## **Songs Of Degrees Essays On Contemporary Poetry And Poetics:**

*Songs of Degrees* John Taggart, 1994 *Songs of Degrees* brings together 19 related essays on contemporary American poetry and poetics published as journal articles between 1975 and 1989 by poet and theorist John Taggart Over the past two decades Taggart has been a significant intellectual and artistic force for a number of major American poets By focusing on the work of several major and less well known American experimental poets from the 1930s to the present Taggart not only traces the origins and evolution of this experimental tendency in recent poetry but also develops new theoretical tools for reading and appreciating these innovative and complex works The essays are written from the engaged perspective of an active poet for other poets as well as for those who would like to read and think about poetry in a participatory fashion The essays thus present inside narratives of some of the most challenging contemporary American poetry The range of *Songs of Degrees* extends from the Black Mountain poets Charles Olson and Robert Duncan to such language poets as Bruce Andrews and Susan Howe Taggart closely examines the work of the objectivist poets George Oppen and Louis Zukofsky Three essays are devoted to each of these poets providing detailed readings of individual poems and considerations of each poet's overall achievement Taggart also concentrates on poets whose work has not been widely recognized or is only now beginning to be recognized These include Theodore Enslin Frank Samperi and William Bronk Taggart's essay *Reading William Bronk* is the first extensive reading of this relatively unknown but truly outstanding poet Taggart's essays also focus on his own poetry He describes the composition process and the thinking behind it as well as the poet's own evolving sense of what the poem can and ought to be These very personal reflections are unique in their attention to current questions concerning form and the issue of spiritual vision Avoiding political and cultural reductionism Taggart throughout keeps his eye and heart on the poetic singing his own *Songs of Degrees* even as he discovers notes of the same music in the works of other

**Charles Olson and Alfred North Whitehead** Shachar Bram, 2004 *Annotation* Through a detailed and thoughtful study of the impact of Alfred North Whitehead's philosophy on Olson's aesthetic theory this book points out the conceptual unity underlying what seems to be a sprawl of fragments in Olson's major work *The Maximus Poems* On the one hand concrete poetic units of *The Maximus Poems* serve as a starting point for clarifying how different elements are joined together in one unity On the other hand the book traces the blending of the whole poem at the macro level following its course through a temporal progress in which the poem moves from one poetic unit to the next that is from a unity of multiplicity to a new unity in which the previous unity is already part of the multiplicity building the new one Thus the book illuminates Olson's theory of the Long Poem as an all containing corpus governed by metaphysical principles equal to life itself enacted in the process of working on *The Maximus Poems* BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved [Expressivity in Modern Poetry](#) Donald Wellman, 2019-02-26 *Expressivity in Modern Poetry* explores three interrelated subjects The first is a general exposition of the radical or deeply realistic aspects of the poetry and visual arts of the modern period The focus is on

the works of Ezra Pound as understood through a prism of postmodern thought The second subject is the poetry and poetics of Charles Olson a pivotal figure during the transition from modernism to postmodernism The third subject is contemporary innovative poetry with special attention to transcultural neobarroco and language centered aspects of composition The grounding for this section is found in the works of William Carlos Williams Aime Cesaire and Jose Lezama Lima A reversal of the relation between the center and periphery decentering the New York to Paris vector is crucial for understanding the Caribbean as a seedbed for both innovative and identity based poetics Wellman s purpose is to amplify the cultural importance of expressivity in a field where critical discussion is often dominated by constructivism and conceptualism Expressivity in Modern Poetry offers a new reading of the relation between twentieth century modernism and contemporary poetic practice

and historical insights into their poetry and poetic careers In bringing together for the first time the work of two of the most important poets of the postwar generation *The Music of Thought* not only illuminates their poetry but also raises important questions about American literary history and the categories in terms of which it has generally been interpreted

**Opposing Poetries: Readings** Hank Lazer, 1996 Explains to structural engineers some of the basic equations for analyzing and designing buildings that were devised at the end of the 19th century but were so unmanageably complex to solve that they were displaced by approximation techniques until the recent advent of electronic computer Heyman engineering U of Cambridge warns that some of the equations turn out not to fit reality as close as future occupants of buildings might prefer and explains how to use them and in what context Annotation copyrighted by Book News Inc Portland OR

**Poetry as Re-Reading** Ming-Qian Ma, 2008-08-20 Grounded in a detailed and compelling account of the philosophy guiding such a project Ma's book traces a continuity of thought and practice through the very different poetic work of objectivists Louis Zukofsky George Oppen Carl Rakosi and John Cage and language poets Susan Howe Lyn Hejinian Bruce Andrews and Charles Bernstein His deft individual readings provide an opening into this notoriously difficult work even as his larger critique reveals a new and clarifying perspective on American modernist and post modernist avant garde poetics Ma shows how we cannot understand these poets according to the usual way of reading but must see how they deliberately use redundancy unpredictability and irrationality to undermine the meaning oriented foundations of American modernism and to force a new and different kind of reading Pub desc

**A Door Ajar** Thomas Gardner, 2006-08-17 Thomas Gardner argues in this original study that we are just beginning as a culture to understand the far reaching implications of Emily Dickinson's work Looking at the way quite different writers have enacted and fleshed out crucial aspects of her poetry Gardner gives us a Dickinson for our times Beginning with the work of Lucie Brock Broido Alice Fulton Kathleen Fraser and Robert Hass Gardner moves on to analytical chapters and fully developed conversations with four writers in whose work he finds the fullest extension of Dickinson's legacy The interviews with these four Marilynne Robinson Charles Wright Susan Howe and Jorie Graham provide a particularly intimate look at writers at work In returning to Dickinson's work Gardner observes contemporary writers have powerfully extended what he calls her poetics of broken responsiveness in which an acknowledgment of limits leads paradoxically to a deep engagement with a world beyond our capacity to master or possess In the hands of our most important poets and novelists Dickinson's emptying of the articulate self has become a potent means of addressing some of our culture's fundamental erotic religious philosophical and social questions *A Door Ajar* makes visible the Dickinson that will matter to writers and readers over the next several decades

**Intricate Thicket** Mark Scroggins, 2015-09-15 *Intricate Thicket* Reading Late Modernist Poetries offers a collection of nineteen essays that deftly erodes the simplistic distinction between modernism and postmodernism showing that many attributes of postmodernist verse form not a break with but rather a continuation of modernist poetry

**The Poetry and Poetics of Michael Heller** Jon Curley, Burt Kimmelman, 2015-07-01 *The Poetry and Poetics of Michael Heller* A Nomad Memory is the first comprehensive treatment of a singularly important American poet of the twentieth and twenty first centuries Michael Heller b 1937 has amassed a body of poetry and criticism that places him in the vanguard of modern literature and this essay collection provides the first extensive critical treatment of his varied career This book's multifaceted appraisal of his engagement with poetry as well as crucial ideas across various traditions establishes him as a preeminent writer among his contemporaries and younger generations and as a major poet in any era
