

SONNET 147

My love is as a fever, longing still
For that which longer nurseth the disease,
Feeding on that which doth preserve the ill,
Th' uncertain sickly appetite to please.

My reason, the physician to my love,
Angry that his prescriptions are not kept,
Hath left me, and I desperate now approve
Desire is death, which physic did except.
Past cure I am, now reason is past care,
And frantic-mad with evermore unrest
My thoughts and my discourse as madmen's
are,

At random from the truth vainly expressed
For I have sworn thee fair, and thought thee
bright,

Who art as black as hell, as dark as night

Sonnets To Orpheusbook One:

The Sonnets to Orpheus Rainer Maria Rilke, 1986 Breathing you invisible poem World space in pure continuous interchange with my own being Equipose in which I rhythmically transpire Written only four years before Rilke's death this sequence of sonnets varied in form yet consistently structured stands as the poet's final masterwork In these meditations on the constant flux of our world and the ephemerality of experience Rilke envisions death not only as one among many of life's transformations but also as an ideally receptive state of being Because Orpheus has visited the realm of death and returned to the living his lyre a unifying presence in these poems is an emblem of fluidity and musical transcendence And Eurydice condemned to Hades as a result of Orpheus's backward glance becomes in Rilke's universe a mythical figure of consolation and hope Edward Snow in his translations of *New Poems The Book of Images Uncollected Poems and Duino Elegies* has emerged as Rilke's most able English language interpreter Adhering faithfully to the intent of Rilke's German while constructing nuanced colloquial poems in English Snow's *Sonnets to Orpheus* should serve as the authoritative translation for years to come

Sonnets to Orpheus Rainer Maria Rilke, 2012-01-01 *Sonnets to Orpheus* is Rainer Maria Rilke's first and only sonnet sequence It is an undisputed masterpiece by one of the greatest modern poets translated here by a master of translation David Young Rilke revived and transformed the traditional sonnet sequence in the *Sonnets* Instead of centering on love for a particular person as has many other sonneteers he wrote an extended love poem to the world celebrating such diverse things as mirrors dogs fruit breathing and childhood Many of the sonnets are addressed to two recurrent figures the god Orpheus prototype of the poet and a young dancer whose death is treated elegiacally These ecstatic and meditative lyric poems are a kind of manual on how to approach the world how to understand and love it David Young's is the first most sensitive of the translations of this work superior to other translations in sound and sense He captures Rilke's simple concrete and colloquial language writing with a precision close to the original

The Muse that Sings Ann McCutchan, 2003 *The Muse That Sings* is a unique behind the scenes look at both twentieth century music and the nuts and bolts of creative work Here twenty five of America's leading composers from Adams to Zorn from Bolcom to Vierk talk candidly about their craft their motivations their difficulties and how they proceed from musical idea to finished composition While focusing on the process and the stories behind specific works the composers also touch on topics that will interest anyone involved in creative work They discuss teachers and mentors the task of revision relationships with performers and the ongoing struggle for a balance between freedom and discipline They reveal sources of inspiration artistic goals and the often unexpected ways their musical ideas develop Some describe personal tonal systems others discuss the impact of computers and other electronic tools on their work still others reflect philosophically on the inner impulses and outer influences that continue to

drive them While serious music has a reputation for being difficult and inaccessible The Muse That Sings provides a powerful antidote The composers in this book speak clearly and thoughtfully in response to key questions of concern to all readers interested in contemporary music Each interview has been edited to stand alone as a concise meditation on muse and technique and the book includes selected discographies as well as brief biographical sketches Anyone with an interest in twentieth century music or in the creative process will find this lively collection a valuable source of inspiration and insight

Rainer Maria Rilke Volker Dürr, 2006 Influenced by Hegel and Nietzsche and inspired by stays in Italy and France as well as travels to Russia Spain and North Africa Rainer Maria Rilke nevertheless sought desperately to be original He rejected all ides re ues whether they were of God reality or literature instead creating his own absolute He searched for the real re formed German poetry and revolutionized Western narrative prose with Malte Laurids Brigge While Rilke's work is marked by two cesuras after which it displays important advances in diction and the figuration of verbal icons it becomes ever more esoteric However there are also constants throughout his oeuvre in thematics topoi and diction for example the preoccupation with death figures such as the angel key nouns alliterations and noun sequences His fear of death drove him to adopt the open an idea conceived by the dubious mystagogue Alfred Schuler that surfaces throughout Rilke's poetry and triumphs in *Sonnets to Orpheus* and *Duino Elegies* **The Poem I Turn To** Jason Shinder, Lili Taylor, Michael O'Keefe, 2008

This anthology of classic and modern poetry features works selected and read by celebrated American movie actors and directors **The Affective Turn** Patricia Ticineto Clough, Jean Halley, 2007-07-12 Linking cultural studies and sociology this collection explores the role of affect in the theorization of the social Imaginations of Death and the Beyond in India and Europe Günter Blamberger, Sudhir Kakar, 2018-03-27 This volume explores current images of afterlife afterdeath and the presence of the dead in the imaginations of the living in Indian and European traditions Specifically it focuses on the deepest and most fundamental uncertainty of human existence the awareness of human mortality on which depends any assignment of meaning to earthly existence as also to notions of worldly and otherworldly salvation This central idea is addressed in the literature arts audiovisual media and other cultural artefacts of the two traditions The chapters are based on two main assumptions First that one cannot report on the direct experience of death so it is only possible to speak allegorically of it

Second in contemporary Western societies marked by structural atheism people look at literature the arts and mass media to study their depiction and reading of traditionally religious questions of disease death and the Beyond This is in contrast to Asian civilizations whose preoccupation with death and Beyond is persistent and perhaps central to the civilizations highest thought The chapters cover a wide spectrum of disciplinary approaches from psychoanalysis to religious anthropological literary and film studies from sociology and philosophy to art history and address issues of unsettling power comforting illusions of afterlife the relations between afterlife and fertility visions of technological immortalization of mankind the problem of thinking about death after the death of God socialist utopias of bodily immortality fear of Hell and punishment different concepts in relating the living and the dead near death experiences and cultural practices of spiritualism occultism and suicide *The Classical Outlook* ,1971
