The Light of the World Joseph ibn Nahmias, 2016-03-01 This book contains an edition with an extensive introduction translation and commentary of *The Light of the World* a text on theoretical astronomy by Joseph Ibn Nahmias composed in Judeo Arabic around 1400 C E in the Iberian Peninsula As the only text on theoretical astronomy written by a Jew in any variety of Arabic this work is evidence for a continuing relationship between Jewish and Islamic thought in the late fourteenth and early fifteenth centuries The text s most lasting effect may have been exerted via its passage to Renaissance Italy where it influenced scholars at the University of Padua in the early sixteenth century With its crucial role in the development of European astronomy as well as the physical sciences under Islam and in Jewish culture *The Light of the World* is an important episode in Islamic intellectual history Jewish civilization and the history of astronomy **From Alexandria, Through Baghdad** Nathan Sidoli, Glen Van Brummelen, 2013-10-30 This book honors the career of historian of mathematics J L Berggren his scholarship and service to the broader community The first part of value to scholars graduate students and interested readers is a survey of scholarship in the mathematical sciences in ancient Greece and medieval Islam

It consists of six articles three by Berggren himself covering research from the middle of the 20th century to the present The remainder of the book contains studies by eminent scholars of the ancient and medieval mathematical sciences They serve both as examples of the breadth of current approaches and topics and as tributes to Berggren's interests by his friends and colleagues *Routledge Handbook of Academic Knowledge Circulation* Wiebke Keim, Leandro Rodriguez Medina, Rigas Arvanitis, Natacha Bacolla, Chandni Basu, Stéphane Dufoix, Stefan Klein, Mauricio Nieto Olarte, Barbara Riedel, Clara Ruvituso, Gernot Saalman, Tobias Schlechtriemen, Hebe Vessuri, 2023-06-30 Knowledge is a result of never ending processes of circulation This accessible volume is the first comprehensive multidisciplinary work to explore these processes through the perspective of scholars working outside of Anglo American paradigms Through a variety of literature reviews examples of recent research and in depth case studies the chapters demonstrate that the analysis of knowledge circulation requires a series of ontological and epistemic commitments that impact its conceptualisation and methodologies Bringing diverse viewpoints from across the globe and from a range of disciplines including anthropology economics history political science sociology and Science ii spaces and actors of circulation iii academic media and knowledge circulation iv the political economy of academic knowledge circulation v the geographies geopolitics and historical legacies of the global circulation of academic knowledge vi the relationships between academic and extra academic knowledges and vii methodological approaches to studying the circulation of academic knowledge This handbook will be essential reading for academics researchers and postgraduate researchers in the humanities and social sciences interested in the circulation of knowledge

Studies in the History of the Exact Sciences in Honour of David Pingree Jan P. Hogendijk, Kim Plofker, Michio Yano, Charles Burnett, 2004-02-01 This collection of essays reflects the wide range of David Pingree's expertise in the scientific texts above all concerning astronomy and astrology of Ancient Mesopotamia Greece India Persia and the medieval Arabic Hebrew and Latin traditions Both theoretical aspects and the practical applications of the exact sciences in time keeping prediction of the future and the operation of magic are dealt with The book includes several critical editions and translations of hitherto unknown or understudied texts and a particular emphasis is on the diffusion of scientific learning from one culture to another and through time Above all the essays show the variety and sophistication of the exact sciences in non Western societies in pre modern times *The Arts of Ornamental Geometry*, 2017-08-28 This collective study focuses on a unique anonymous medieval document on ornamental geometry featuring geometrical constructions and textual instructions in Persian Selections from the unpublished work of Alpay zdural d 2003 on this subject have been updated with original contributions by Jan P Hogendijk Elaheh Kheirandish G lru Necipo lu and Wheeler M Thackston The chapters interpreting this fascinating document are followed for the first time by a facsimile transcription and translation as well as drawings of incised construction lines invisible in the photographed facsimile This publication intersects with the current interest in Islamic geometrical patterning as an inspiration for tessellation and parametrically derived forms in contemporary

architecture and the arts It aims to make this celebrated source more accessible given its multifaceted relevance to historians of art architecture and science as well as mathematicians physicists artists and architects For those who wish to obtain a copy of the full unedited original book manuscript of Alpay zdural where he discusses the mathematical properties of all geometrical constructions in the Anonymous Compendium as well as the step by step method for drawing each one his work is available online at <https://doi.org/10.6084/m9.figshare.5255416> *Galen, De diebus decretoriis, from Greek into Arabic* Glen M. Cooper,2017-03-02 This volume presents the first edition of the Arabic translation by Hunayn ibn Ishaq of Galen s Critical Days De diebus decretoriis together with the first translation of the text into a modern language The substantial introduction contextualizes the treatise within the Greek and Arabic traditions Galen s Critical Days was a founding text of astrological medicine In febrile illnesses the critical days are the days on which an especially severe pattern of symptoms a crisis was likely to occur The crisis was thought to expel the disease producing substances from the body If its precise timing were known the physician could prepare the patient so that the crisis would be most beneficial After identifying the critical days based on empirical data and showing how to use them in therapy Galen explains the critical days via the moon s influence In the historical introduction Glen Cooper discusses the translation of the Critical Days in Arabic and adumbrates its possible significance in the intellectual debates and political rivalries among the 9th century Baghdad elite It is argued that Galen originally composed the Critical Days both to confound the Skeptics of his own day and to refute a purely mathematical rationalist approach to science These features made the text useful in the rivalries between Baghdad scholars Al Kindi d c 866 famously propounded a mathematical approach to science akin to the latter The scholar bureaucrat responsible for funding this translation Muhammad ibn Musa d 873 al Kindi s nemesis may have found the treatise useful in refuting that approach The commentary and notes to the facing page translation address issues of translation as well as important concepts

The Art and Material Culture of Iranian Shi'ism Pedram Khosronejad,2011-11-30 Shi i Islam has been the official religion of Iran from the Safavids 1501 1732 to the present day The Shi i world experience has provided a rich artistic tradition encompassing painting sculpture and the production of artefacts and performance which has helped to embed Shi i identity in Iran as part of its national narrative In what areas of material culture has Iranian Shi ism manifested itself through objects or buildings that are unique within the overall culture of Islam To what extent is the art and architecture of Iran from the Safavid period onwards identifiably Shi i What does this say about the relationship of nation state and faith in Iran Here leading experts trace the material heritage of Iranian Shi ism within each of its political religious and cultural dimensions

Darwinian Evolution and Classical Liberalism Stephen C. Dilley,2013-05-02 Darwinian Evolution and Classical Liberalism canvasses an array of thinkers from the past to the present as it examines fundamental political philosophical ethical economic

anthropological and scientific aspects of the ferment between Darwinian biology and classical liberalism Early chapters focus on classical thinkers like John Locke and Adam Smith while later chapters provide analyses of present day classical liberals focusing especially on F A Hayek Thomas Sowell and Larry Arnhart the most prominent advocates of contemporary classical liberalism Thematically the volume falls into three parts Part I examines foundational matters arguing that Darwinism and classical liberalism hold incompatible visions of morality human nature and individual autonomy This section also contends that the free market s spontaneous order is fully compatible with a teleological or non Darwinian view of the universe Part II turns to contemporary applications contending that Darwinism and classical liberalism are at odds in their views of or implications about limited government vital religion economic freedom and the traditional family This section also argues that since its inception Darwinism has attenuated core tenets and values of classical liberalism and Western civilization Part III of the volume contains alternative views to those in the first two parts adding critical diversity to the book Respectively these chapters hold that Darwinian evolution simply has little to say about classical liberalism an evolutionary account of human volition is fully compatible with the individual choice presupposed in classical liberalism and evolutionary naturalism unlike religious alternatives provides a strong foundation for freedom morality and the traditional family **Light** Bruce Watson,2016-02-02 Light begins at Stonehenge where crowds cheer a solstice sunrise After sampling myths explaining First Light the story moves on to early philosophers queries then through the centuries from Buddhist temples to Biblical scripture when light was the soul of the divine Battling darkness and despair Gothic architects crafted radiant cathedrals while Dante dreamed a heaven of pure light Later following Leonardo s advice Renaissance artists learned to capture light on canvas During the Scientific Revolution Galileo gathered light in his telescope Descartes measured the rainbow and Newton used prisms to solidify the science of optics But even after Newton light was an enigma Particle or wave Did it flow through an invisible ether Through the age of Edison and into the age of lasers Light reveals how light sparked new wonders relativity quantum electrodynamics fiber optics and more Although lasers now perform everyday miracles light retains its eternal allure For the rest of my life Einstein said I will reflect on what light is Light explores and celebrates such curiosity

Merchants of Knowledge Robert G. Morrison,2025-04-22 Between 1450 and 1550 a remarkable century of intellectual exchange developed across the Eastern Mediterranean As Renaissance Europe depended on knowledge from the Ottoman Empire and the courts of Mehmed the Conqueror and Bayezid II greatly benefitted from knowledge coming out of Europe merchants of knowledge multilingual and transregional Jewish scholars became an important bridge among the powers With this book Robert Morrison is the first to track the network of scholars who mediated exchanges in astronomy astrology Qabbalah and philosophy Their books manuscripts and acts of translation all held economic value thus commercial and intellectual exchange commingled knowledge became transactional as these merchants exchanged texts for more intellectual material and social capital While parallels between medieval Islamic astronomy and the famous heliocentric arrangement

posited by Copernicus are already known Morrison reveals far deeper networks of intellectual exchange that extended well beyond theoretical astronomy and shows how religion science and philosophy areas that will eventually develop into separate fields were once interwoven The Renaissance portrayed in Merchants of Knowledge is not from the perspective of the Ottoman Muslim contacts of the Jewish merchants of knowledge hegemonic It s a Renaissance permeated by diversity the cultural and political implications of which the West is only now waking up to

Magic and Divination in Early Islam

Emilie Savage-Smith,2021-01-20 Magic and divination in early Islam encompassed a wide range of practices including belief in jinn warding off the evil eye the production of amulets and other magical equipment conjuring wonder working dream interpretation predicting the weather casting lots astrology and physiognomy The ten studies here are concerned with the pre Islamic antecedents of such practices and with the theory of magic in healing the nature and use of amulets and their decipherment the arts of astrometeorology and geomancy the refutation of astrology and the role of the astrologer in society Some of the studies are highly illustrated some long out of print some revised or composed for this volume and one translated into English for the first time These fundamental investigations together with the introductory bibliographic essay are intended as a guide to the concepts terminology and basic scholarly literature of an important but often overlooked aspect of classical Islamic culture

The Islamic Villa in Early Medieval Iberia

GlaireD. Anderson,2017-07-05 Exploring the aristocratic villas and court culture of C ba during its golden age under the reign of the Umayyad dynasty r 756 1031 AD this study illuminates a key facet of the secular architecture of the court and its relationship to the well known Umayyad luxury arts Based on textual and archaeological evidence it offers a detailed analysis of the estates architecture and gardens within a synthetic socio historical framework Author Glaire Anderson focuses closely on the C ban case study synthesizing the archaeological evidence for the villas that has been unearthed from the 1980s up to 2009 with extant works of Andalusí art and architecture as well as evidence from the Arabic texts While the author brings her expertise on medieval Islamic architecture art and urbanism to the topic the book contributes to wider art historical discourse as well it is also a synthetic project that incorporates material and insights from experts in other fields agricultural economic and social and political history In this way it offers a fuller picture of the topic and its relevance to Andalusí architecture and art and to broader issues of architecture and social history in the caliphal lands and the Mediterranean An important contribution of the book is that it illuminates the social history of the C ban villas drawing on the medieval Arabic texts to explain patterns of patronage among the court elite An overarching theme of the book is that the C ban estates fit within the larger historical constellation of Mediterranean villas and villa cultures in contrast to long standing art historical discourse that holds villas did not exist in the medieval period

Astronomical Knowledge Transmission Through Illustrated Aratea Manuscripts

Marion Dolan,2017-08-22 This carefully researched monograph is a historical investigation of the illustrated Aratea astronomical manuscript and its many interpretations over the centuries Aratus 270 B C E Greek poem describing the constellations and

astrological phenomena was translated and copied over 800 years into illuminated manuscripts that preserved and illustrated these ancient stories about the constellations The Aratea survives in its entirety due to multiple translations from Greek to Latin and even to Arabic with many illuminated versions being commissioned over the ages The survey encompasses four interrelated disciplines history of literature history of myth history of science and history of art Aratea manuscripts by their nature are a meeting place of these distinct branches and the culling of information from historical literature and from the manuscripts themselves focuses on a wider holistic view a narrow approach could not provide a proper perspective What is most essential to know about this work is that because of its successive incarnations it has survived and been reinterpreted through the centuries which speaks to its importance in all of these disciplines This book brings a better understanding of the history changes and transmission of the original astronomical Phaenomena poem Historians art historians astronomy lovers and historians of astronomy will learn more specialized details concerning the Aratea and how the tradition survived from the Middle Ages It is a credit to the poetry of Aratus and the later interpreters of the text that its pagan aspects were not edited nor removed but respected and maintained in the exact same form despite the fact that all sixty Aratea manuscripts mentioned in this study were produced under the rule of Christianity
