forms and sound textures through lyric s rhythm rhyme and repetition these poets were pursuing song s thought in a double sense They not only asked readers to think of particular kinds of song as musical sound in social performance ballads national airs political songs plainchant but also invited readers to think like song to listen to the sounds of a poem as it moves minds in a different way from philosophy or science By attending to the formal practices of these poets the music to which the poets were listening and the stories and myths out of which each forged a poetics that aspired to the condition of music Helsinger suggests new ways to think about the nature and form of the lyric in the nineteenth century The Cambridge book of poetry and songs Ch.
