Smallholder Dairy Technology In Coastal Kenya An Adoption And Impact Study:

Smallholder Dairy Technology in Coastal Kenya Charles F. Nicholson, 1999-01-01 This study examined the factors influencing adoption of three related dairy technologies in coastal Kenya and assessed the impacts of dairy adoption on household income employment generation and nutrition status of pre school children The technologies studied were adoption of grade and crossbred dairy animals planting of the fodder Napier grass and use of the infection and treatment method of immunisation against East Coast fever A series of household surveys was conducted from mid 1997 to mid 1998 The descriptive results from surveys of 202 households in Coast Province indicate that adoption of a grade or crossbred dairy animal may result in substantial increases in household income can generate paid secondary employment and may improve the nutritional status of pre school age children in the Household Econometric analyses which controlled for numerous confounding factors provided less consistent support for the impact of adoption on household income and paid employment It appears that neither the adoption nor productivity of dairying are constrained by poor availability of technology options For dairy development activities on the coast two areas merit attention mechanisms for easing access to grade and crossbred dairy cattle either through credit schemes or through self help smallholder co operatives and reducing the disease risks associated with grade and crossbred dairy animals

Green Manure/Cover Crop Systems of Smallholder Farmers Marjatta Eilittä, Joseph Mureithi, Rolf Derpsch, 2007-05-08 In the 1980s and 1990s green manure cover crop GMCC systems became a popular agricultural technology in research and development efforts for smallholder tropical and subtropical farmers However few syntheses of these experiences have been conducted This volume of case studies contributes to bridging this gap by reviewing field level experiences with these systems Twelve case studies are included Eleven of them describe experiences from Latin America 4 cases Africa 6 cases and Asia 1 case and the twelfth case reports on the development of a GMCC systems database Two concluding chapters Learning from the Case Studies and Future Perspectives build upon the cases The systems described are diverse Some systems have been spontaneously adopted by farmers while others have been introduced to the farmers through diffusion efforts Some of the cases reviewed describe small localized efforts while others report on large scale well known ones such as the combination of GMCCs and conservation tillage in Santa Catarina Brazil the maize Mucuna system in northern Honduras and the improved fallow systems in Eastern Zambia Most experiences include both development and research aspects and to the extent possible the cases integrate these two Discussion of the strengths and shortcomings of the systems and efforts is frank and the goal is to learn from these experiences to benefit future efforts It is expected that both researchers and development practitioners and students of tropical farming systems and soil management will find this volume of case studies useful

Proceedings: Workshop on Ecoregional Research at Ilri , Grasslands Stephen Reynolds, 2019-05-14 This book looks at significant current grassland problems and issues and provides an insight into grassland productivity in diverse areas of the world with their various production systems There is a

focus on recent technical advances and the prospects for further innovation through twenty one chapters by eminent grassland scientists grouped in Genetically Improved Dual-purpose Cowpea, 2002-01-01 *Maize as Food, Feed, and Fertiliser in Intensifying Crop-livestock Systems in East and Southern Africa*, 2002-01-01 *Assessment of Priorities to 2010 for the Poor and the Environment*, 2000-01-01 *Knowledge transfer in cattle husbandry* Knowledge transfer in cattle husbandry Abele Kuipers, Marija Klopčič, Cled Thomas, 2023-08-28 This book addresses the principles of knowledge transfer and presents a wide scale of applications Effective knowledge utilization requires that insights developed in the animal sciences are combined with social science approaches That is accomplished in this book The applications focus on the adoption of new management practices in cattle husbandry In animal sciences the emphasis is generally on the technical and zoological know how The organizational and personal dimensions are too often neglected as critical factors to success Organizational aspects deserve credit because the results of research must often be implemented in a complex chain of producer and consumer oriented organisations Personal aspects such as attitudes and views towards the future significantly determine the chance of adopting innovations In this book these dimensions also receive some attention Some more theoretical papers are followed by practical examples of implementations in the field and by descriptions of extension networks and services A large variety of papers is presented from the power of the researcher and consultant through the power of data banks to the power of the client and producer in the dissemination process thus from input driven to demand driven This book is of importance to all who deal in some way with knowledge exchange and transfer **ILRI 1999** International Livestock Research Institute, 2000-01-01 **ILRI Programme: Progress, Achievements and Impact 1994-1998** International Livestock Research Institute, **Innovations as Key to the Green Revolution in Africa** Andre Bationo, Boaz Waswa, Jeremiah M. Okeyo, Fredah Maina, Job Maguta Kihara, 2011-08-30 Africa can achieve self sufficiency in food production through adoption of innovations in the agriculture sector Numerous soil fertility and crop production technologies have been generated through research however wide adoption has been low African farmers need better technologies more sustainable practices and fertilizers to improve and sustain their crop productivity and to prevent further degradation of agricultural lands The agricultural sector also needs to be supported by functional institutions and policies that will be able to respond to emerging challenges of globalization and climate change **Agricultural Technologies and Tropical Deforestation** Arild Angelsen, David Kaimowitz, 2001-04-20 This book has been developed from a workshop on Technological change in agriculture and tropical deforestation organised by the Center for International Forestry Research and held in Costa Rica in March 1999 It explores how intensification of agriculture affects tropical deforestation using case studies from different geographical regions using different agricultural products and technologies and in differing demographic situations and market conditions Guidance is also given on future agricultural research and extension efforts Research Approaches and Methods for Improving Crop-animal Systems in South-East Asia, 2002-01-01 **Women,**

Livestock Ownership and Markets Jemimah Njuki, Elizabeth Waithanji, Joyce Lyimo-Macha, Juliet Kariuki, Samuel Mburu, 2013-10-23 This book provides empirical evidence from Kenya Tanzania and Mozambique and from different production systems of the importance of livestock as an asset to women and their participation in livestock and livestock product markets It explores the issues of intra household income management and economic benefits of livestock markets to women focusing on how types of markets the types of products and women s participation in markets influence their access to livestock income The book further analyses the role of livestock ownership especially women s ownership of livestock in influencing household food security though increasing household dietary diversity and food adequacy Additional issues addressed include access to resources information and financial services to enable women more effectively to participate in livestock production and marketing and some of the factors that influence this access Practical strategies for increasing women s market participation and access to information and services are discussed The book ends with recommendations on how to mainstream gender in livestock research and development if livestock are to serve as a pathway out of poverty for the poor and especially for women
