The Enigma Of Anna O A Biography Of Bertha Pappenheim:

The Enigma of Anna O. Melinda Given Guttmann, Bertha Pappenheim, 2001 Bertha Pappenheim became a legend twice first in Vienna under the pseudonym Anna O when she cured herself of hysterical symptoms by telling fairy tales which she termed the talking cure upon which Sigmund Freud based his theory of psychoanalysis and then in Germany as the founder of the first Jewish feminist movement **Let Me Continue to Speak the Truth** Elizabeth Loentz, 2007 In her first five chapters Loentz examines how Pappenheim engaged in words and deeds with the key political social and cultural issues concerning German Jewry in the early decades of the twentieth century the status of the Yiddish language Zionism the conversion epidemic responses to the plight of Eastern European Jews and Jewish spirituality Loentz shows how in Pappenheim's unique approach to each of these issues she balanced allegiances to feminism the Jewish religion and German culture **BOOK JACKET** *The Oxford Encyclopedia of Women in World History* Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune women's and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike *The Secret Mind of Bertha Pappenheim* Gabriel Brownstein, 2024-04-16 The story of a patient who changed the world and the mystery of her illness In 1880 young Bertha Pappenheim got strangely ill she lost her ability to control her voice and her body She was treated by Sigmund Freud's mentor Josef Breuer who diagnosed her with hysteria Together Pappenheim and Breuer developed what she called the talking cure talking out memories to eliminate symptoms Freud renamed her Anna O and appropriated her ideas to form the theory of psychoanalysis All his life he told lies about her For over a century writers have argued about her illness and cure In this unusual work of science history and psychology Brownstein does more than

describe the controversies surrounding this extraordinary woman He brings Pappenheim to life a brilliant feminist thinker a crusader against human trafficking and a pioneer in the hustling and heady world of nineteenth century Vienna At the same time he tells a parallel story that is playing out in leading medical centers today about patients who suffer symptoms very much like Pappenheim s and about the doctors who are trying to cure them the story of the neuroscience of a condition now called FND The Secret Mind of Bertha Pappenheim argues for the healing art of listening and describes the new talking cures emerging out of neuroscience today

The Unknown History of Jewish Women Through the Ages Rachel Elior,2023-05-22 The Unknown History of Jewish Women On Learning and Illiteracy On Slavery and Liberty is a comprehensive study on the history of Jewish women which discusses their absence from the Jewish Hebrew library of the People of the Book and interprets their social condition in relation to their imposed ignorance and exclusion from public literacy The book begins with a chapter on communal education for Jewish boys which was compulsory and free of charge for the first ten years in all traditional Jewish communities The discussion continues with the striking absence of any communal Jewish education for girls until the late nineteenth and early twentieth century and the implications of this fact for twentieth century immigration to Israel 1949 1959 The following chapters discuss the social cultural and legal contexts of this reality of female illiteracy in the Jewish community a community that placed a supreme value on male education The discussion focuses on the patriarchal order and the postulations rules norms sanctions and mythologies that in antiquity and the Middle Ages laid the religious foundations of this discriminatory reality

Nothing Happened Darcy Buerkle,2013-12-13 Charlotte Salomon s 1917 43 fantastical autobiography Life or Theater consists of 769 sequenced gouache paintings through which the artist imagined the circumstances of the eight suicides in her family all but one of them women But Salomon s focus on suicide was not merely a familial idiosyncrasy Nothing Happened argues that the social history of early twentieth century Germany has elided an important cultural and social phenomenon by not including the story of German Jewish women and suicide This absence in social history mirrors an even larger gap in the intellectual history of deeply gendered suicide studies that have reproduced the notion of women s suicide as a rarity in history Nothing Happened is a historiographic intervention that operates in conversation and in tension with contemporary theory about trauma and the reconstruction of emotion in history

Bodies and Souls Isabel Vincent, 2011-03-04 Isabel Vincent's groundbreaking exploration brings to light a dark chapter in our recent history the white slave trade and the international Jewish mobsters behind it From the end of the 1860s until the beginning of the Second World War thousands of young impoverished Jewish women most of them from the hard scrabble shtetls of Eastern Europe were sold into slavery by a

notorious gang of mobsters called the Zwi Migdal While the enterprise controlled brothels in various locales its main centres of operation were Rio de Janeiro Buenos Aires and to a lesser extent New York City To recruit vulnerable country girls pimps would target villages of desperate poverty where they posed as respectable suitors of considerable means who had made their money abroad They would arrange sham marriages to their victims and promise them an easy life in the New World But once they d crossed the ocean these Jewish women found themselves caught up in the white slave trade Under frequently brutal conditions the young women had to service the needs of a booming population of immigrant men An added hardship to endure was being vehemently shunned by the respectable Jewish community Banned from synagogue and reviled by their neighbors the women were forbidden from partaking in the sacred Jewish burial ritual So prostitutes banded together to form the Society of Truth with the promise to do all could they could to help each other be buried in dignity Through the society the women observed religious life together setting up private synagogues and kosher kitchens Cast aside by their community they created their own a society of love honour to God and faith in each other With the determination and skill of her training as an investigative journalist Isabel Vincent tells an unforgettable and gripping tale of a shameful chapter in recent history [Germans into Jews](#) Sharon Gillerman,2009-07-28 Germans into Jews turns to an often overlooked and misunderstood period of German and Jewish history the years between the world wars It has been assumed that the Jewish community in Germany was in decline during the Weimar Republic But Sharon Gillerman demonstrates that Weimar Jews sought to rejuvenate and reconfigure their community as a means both of strengthening the German nation and of creating a more expansive and autonomous Jewish entity within the German state These ambitious projects to increase fertility expand welfare and strengthen the family transcended the ideological and religious divisions that have traditionally characterized Jewish communal life Integrating Jewish history German history gender history and social history this book highlights the experimental and contingent nature of efforts by Weimar Jews to reassert a new Jewish particularism while simultaneously reinforcing their commitment to Germanness **Rethinking Autism with Dolto** Kathleen Saint-Onge,2024-03-04

Rethinking Autism with Dolto takes up a principal legacy of Fran oise Dolto s immense project her conviction that autism is a regression to the archaic Dolto theorizes that the infant in utero deep in dreams is receptive to the audition of phonemes during the pre conscious archaic stage of psychosexual maturation That dream work on words an idiosyncratic prehistory at the onset of mental and emotional life secures the unconscious circulation of affect and the ontogeny of thought long prior to speech seeding associative thinking and facilitating self regulation Kathleen Saint Onge uses the written work of four nonverbal autistic authors in seeking corroboration for Dolto s formulations finding thoughtful self reflections that relate the experience of living in silence with relentless anxiety while relying on regression as a defence Dolto s unprecedented insights into the infant s earliest learning carry formidable implications for autism interventions and for primary language and literacy At issue is an enduring susceptibility to archaic echoes the haphazard securing return of pre invested phonemes in

communicative exchanges including reading and writing Rethinking Autism with Dolto considers unconscious processes as inherently reparative heralding the responsibility education holds for human health and supports a rethinking of autism that presumes competence Readers are invited to new conversations in psychoanalysis child development education and linguistics through an exploration of the unconscious concomitants of first language acquisition
