*The Entrepreneurial Society* David B. Audretsch, 2007-07-02 Previous generations enjoyed the security of lifelong employment with a sole employer Public policy and social institutions reinforced that security by producing a labor force content with mechanized repetition in manufacturing plants and creating loyalty to one employer for life This is no longer the case Globalization and new technologies have triggered a shift away from capital and towards knowledge In today's global economy where jobs and factories can be moved quickly to low cost locations the competitive advantage has shifted to ideas insights and innovation But it is not enough just to have new ideas It takes entrepreneurs to actualize them by championing them to society Entrepreneurship has emerged as the proactive response to globalization In this book award winning economist David B Audretsch identifies the positive proactive response to globalization the entrepreneurial society where change is the cutting edge and routine work is inevitably outsourced Under the managed economy of the cold war era government policies around the world supported big business while small business was deemed irrelevant and largely ignored The author documents the fundamental policy revolution underway shifting the focus to technology and knowledge based entrepreneurship where start ups and small business have emerged as the driving force of innovation jobs competitiveness and growth The role of the university has accordingly shifted from tangential to a highly valued seedbed for coveted new ideas with the potential to create not just breathtaking new ventures but also entire new industries By understanding the shift from the managed economy and the emergence of the entrepreneurial society individuals businesses and communities can learn how to proactively harness the opportunities afforded by globalization in this new entrepreneurial society

Exploring the Entrepreneurial Society Jean Bonnet, Marcus Dejardin, Domingo García-Pérez-de-Lema, 2017-07-28 Entrepreneurship is the engine of economic development which in turn impacts upon the challenges facing future entrepreneurs This timely book explores institutional behavioural and policy issues of primary importance to understanding the entrepreneurial society Topics covered include entrepreneurship in relation to formal and informal institutions entrepreneurial choice orientation and success entrepreneurial behaviours entrepreneurial finance growth and economic crises and entrepreneurship social dimensions and outcomes

*The Entrepreneurial Society* Jean Bonnet, Domingo García Pérez De Lema, Howard E. Van Auken, 2010-01-01 This timely book analyses the emergence of new firms in a broad context where economics management and sociological approaches may be joined for a new perspective The Entrepreneurial Society reveals that the market benefits of an entrepreneurial economy are evident in the new technology that has been made available to consumers over the past ten to 20 years It illustrates that entrepreneurial firms provide the market with innovations that create new products and in turn generate new employment and tax revenue thus playing a critical role in surviving the economic crisis The expert contributors explore the diverse conditions that explain permit and support entrepreneurship allowing thinking outside the box and enhancing breakthrough innovations At a time when new challenges

relating to the ecological footprint are appearing this work will prove crucial The eclectic approaches to entrepreneurship within this book gathered from different countries and fields of research will prove to be hotly sought after by researchers and postgraduate students of entrepreneurship and social policy

**The Shift to the Entrepreneurial Society** Jean Bonnet,Marcus Desjardin,Antonia Madrid Guijarro,2012-01-01 The concept of the entrepreneurial economy stems from the widespread belief that entrepreneurship is perhaps the most important and scarcest input factor of modern highly developed economies This has resulted in a multitude of studies on the drivers and consequences of entrepreneurship in its many manifestations Less is known about how entrepreneurship interlinks with modern institutions and policy aims such as education finance regulation and the struggle with crises The present volume fills this gap in our understanding of

the entrepreneurial economy It shows that the concept of the entrepreneurial economy is so broad that entrepreneurial society is the better term Roy Thurik Erasmus University Rotterdam The Netherlands In the constant challenge economies face to grow and adapt entrepreneurship and innovation are considered key factors This impressive book shows the complementary and decisive role that education access to an efficient financial system and regulation may have in creating an entrepreneurial society Not only growth but also better growth is required to address the tremendous challenges that our European economies are facing The contributors illustrate how more entrepreneurs and more new innovative entrepreneurial firms can contribute They highlight a variety of factors that may be considered to promote entrepreneurship among young people and innovative activities among firms These include education and seeking the most favourable context for the creation and development of sustainable innovative companies especially during economic crises This timely book analyses the built economy in education sustainability and regulation to favour the emergence of new entrepreneurial firms With an international focus the book provides the results of numerous research projects around entrepreneurship Based on solid quantitative analysis it will prove essential for students and researchers who are building quantitative models to study different aspects of the entrepreneurial society

*The Entrepreneurial Society of the Rhondda Valleys, 1840-1920* Richard Griffiths, 2010-07-30 This is the first book to examine in a systematic way the entrepreneurial society of the Welsh Valleys Until now almost everything written about the society created by the Welsh coal industry has been about the workers and the unions and there has been a significant gap which needed to be filled if a rounded picture of life in the south Wales valleys during the coal boom was to be achieved The book looks at the various sources of wealth in the area coal owning railway building possession of land in crucial areas contracting building property development shopkeeping and at the various origins from which the first generation entrepreneurs came It then examines closely the networks of power and influence that built up among the second generation entrepreneurs in the close and claustrophobic middle class society of the Porth Pontypridd area Its method is to take one extended family central to that society together with its vast network of friends and collaborators and to examine in great detail from original sources the often hair raising business methods of these people as well as their conflicts of interest at times of industrial unrest At the same time the changes in Valleys life are mirrored in the history of this group the original rags to riches stories of so many of the first generation the self sufficient confidence of so many of the second generation for whom the coal boom seemed bound to last for ever and the gradual move thereafter out of the coal industry and down to the towns on the coast just in time to avoid the decline of the industry

Financial and Institutional Reforms for an Entrepreneurial Society Claire

Economidou,2018 In this paper we introduce the special issue on Financial and Institutional Reforms for an Entrepreneurial Society in Europe There are many reasons for Europe to want to make the transition to a more entrepreneurial society And for decades now policy makers are trying to bring that transition about with variations on the educate deregulate and finance approach to entrepreneurship We argue that more fundamental reforms are required to improve the entrepreneurial ecosystem and bring about this transition We then discuss the twelve contributions that pertain to five different facets of the entrepreneurial ecosystem The first two papers address the most fundamental institutional foundations of the ecosystem The next three papers discuss the lack of access to knowledge and incentives to start innovative entrepreneurial ventures That is followed by three papers that focus on the institutions that fail to channel financial resources to such ventures and two papers that analyze the relevance of labor market institutions The special issue concludes with two papers investigating how the interplay of institutions and productive entrepreneurship results in economic growth The Entrepreneurial Imperative

Carl J. Schramm,2006-10-10 In 2004 Carl Schramm president of the Kauffman Foundation the world s leading foundation for entrepreneurship published a groundbreaking essay with a radical premise that Americans literally have no conception of the secret that truly underlies our economic success and that for the United States to survive and continue to lead the world s economy it is imperative we learn to understand and employ that secret The secret that has led the American economy to become the world s strongest Our unparalleled skill as entrepreneurs As Schramm compellingly shows in this sweeping manifesto entrepreneurship alone not anything else can give America the necessary leverage to remain an economic superpower Not technology since everyone now has the same technology or access to it Not education we are years behind other nations in this area Not basic manufacturing long since moved overseas from the United States And not capital markets now truly global entities Drawing on detailed research conducted by the Kauffman Foundation and on his decades of experience as an entrepreneur himself and as a leader and mentor to other entrepreneurs Schramm persuasively demonstrates in detail what this entrepreneurial imperative means for the way we run universities and foundations lead companies make personal job decisions and even conduct our foreign affairs The Entrepreneurial Imperative will change not only the way our government corporations and nonprofits operate but also our day to day lives as working Americans

**Unmasking the Entrepreneur** Campbell Jones,André Spicer,2009 This unique book argues against the ideas of entrepreneurship that prevail in much of business practice as well as in popular and academic representations of the entrepreneur The authors demonstrate how conceptual and political problems with entrepreneurship work and how they are interconnected Building on recent critical studies of entrepreneurship they ask what lies behind the friendly face of the entrepreneur
