Governing Guns, Preventing Plunder Asif Efrat,2012-07-19 From human trafficking to the smuggling of small arms to the looting of antiquities illicit trade poses significant threats to international order So why is it so difficult to establish international cooperation against illicit trade Governing Guns Preventing Plunder offers a novel thought provoking answer to this crucial question Conventional wisdom holds that criminal groups are the biggest obstacle to efforts to suppress illicit trade Contrarily Asif Efrat explains how legitimate actors such as museums that acquire looted antiquities seek to hinder these regulatory efforts Yet such attempts to evade regulation fuel international political conflicts between governments demanding action against illicit trade and others that are reluctant to cooperate The book offers a framework for understanding the domestic origins of these conflicts and how the distribution of power shapes their outcome Through this framework Efrat explains why the interests of governments vary across countries trades and time In a fascinating empirical analysis he solves a variety of puzzles Why is the international regulation of small arms much weaker than international drug control What led the United States and Britain to oppose the efforts against the plunder of antiquities and why did they ultimately join these efforts How did American pressure motivate Israel to tackle sex trafficking Efrat s findings will change the way we think about illicit trade offering valuable insights to scholars activists and policymakers

Rogues and Scholars James Stourton, 2025-02-04 A colorful and fast moving account of how postwar London became the global center of the art market a story of Impressionist masterpieces dodgy dealers and ground breaking financial transactions On October 15 1958 Sotheby's of Bond Street staged an event sale of seven Impressionist paintings belonging to Erwin Goldschmidt three Manets two Cezannes one Van Gogh and a Renoir Kirk Douglas Anthony Quinn and Somerset Maugham were there as celebrity guests The seven lots went for 781 000 at the time the highest price for a single sale The event established London as the world center of the art market and Sotheby's as an international auction house It began a shift in power from the dealers to the auctioneers and paved the way for Impressionist paintings to dominate the market for the next forty years Sotheby's had pulled off a massive coup by capturing the Impressionist market from Paris and New York and now began its inexorable rise opening offices all over the world A huge expansion of the market followed accompanied by rocketing prices colorful scandals and legal dramas London transformed itself from a fusty place of old master painting sales to a revitalized center of contemporary art crowned by the opening of Tate Modern in 2000 The Tate Modern successfully united new and mostly foreign money in London with the art world offering its patrons a ready made sophisticated social milieu alongside dealers in contemporary art In a vibrant and

briskly paced style James Stourton tells the story of the London art market from the immediate postwar period to the turn of the millennium While Sotheby's is the lynchpin of this story Stourton populates his narrative with a glorious rogue's gallery of eccentric scholars clever amateurs brilliant emigrants and stylish grandees with a flair for the deal Illicit Antiquities Neil Brodie, Kathryn Walker Tubb, 2003-08-27 The exploitation of archaeological sites for commercial gain is a serious problem worldwide In peace and during wartime archaeological sites and cultural institutions both on land and underwater are attacked and their contents robbed for sale on an international antiquities market Objects are excavated without record smuggled across borders and sold for exorbitant prices in the salesrooms of Europe and North America In some countries this looting has now reached such a scale as to threaten the very survival of their archaeological and cultural heritage This volume highlights the deleterious effects of the trade on cultural heritage but in particular it focuses upon questions of legal and local responses How can people become involved in the preservation of their past and what in economic terms are the costs and benefits Are international conventions or export restrictions effective in diminishing the volume of the trade and the scale of its associated destruction **A Companion to the Etruscans** Sinclair Bell, Alexandra A. Carpino, 2016-02-23 This new collection presents a rich selection of innovative scholarship on the Etruscans a vibrant independent people whose distinct civilization flourished in central Italy for most of the first millennium BCE and whose artistic social and cultural traditions helped shape the ancient Mediterranean European and Classical worlds Includes contributions from an international cast of both established and emerging scholars Offers fresh perspectives on Etruscan art and culture including analysis of the most up to date research and archaeological discoveries Reassesses and evaluates traditional topics like architecture wall painting ceramics and sculpture as well as new ones such as textile archaeology while also addressing themes that have yet to be thoroughly investigated in the scholarship such as the *obesus etruscus* the function and use of jewelry at different life stages Greek and Roman topoi about the Etruscans the Etruscans reception of ponderation and more Counters the claim that the Etruscans were culturally inferior to the Greeks and Romans by emphasizing fields where the Etruscans were either technological or artistic pioneers and by reframing similarities in style and iconography as examples of Etruscan agency and reception rather than as a deficit of local creativity The Hidden Hand of Underwater Cultural Heritage Elena Perez-Alvaro, 2024-12-23 This book acts as a cautionary tale urging society to proactively invest in forging a path towards the future by drawing upon the insights gleaned from the past Underwater cultural heritage is not merely a collection of broken ruins on the ocean floor it holds the potential to provide strategic intelligence into global security challenges and future uncertainties By understanding and valuing the unknown force of underwater cultural heritage we can anticipate and navigate potential future challenges harnessing its hidden power to shape the course of history *Heritage Studies* Marie Louise Stig Sørensen, John Carman, 2009-09-18 This is the first volume specifically dedicated to the consolidation and clarification of Heritage Studies as a distinct field with its own means of investigation It presents the range

of methods that can be used and illustrates their application through case studies from different parts of the world including the UK and USA The challenge that the collection makes explicit is that Heritage Studies must develop a stronger recognition of the scope and nature of its data and a concise yet explorative understanding of its analytical methods The methods considered fall within three broad categories textual discourse analysis methods for investigating people s attitudes and behaviour and methods for exploring the material qualities of heritage The methods discussed and illustrated range from techniques such as text analysis interviews participant observation to semiotic analysis of heritage sites and the use of GIS Each paper discusses the ways in which methods used in social analysis generally are explored and adapted to the specific demands that arise when applied to the investigation of heritage in its many forms Heritage Studies is a seminal volume that will help to define the field The global perspective and the shared focus upon the development of reflexive methodologies ensure that the volume explores these central issues in a manner that is simultaneously case specific and of general relevance
