First Person Plural Sophie McCall, 2011-05-15 In this innovative exploration told to narratives or collaboratively produced texts by Aboriginal storytellers and usually non Aboriginal writers are not romanticized as unmediated translations of oral documents nor are they dismissed as corruptions of original works Rather the approach emphasizes the interpenetration of authorship and collaboration Focused on the 1990s when debates over voice and representation were particularly explosive this comprehensive study examines a range of told to narratives ethnography life narrative documentary in conjunction with key political events that have shaped the struggle for Aboriginal rights in Canada Emphasizing the scope rather than the limits of the told to narrative McCall considers how Aboriginal voices have been represented in a variety of forums such as public inquiries commissioners reports and land claims cases A captivating inquiry *First Person Plural* offers a vital interdisciplinary discussion of how told to narratives contribute to larger debates about Indigenous voice and literary and political sovereignty

Northern Experience and the Myths of Canadian Culture Renée Hulan, 2002 In *Northern Experience and the Myths of Canadian Culture* Ren e Hulan disputes the notion that the north is a source of distinct collective identity for Canadians Through a synthesis of critical historical and theoretical approaches to northern subjects in literary studies she challenges the epistemology used to support this idea By investigating mutually dependent categories of identity in literature that depicts northern peoples and places Hulan provides a descriptive account of representative genres in which the north figures as a central theme including autobiography adventure narrative ethnography fiction poetry and travel writing She considers each of these diverse genres in terms of the way it explains the cultural identity of a nation formed from the settlement of immigrant peoples on the lands of dispossessed indigenous peoples Reading against the background of contemporary ethnographic literary and cultural theory Hulan maintains that the collective Canadian identity idealized in many works representing the north does not occur naturally but is artificially constructed in terms of characteristics inflected by historically contingent ideas of gender and race such as self sufficiency independence and endurance and that these characteristics are evoked to justify the nationhood of the Canadian state

Handbook of Native American Literature Andrew Wiget, 2013-06-17 The Handbook of Native American Literature is a unique comprehensive and authoritative guide to the oral and written literatures of Native Americans. It lays the perfect foundation for understanding the works of Native American writers. Divided into three major sections: Native American Oral Literatures, The Historical Emergence of Native American Writing, and A Native American Renaissance 1967 to the Present, it includes 22 lengthy essays written by scholars of the Association for the Study of American Indian Literatures. The book features reports on the oral traditions of various tribes and topics such as the relation of the Bible, dreams, oratory, humor, autobiography, and federal land policies to Native American literature. Eight additional essays cover teaching Native American literature, new fiction, new theater, and other important topics, and there are bio-critical essays on more than 40 writers ranging from William Apes, who in the early 19th century denounced white society's treatment of his people, to contemporary poet Ray Young Bear. Packed with information that was once scattered and scarce, the Handbook of Native American Literature, a valuable one-volume resource, is sure to appeal to everyone interested in Native American history, culture, and literature. Previously published in cloth as *The Dictionary of Native American Literature*. [Native Writers and Canadian Writing](#) W. H. New, 2011-11-01 Sometimes people are willing to listen only to those voices that confirm the conventions they already know. The unfamiliar makes them fear. Or makes them condescend. Neither fear nor condescension encourages listening. And no one who does not listen learns to hear. W. H. New, *Learning to Listen*. *Native Writers and Canadian Writing* is a co-publication with *Canadian Literature*, Canada's foremost literary journal, of a special double issue which focuses on literature by and about Canada's Native peoples and contains original articles and poems by both Native and non-Native writers. These not only reflect the growing prominence of contemporary Native writing but also direct the reader to the traditional literature from which it springs and which has been largely misunderstood by the non-Native community: myths, rituals, and songs having been interpreted more often as artistic curiosities rather than the masterworks of a different culture. Essays examining the conventional portrayals of Native people in literature touch on works which range from the eighteenth-century journals of explorer Alexander Mackenzie to the novels of James Fenimore Cooper, and to early writers in Canada such as historian-humourist Thomas Chandler Haliburton. Studies of Native literature focus on the oral literary traditions of the Haida and Inuit and their transcribers, and on modern works by playwright Tomson Highway and authors Lee Maracle and Thomas King, among others. These commentaries illuminate the way in which Native writers view themselves and their disparate worlds, their gifts for pathos, humour, and self-parody, and their search for their own voices and distinct forms of communication. Viewing Canada's Native peoples in historical, anthropological, and political contexts, the book exposes prejudices and misconceptions entrenched since colonial days regarding Native societies and their moral, spiritual, and political values embodied in their hereditary literature. Just as Native visual art has flourished in recent years, the book records the initiatives now being taken by Native societies to preserve and promote their own cultural

identity through the spoken and written word These include control of their own education creative writing programs projects to preserve still extant languages folklore songs and rituals and the founding of Native publishing houses Not only are these endeavours valuable contributions to tribal cultures but they also contribute to the past and ongoing literary heritage of Canada as a nation Recognition of the place of Native literature as an integral part of the Canadian cultural scene is one of the main goals of Native Writers and Canadian Writing As W H New points out this collection is a speaking place a series of opportunities to begin listening Native Writers and Canadian Writing has been produced as one of the projects celebrating the 75th anniversary of the University of British Columbia
