Abu Musa and Tunbs islands in the years after World War II and before the Iranian revolution Through investigation of previously unexamined primary materials and interviews with leading players this book sheds new light on the evolution and dynamics of hegemonic and nationalistic Arab Iranian rivalries and how these rivalries began to find symbolic expression through territorial disputes Sharifi illustrates that these ongoing disputes and the deep seated tensions still prevalent in Arab Iranian relations are largely rooted in how they were constructed in the post World War II period making this book vital reading for researchers of the politics history international relations and diplomacy of Political Autonomy and Divided Societies Alain-G Gagnon, Michael Keating, 2012-03-27 An all star cast of academic experts offer an important and timely analysis of the pursuit of autonomy They argue that it is key to move beyond the primarily normative debate about the rights or wrongs of autonomous regions on the basis of cultural concerns instead focusing on understanding what makes autonomy function successfully The End of Pax Britannica in the Persian Gulf, 1968-1971 Brandon Friedman, 2020-11-17 This book examines how the rulers in the Persian Gulf responded to the British announcement of military withdrawal from the Gulf in 1968 ending 150 years of military supremacy in the region The British system in the Gulf was accepted for more than a century not merely because the British were the dominant military power in the region The balance of power mattered but so did the framework within which the British exercised their power The search for a new political framework which began when the British announced withdrawal was not simply a matter of which ruler would amass enough military power to fill the void left by the British it was also a matter of the Gulf rulers chiefly Iran Saudi Arabia and the ruling shaykhs of the lower Gulf coming to a shared understanding of when and how the exercise of power would be viewed as legitimate This book explores what shaped the rulers ideas and actions in the region as the British system came to an end providing a much needed political history of the region in the lead up to the independence of the UAE Bahrain and Qatar in 1971 Iran's Persian Gulf Policy Dr Christin Marschall, 2003-12-08 This book examines the foreign policy of the Islamic Republic of Iran towards the states of the Persian Gulf from 1979 to 1998 It covers perceptions Iranians and Arabs have of each other Islamic revolutionary ideology the Iran Iraq war the Gulf crisis the election of President Khatami and finally the role of external powers such as the United States The author argues that over the twenty year period the policy has moved from being ideological to pragmatic and that by tracing its history we can better Statecraft in the Middle East Imad Mansour, 2016-09-27 What role do ideas play in anticipate its future relationship state building and state activity Thisbook argues that government policies in both foreign relationsand domestic politics must always be situated within a broaderideational and societal context Imad Mansour analyses how governments in the contemporary Middle East have governed internally and acted externally based on societal narratives which bring together a variety of ideas about a society shistory and place in the world He argues that there is a dominant societalnarrative that acts as a primary building block of statecraft where statecraftis understood as an ongoing set of local regional and global state buildingprocesses Mansour investigates the ways in which statecraft in the Middle Easthas been guided by narratives through a close historical reading and comparative discussion of the political activity of six states Egypt Israel Syria Turkey Saudi Arabia and Iran in the second half of the twentieth century and the earlytwenty first century His book demonstrates the analytical power of narrativesin understanding statecraft and explains why governments decisions need to beunderstood in complex ways

Anglo-Iranian Relations since 1800 Vanessa Martin, 2013-05-13 With contributions from renowned experts in the field this book provides an excellent background to the history of Anglo Iranian relations Focusing on the political and economic relationship of Britain and issues of strategic sensitivity the book also illuminates British relations with society and the state and describes the interaction between various representatives and agents of both countries Anglo Iranian relations have had a long and complex history characterized on the one hand by mistrust and intrusion and on the other by mutual exchange and understanding This book explores the intriguing history of this interactive relationship since 1800 looking at it from a variety of perspectives Drawing on previously unavailable documents in English and Persian the book argues that Iran in the nineteenth century had a national state which strongly defended the national interests

Security Arrangements in the Persian Gulf Mahboubeh F. Sadeghinia, 2011 Helps us to understand the reasons for the failure of security models in the Persian Gulf This book provides a fresh model that addresses the need for a stable and peaceful structure of relationships provides security for individual littoral states and also assures the interests of the external National Security Imperatives and the Neorealist State Michael S. Grogan, 2000 This thesis argues that powers pragmatic neorealist interests reducing Iran s international isolation opening avenues for economic cooperation and commercial exchange restoring religious and cultural links and safeguarding the mutually advantageous relationships with influential powers in the region are the true foundations of Iranian national security and foreign policy decisionmaking Iran s imperative has been and still is focused on the pragmatic national security interests of the nation state model vice the ideological potential for spreading its brand of Islamic revolution abroad The causes of these Islamic revolutionary groups no matter how noble in the Iranian leaderships eye do not outweigh the more classic nation state decisionmaking process that the Iranian government undergoes when it determines the best course of action on an issue of foreign policy and or national security realpolitik It is the neorealist approach which always wins out in national security matters of a state Presented are four case studies of Iranian relations with Azerbaijan Turkey Israel and four Persian Gulf States the United Arab Emirates Bahrain Oman and Saudi Arabia What each reveals is an Islamic Iran s whose policy decisions and actions compelled by the rational state model of neorealism and not ideology **The Sea** Peter N. Miller, 2013-04-24 The Seabrings together a group of noted contributors to evaluate the different ways in which seas have served as subjects in historiography and asks how this

has changed and will change the way history is written The essays in this volume provide exemplary demonstrations of how a sea based history writing that focuses on connectivity networks and individuals describes the horizons and the potential of thalassography the study of the world made by individuals embedded in networks of motion As Peter N Miller contends in his introduction writing about the sea today is a way of partaking in the wider historiographical shift toward microhistory exchange relations networks and above all materiality both literally and figuratively The Sea focuses not on questions of discipline and professionalization as much as on the practice of scholarship the writing and therefore the planning and organizing of histories of the sea From Alliance to Union Joseph A. Kéchichian, 2016-05-24 After the conservative Arab Gulf Monarchies Bahrain Kuwait Oman Qatar Saudi Arabia and the United Arab Emirates UAE joined forces on 25 May 1981 within the Gulf Co operation Council GCC few fathomed that security requirements on and around the Arabian Peninsula would be so precarious and for so long To answer their search for permanent stability Arab Gulf rulers erected a regional alliance that sought to integrate internal and regional defences as well as strengthen their existing socio economic ties Several of the monarchies even hoped that co ordination on foreign policy issues over which near unanimity existed could eventually lead to a full fledged union as envisaged in the organisation's founding charter Between 1981 and 2015 these Arab Gulf monarchies experienced major socio political transformations resulting from upheavals throughout the Arab and Muslim worlds The perceived necessity to bring about a full fledged union has come into conflict with entrenched viewpoints from regimes that value traditional military political roles and norms In this new study Joseph A Kechichian provides an evaluation of GCC States military institutions to better evaluate whether a stable alliance is capable of enduring over the next few decades and how civilian leaders perceive the role and influence of their military officers for the task Kechichian raises fundamental questions over internal regional and international threats including an existential challenge emanating from the Islamic revolutionary government of Iran and assesses how GCC professionals may be preparing to tackle them He further elucidates on the best methods to meet security challenges not only to secure political survival but also to determine whether conservative Arab Gulf regimes can flourish outside an effective alliance The volume concludes with an examination of evolving civil military relations in the GCC States Britain and State Formation in Arabia 1962–1971 Clive Jones, 2018-12-07 Half a century ago Britain abandoned Aden its last colonial outpost in the Arab world as its attempt to establish a new polity foundered amid a rising tide of Arab nationalism tribal infighting and anti colonial sentiment that eventually gave rise to the establishment of South Yemen Yet just over three years later in 1971 a new state the United Arab Emirates emerged in Arabia formed from the old Trucial states over which Britain had long held sway At a time when state failure and fragmentation has become synonymous with much of the Middle East and where the very idea of sovereignty and legitimacy have become contested issues this comparative historical study of the varied British attempts at state creation on the Arabian peninsula offers important insights into the limits of external ambition as well as the possibilities that great

power retrenchment offered to the peoples of the region The legacy of British influence in Aden and Abu Dhabi still very much resonates today this volume explains why This book was originally published as a special issue of Middle Eastern Studies Lessons From the Political Economy of Small Islands NA NA,2016-04-30 Small islands often enjoy a distinct juridical personality Many whether fully sovereign or not successfully deploy this gift of jurisdiction to economic advantage offsetting the potentially adverse effects of smallness isolation and peripherality These legal powers reflected in supportive policy and culture are themselves key economic resources in a development strategy Globalization can be richly asymmetrical offering lucrative opportunities for differentiation and nice strategies for small island jurisdictions This book documents such lessons from a most unlikely group of North Atlantic Islands Iran in the World Shahram Akbarzadeh, Dara Conduit, 2016-04-08 This book evaluates President Hassan Rouhani's foreign policy during his first two years in office looking at the case studies of Armenia Azerbaijan the UAE Turkey and Syria as well as the Iran US relationship President Rouhani came to power in Iran in 2013 promising to reform the country's long contentious foreign policy His top priorities were rehabilitating the Iranian economy ending the nuclear dispute rebuilding relations with the US and mending ties with Iran's neighbors It is argued here that while President Rouhani has made progress in the Iran US relationship in nuclear negotiations and some bilateral relationships his broader success has been hampered by regional political developments and domestic competition Further it is contended that his future success will be guided by emerging regional tensions including whether Iran's neighbors will accept the terms of the nuclear agreement
