Soul Make a Path Through Shouting Cyrus Cassells, 1994 Drawing from Greek mythology children's rhymes and African American oral traditions the author of *Mud Actor* brings his poetry inward searching the voices of Guernica Auschwitz and Terezin to find evidence of probity and persistence

*The Civil Rights Reader* Julie Buckner Armstrong, Amy Schmidt, 2009-01-01 This anthology of drama essays fiction and poetry presents a thoughtful classroom tested selection of the best literature for learning about the long civil rights movement Unique in its focus on creative writing the volume also ranges beyond a familiar 1954-68 chronology to include works from the 1890s to the present The civil rights movement was a complex ongoing process of defining national values such as freedom justice and equality In ways that historical documents cannot these collected writings show how Americans negotiated this process politically philosophically emotionally spiritually and creatively Gathered here are works by some of the most influential writers to engage issues of race and social justice in America including James Baldwin Flannery O'Connor Amiri Baraka and Nikki Giovanni The volume begins with works from the post Reconstruction period when racial segregation became legally sanctioned and institutionalized This section titled The Rise of Jim Crow spans the period from Frances E. W. Harper's *Iola Leroy* to Ralph Ellison's *Invisible Man* In the second section The Fall of Jim Crow Martin Luther King Jr.'s Letter from Birmingham Jail and a chapter from *The Autobiography of Malcolm X* appear alongside poems by Robert Hayden June Jordan and others who responded to these key figures and to the events of the time Reflections and Continuing Struggles the last section includes works by such current authors as Rita Dove Anthony Grooms and Patricia J. Williams These diverse perspectives on the struggle for civil rights can promote the kinds of conversations that we as a nation still need to initiate

**Black Nature** Camille T. Dungy, 2009 *Black Nature* is the first anthology to focus on nature writing by African American poets a genre that until now has not commonly been counted as one in which African American poets have participated Black poets have a long tradition of incorporating treatments of the natural world into their work but it is often read as political historical or protest poetry anything but nature poetry This is particularly true when the definition of what constitutes nature writing is limited to work about the pastoral or the wild Camille T. Dungy has selected 180 poems from 93 poets that provide unique perspectives on American social and literary history to broaden our concept of nature poetry and African American poetics This collection features major writers such as Phillis Wheatley Rita Dove Yusef Komunyakaa Gwendolyn Brooks Sterling Brown Robert Hayden Wanda Coleman Natasha Trethewey and Melvin B. Tolson as well as newer talents such as Douglas Kearney Major Jackson and Janice Harrington Included are poets writing out of slavery Reconstruction the Harlem Renaissance the Black Arts Movement and late twentieth and early twenty-first century African American poetic movements *Black Nature* brings to the fore a neglected and vital means of considering poetry by African Americans and nature-related poetry as a whole A Friends Fund Publication

Carbado,Donald Weise,2011-10-01 Chronicles one hundred years of African American homosexual literature from the turn of the century writings of Alice Dunbar Nelson to the Harlem Renaissance of Langston Hughes to the emerging sexual liberation movements of the later postwar era as reflected by James Baldwin Original     AIDS Narratives Steven F. Kruger,2013-10-28 This is the first book length study of the rich fiction that has emerged from the AIDS crisis Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality such as the construction of AIDS as a disease of gay men part of a battle over masculinity and thus largely excluding women with AIDS from public attention the book considers how such discourses have shaped narrative understandings of AIDS On the one hand AIDS is seen as an invariably fatal weakening of an individual s bodily defenses a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness On the other hand AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness The fiction of

AIDS depends upon these two narratives with one major subgenre of AIDS novel presenting narratives of personal illness decline and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it **A**

Despite their apparent separation law and literature have been closely linked fields throughout history Linguistic creativity is central to the law with literary modes such as narrative and metaphor infiltrating legal texts Equally legal norms of good and bad conduct of identity and human responsibility are reflected or subverted in literature s engagement with questions of law and justice Law seeks to regulate creative expression while literary texts critique and sometimes openly resist the law Kieran Dolin introduces this interdisciplinary field focusing on the many ways that law and literature have addressed and engaged with each other He charts the history of the shifting relations between the two disciplines from the open affiliation between literature and law in the sixteenth century Inns of Court to the less visible links of contemporary culture Originally published in 2007 this book provides an accessible guide to one of the most exciting areas of interdisciplinary scholarship

Recinos,2021-02-23 Wading in the River offers a poetic voice about the wonders of the world in the context of daily struggles with marginality and discloses the agency of cultural actors in them The collection s poems tell a story of longing and loss injustice and resilience terror and beauty anguish and hope for society Wading in the River offers readers the subject matter that enjoins personal experience to public life and puts a human face on abstractions like justice poverty racism anti immigrant sentiment police brutality politics and religion In these poems words seek to cut through the complexity of perception to expansively loosen a new way to find visionary clarity and to think passionately about dark spaces in social reality      **The Lever of Riches** Joel Mokyr,1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation s creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential
