technique that allows anyone regardless of size to quickly immobilize an attacker by striking at the vulnerable spots on the body

**Master's Death Touch** Hei Long, 1990-01-01 Master's Death Touch gets down to the devastating fundamentals of the deadlier side of self defense Master Hei Long describes the primary targets of an opponent's body and points out how to recognize various physical characteristics that would limit the lethal effectiveness of certain techniques He then outlines the merciless use of the hands feet elbows and knees to overcome any assailant bent on doing mortal harm

**The Seven Strategies of Hand to Hand Combat** Ernest Emerson, 2015-04-08 This is not a book about techniques Black Belt Hall of Famer and Tier One tactical instructor Ernest Emerson opens the doors to the previously hidden Strategies Tactics and Mentality of the world's deadliest warriors giving you the tools to upgrade your training in any system into a truly effective program of combat ready skills Emerson's genius is in being able to break down human conflict combat into its most basic component parts and then explain them in terms that make perfect sense Then in turn he gives you the ability to train and supercharge those components individually so that when they are reassembled the result is an Abrams tank powered by jet engines But if you're looking for a book on how to block a punch you won't find it here This is about giving you the means to create a supercharged capability to take what you already know to the elite level ready for actual combat The difference between tier one operators and the rest of us is not that they know more techniques or possess secret skills They know the same things as we do They just know how to do them much better Emerson takes you into his classroom to teach you the real secrets the forbidden knowledge of the warrior elite America's Special Operations and Black Ops Units The problem with training for real world hand to hand combat skills is that almost all martial arts are over 200 years removed from actual combat and have been softened up or sporterized to be palatable to the general public The difference between conventional training and combatives training is defined by two simple words intent and intensity Each needs the other to be maximally effective and conventional martial arts lack both Without truly knowing if something will actually work in live combat how can an instructor teach combat skills to someone whose life may depend on those skills If you are ever in a situation where you're face to face with pure evil and you're not both physically and mentally prepared for violent deadly combat then that is the day you will likely die The author shows that you must be able to bring violence of action against the bad guy to such a degree that it doesn't just counter his attack but destroys him for attempting to do you harm You will learn how to evaluate your current training against the criteria of the perfect technique to judge everything you do as to whether it will work in real combat or not and avoid wasting your valuable time doing things that are of no value Learning and applying principles and concepts outlined in this book will give you the confidence you need to never again wonder Will this really work or Can I do this You will learn that the true mastery of fighting skills is not just based on confidence in the techniques but ultimately in the confidence you have in yourself Some of the subjects covered in detail include 1 The principles strategies and tactics of combat 2 The physical physiological and psychological effects of combat on the human body and how to use them to your

advantage3 The 3 Laws of Combat and the 6 Instinctual Triggers4 The high art of preemptive self defense5 The importance of being able to distinguish between capability and capacity Combative fighting skills is not a martial art It is hard intense painful training along with the development of the Warrior Mindset Without that mindset and the iron will to win you are only using half of your power The other half is in the mind You will learn how important it is to never neglect one for the other Ernest Emerson has worked with members of the Naval Special Warfare Community Navy SEALs for over 25 years He carried a DOD top secret clearance for 15 years He is the owner of Emerson Knives Inc and the Black Shamrock Combat Academy in Los Angeles California     □□ □□□ □□□ Dennis Kim,2012-07-30 Self defense techniques taught in martial arts gyms are so complex and difficult that ordinary people cannot use them as freely as they want in a real fighting situation So I introduced easy and powerful self defense techniques in this book Due to the danger that they might cause serious injuries or even death if used wrongly these techniques are not taught at martial arts gyms And Modern martial arts prohibit the usage of these techniques as they call them foul plays In dealing with violent crime sports martial arts have its limits In my point of view we need to use all the defense techniques including what modern sports martial arts call foul play in order to protect our self respect and our family from violence I m sure this book will be very helpful when you are in danger    **Advanced Dragonâ€™s Touch** Hei Long,1995-11-01 In this long awaited sequel to the best selling Dragon s Touch Master Hei Long focuses on 20 pressure points that are crippling or even lethal when used as counterstrikes in hard core hand to hand combat Provides more than 50 practical applications For academic study only    *Quick and Dirty Fighting* Airek Windslayer,2007-12-18 Quick and Dirty Fighting contains clear concise instructions on how to improvise weapons and how to use them Most of these weapons can be improvised within seconds In certain situations you will not have a long time to make a weapon to defend yourself more often you will just have to rely on what you can pick up and use immediately This book will show you how and where to strike to use your weapon effectively Some of the descriptions are very graphic this is because these methods are real All these methods have been used in real life situations and the results are not sugar coated

Anderson,2014-01-24 Trankada The joint Locking Techniques it details the last major development made by Grand Master Remy Pressas prior to his passing the Tapi Tapi This book covers such topics as empty hand joint locking joint locking with the cane joint locking your opponent with your legs pinning your opponent Small Circle Jiu Jitsu exercises defenses against striking and grabbing attacks the template of the Tapi Tapi techniques and their counters as well **Nine Cutting Hands of the Shadow Warrior** Randall Walker,Michael Martin Scott,2012-02-07 This book is a basic How To manual with a handle it yourself and beat the system slant It challenges the status quo of accepted self defense methods with their illusion of safety and security in this country It then provides a solution by introducing and revealing its largely unknown and secretive American combat system called Shadow Warrior Ninjutsu Shadow Warrior Ninjutsu is a complete combat oriented martial arts system based largely on the philosophy teaching methods skills tactics and techniques of the secret Ninja system This manual empowers the reader with the skills necessary to fight and defeat multiple opponents using hand to hand techniques weapons stealth and camouflage We live in a time when people are looking for some definable sense of security for themselves and their family at work as well as at home This system offers a new format with minimal training for the reader to succeed in that effort This secretive combat oriented martial arts system has been several decades in its creation by the author He has developed refined and used it himself with live in the field testing to verify each and every technique He perfected taught and lived these maneuvers in some of the most inhospitable places on earth Only a handful of people have ever had the privilege of seeing this art in practice This work includes written instructions as well as illustrated diagrams It can be worked alone as well as in groups of any size It s conducive to the old and the young By those already strong and physically able to those not so strong well trained or physically able The techniques taught here can be done by individuals of any physical size This system will provide the knowledge and ability to effectively defeat individual as well as multiple attackers when learned practiced and applied properly to attackers who may be much larger and stronger This manual challenges many previously held beliefs regarding standard martial arts It proves itself a better and more effective focused method to confront any situation you may find yourself in It is both offensive and defensive No other system is more complete

**Ninja Fighting Techniques** Stephen K. Hayes,2020-03-24 Ninja Fighting Techniques explains how to defend yourself against real world threats using techniques perfected centuries ago by the great Ninja masters Author Stephen K Hayes is the world s leading expert on Ninjutsu techniques In this book he presents the Ninja Five Elements system to explain fundamental aspects of self defense According to Japanese Buddhist belief human nature is connected to the natural world

and the five elements By understanding that connection essential responses to any threat become clear Earth Remain grounded in your thinking and footing to repel attempts to distract or deceive you Water Shift angle and move fluidly to confuse attackers and put them off balance Fire See where a situation is going as it develops and intercept it at the critical moment Wind Stay light on your feet and move nimbly to evade attempts to pin you down Void Control a fight's direction by changing dynamics to confuse your attacker Ninja Fighting Techniques explains how the five elements can become automatic unconscious responses for fighters who train the Ninja way Through study and practice they become instinctive effectively employed precisely when you need them without thinking The advantage of Ninja teachings over other martial disciplines is that in addition to providing physical combat methods they teach you to develop a better understanding of human behavior and psychology as well as real time awareness of your surroundings invaluable in any combat and street fighting situation With over 300 full color photographs and detailed step by step instructions this book shows you how the ancient self defense techniques developed by the Ninja are still unsurpassed today

*36 Deadly Bubishi Points* Rand Cardwell, 2019-03-26 Learn how to target the weaknesses of an attacker and effectively exploit them in order to defend yourself The 36 Deadly Bubishi Points explains the pressure point techniques found in the Bubishi the ancient Bible of Karate and how recognizing them allows you to defend yourself against such attacks This book closely examines these vital points and the science behind them and the author fills a gap in general understanding of how the 36 vital points found in the Bubishi can be targeted using pressure point fighting techniques While much has been written about the vital points and their medicinal importance thanks to the popularity of practices such as acupuncture martial research on the subject has been lacking Cardwell discusses the vital points from the perspective of an experienced martial artist including how the body's vital points are related to the 8 extraordinary vessels and 12 meridians which circulate energy throughout the body Through detailed step by step instructions and over 96 photographs and illustrations The 36 Deadly Bubishi Points shows how this knowledge can be employed in self defense
