Diversity in Black Greek Letter Organizations Wendy Marie Laybourn, Devon R. Goss, 2018-04-17 Starting in the early twentieth century and still thriving in the contemporary era Black Greek letter organizations BGLOs provide social support networking opportunities and service for the Black community Although BGLOs

have always been majority Black organizations there are small numbers of non Black individuals who choose to pledge their membership Diversity in Black Greek Letter Organizations Breaking the Line explores the experiences of these non Black members who have immersed themselves in organizations rich with Black history and culture Through in depth interviews with thirty four such members Wendy Marie Laybourn and Devon R Goss reveal how and why these individuals come to identify with organizations designed for the uplift of races other than their own For non Black BGLO members the association with a Black organization provides them the opportunity to consider the meaning of racial inequality and their own racial identities Although many non Black BGLO members recount challenges to their membership the participants in Diversity in Black Greek Letter Organizations ultimately find a sense of belonging with their Black brothers and sisters which Laybourn and Goss argue can provide an example of the challenges and promises of cross racial interactions as a whole **More**

While much has been made of these groups glamorous origins and influence such as the Freemasons genesis in King Solomon s temple or the belief in the Illuminati s control of modern geo politics few have explicitly examined the role of race and ethnicity in organizing and perpetuating these cloistered orders This volume directly addresses the inattention paid to the salience of race in secret societies Through an examination of the Historically Black and White Fraternities and Sororities the Ku Klux Klan in the US the Ekpe and Abakuj secret societies of Africa and the West Indies Gypsies in the United Kingdom Black and White Temperance Lodges and African American Order of the Elks this book traces the use of racial and ethnic identity in these organizations This important contribution examines how such orders are both cause and consequence of colonization segregation and subjugation as well as their varied roles as both catalysts and impediments to developing personal excellence creating fictive kinship ties and fostering racial uplift nationalism and cohesion This book was originally published as a special issue of Ethnic and Racial Studies *Elementary Physical Education* Rovegno,Dianna

Bandhauer,2016-02-15 Includes an access code for online materials **The SAGE Encyclopedia of African Cultural Heritage in North America** Mwalimu J. Shujaa,Kenya J. Shujaa,2015-07-13 The Encyclopedia of African Cultural Heritage in North America provides an accessible ready reference on the retention and continuity of African culture within the United States Our conceptual framework holds first that culture is a form of self knowledge and knowledge about self in the world as transmitted from one person to another Second that African people continuously create their own cultural history as they move through time and space Third that African descended people living outside of Africa are also contributors to and participants in the creation of African cultural history Entries focus on illuminating Africanisms cultural retentions traceable to an African origin and cultural continuities ongoing practices and processes through which African culture continues to be created and formed Thus the focus is more culturally specific and less concerned with the broader transatlantic demographic political and geographic issues that are the focus of similar recent reference works We also focus less on biographies of individuals and political and economic ties and more on processes and manifestations of African cultural heritage and continuity FEATURES A two volume A to Z work available in a choice of print or electronic formats 350 signed entries each concluding with Cross references and Further Readings 150 figures and photos Front matter consisting of an Introduction and a Reader s Guide organizing entries thematically to more easily guide users to related entries Signed articles concluding with cross references *Black Sisterhoods: Paradigms and Praxis* Denise Davis Maye,Sophia Rahming,Jill Andrews,Tamara Bertrand J,2022-03-18 Sisterhood is oft elusive if not a misunderstood concept Despite all the factors that could impede the development elevation and maintenance of sistering relationships Black women continue to acknowledge the value of sisterhoods Sistering offers a lifeline of support and validation Holding membership in an empowering woman centered relationship is a special kind of privilege The authors in this volume contest any assumption that sisterhood is limited to blood relationships and physical proximity In this volume we consider sisterhood simultaneously as paradigm and praxis We

approach Sisterhood as Paradigm and attempt to parse out the nature of Sisterhood as it is understood in Black communities in the United States We hope to convey an organized set of ideas about sisterhood to create sisterhood as a model of interaction or way of being with one another specifically among Black women As we consider how sisterhood could be enacted as practice Using Sisterhood as a framework we explore Sisterhood as Peer Support examining how Black women provide support to peers in academic and professional settings we embark on a provision of applied exemplars of sistering in emerging digital media in Digital Sisterhood

Confronting Racism in Higher Education Jeffrey S. Brooks, Noelle Witherspoon-Arnold, 2013-03-01 Racism and ignorance churn on college campuses as surely as they do in society at large Over the past fifteen years there have been many discussions regarding racism and higher education Some of these focus on formal policies and dynamics such as Affirmative Action or The Dream Act while many more discussions are happening in classrooms dorm rooms and in campus communities Of course corollary to these conversations some of which are generative and some of which are degenerative is a deafening silence around how individuals and institutions can actually understand engage and change issues related to racism in higher education This lack of dialogue and action speaks volumes about individuals and organizations and suggests a complicit acceptance tolerance or even support for institutional and individual racism There is much work to be done if we are to improve the situation around race and race relation in institutions of higher education There is still much work to be done in unpacking and addressing the educational realities of those who are economically socially and politically underserved and oppressed by implicit and overt racism These realities manifest in ways such as lack of access to and within higher education in equitable outcomes and in a disparity of the quality of education as a student matriculates through the system While there are occasional diversity and inclusion efforts made in higher education institutions still largely address them as quotas and not as paradigmatic changes This focus on counting toward equity rather than creating a culture of equity is basically a form of white privilege that allows administrators and policymakers to show incremental progress and avoid more substantive action toward real equity that changes the culture s of institutions with longstanding racial histories that marginalize some and privilege others Issues in higher education are still raced from white perspectives and suffer from a view that race and racism occur in a vacuum Some literature suggests that racism begins very early in the student experience and continues all the way to college Berlak Moyenda This mis education mislabeling and mistreatment based on race often develops as early as five to ten years old and follows them to postgraduate education and beyond

Black Greek-Letter Organizations
