## **The Essential Man:**

*Realistic Visionary* Peter R. Henriques, 2006 Examines the accomplishments and mistakes made by George Washington discussing why he was sensitive to criticism and slow to accept blame but still managed to envision a free and united America

**Ethics and the Will** Friedrich Waismann, Josef Schächter, Moritz Schlick, 2012-12-06 The contribution made by the Vienna Circle to ethics and the philosophy of action is increasingly being recognized Here two previously unpublished pieces by Moritz Schlick and his pupil Josef Schächter set the scene showing how ethics is not dependent on metaphysics but does require a sensitivity to strata of language other than that of science Schächter author of *Prolegomena to a Critical Grammar* also in the VCC and now doyen of educational philosophers in Israel further develops this ethical theme in a too little known study of pessimistic dicta that he published in 1938 He succeeds without ever assenting to it in giving sense to the idea that it were better for a man never to have been born The bulk of the book is devoted to two works by Friedrich Waismann probably written not long after his emigration to England also in 1938 There are a paper on ethics and science which defends the Wittgensteinian view that morality is something one cannot defend but only profess and itself more than half the volume a treatise on will and motive where the influence of Wittgenstein is mediated by that of Ryle and where many points in modern theory of action are anticipated with the author's usual sensitivity both to language and to the complexity of the human situation Joachim Schulte recently edited these two works in the original German otherwise they have remained unpublished This valuable addition to the VCC should illuminate both the history of the Circle and the kind of reflection on language and action which dominates the practical philosophy of our own day

*Far Afield* Vincent Debaene, 2014-04-04 Anthropology has long had a vexed relationship with literature and nowhere has this been more acutely felt than in France where most ethnographers upon returning from the field write not one book but two a scientific monograph and a literary account In *Far Afield* brought to English language readers here for the first time Vincent Debaene puzzles out this phenomenon tracing the contours of anthropology and literature's mutual fascination and the ground upon which they meet in the works of thinkers from Marcel Mauss and Georges Bataille to Claude Lévi-Strauss and Roland Barthes The relationship between anthropology and literature in France is one of careful curiosity Literary writers are wary about anthropologists' scientific austerity but intrigued by the objects they collect and the issues they raise while anthropologists claim to be scientists but at the same time are deeply concerned with writing and representational practices Debaene elucidates the richness that this curiosity fosters and the diverse range of writings it has produced from Proustian memoirs to proto-surrealist diaries In the end he offers a fascinating intellectual history one that is itself located precisely where science and literature meet

Syrianus: On Aristotle Metaphysics 13-14 Syrianus, 2014-04-22 Until the launch of this series in 1985 the 15 000 volumes of the ancient Greek commentators on Aristotle written mainly between 200 and 600 AD constituted the largest corpus of extant Greek philosophical writings not translated into English or other European languages Syrianus

originally from Alexandria moved to Athens and became the head of the Academy there after the death of Plutarch of Athens Syrianus attacked Aristotle in his commentary on Books 13 and 14 of the Metaphysics just as his pupil Proclus was to do later in his commentaries on Plato This is because in Metaphysics 13 14 Aristotle himself was being thoroughly polemical towards Platonism in particular against the Academic doctrine of Form numbers and the whole concept of separable number In reply Syrianus gives an account of mathematical number and of geometrical entities and of how all of these are processed in the mind which was to influence Proclus and all subsequent Neoplatonists

Fernandez, 2009-02-01 The Theology of Struggle is a genuinely popular Fillipino theology rooted in the history and culture of a people who have endured colonial oppression at the hands of Spain North America and Japan as well as neo colonialism and home grown dictatorship Because Christianity has played a role in assisting the history of oppression in the Phillippines a theology of struggle must include a struggle in theology to wrest Christian symbols from the hands of the oppressors and return them to the poor This theology which is otherwise expressed in articles poems art and action receives its first systematic treatment in Toward a Theology of Struggle In Part One Fernandez establishes the historical and cultural context out of which the Theology of Struggle has emerged Part Two represents Fernandez s own constructive work in which he shows how a theology of struggle must address the quest for identity and peoplehood In Part Three Fernandez explores the question of theological method outlining the areas of convergence and distinction between the Theology of struggle and other Third World theologies as well as setting forth the distinctive challenge that this theology of the Philippines poses to the authority and dominance of Western theology as a whole     *Christian Examiner and Theological Review* , 1858     On Being Human Erich Fromm, 2013-02-26 An insightful look at alienation in the modern world from the New York Times bestselling author of The Art of Loving and Escape from Freedom Social psychologist Erich Fromm observed the spread of

alienation in the 1960s arguing that humans who were once dynamic creative beings were reduced to fixating on TV screens emotionally paralyzed by anxieties over threats like nuclear war Though we may stare at different devices and worry about other dangers today his insights are as useful as ever and allow us to gain perspective on the human condition A collection of his writings on New Humanism and the need to reclaim our happiness and peace of mind this is a thoughtful fascinating overview of the past that shaped us and the philosophies and practices that can ensure a better future both for ourselves and for the world at large Included are reflections on thinkers from Karl Marx to medieval Catholic mystic Meister Eckhart as Fromm s large keen mind and attractive likable voice strive for heart as he asks himself the hardest questions of his day Kirkus Reviews This ebook features an illustrated biography of Erich Fromm including rare images and never before seen documents from the author s estate      Dictionary of Vedanta Samir Nath,2002 IVY      **German Expressionist Prose** Augustinus P. Dierick,1987-12-15 An extreme sensitivity to gathering social crisis an accompanying angry enthusiasm for artistic experimentation and renewal this compelling mix in German art poetry and drama of the period 1910 to 1925 continues to draw both scholarly attention and intense popular interest In this book Augustinus Dierick focuses on another significant but hitherto neglected medium of German Expressionist thought short narrative prose in order to illuminate and evaluate the contribution of that genre to one of the twentieth century s most powerful artistic movements Dierick s study includes a thorough analysis of the works of a broad range of Expressionist prose writers from those of such specialists in the genre as Edschmid Heym Benn Loerke Frank Sternheim Ehrenstein and Mynona to the shorter prose works of such major figures as Alfred D blin Heinrich Mann Max Brod and Franz Werfel Dierick isolates the thematic obsessions common among Expressionist writers the pathos of the self in confrontation with nature and with God the tension between self and the institutions of bourgeois society and the attractions and dangers of eroticism Throughout Dierick stresses the interrelationship between themes and their formal expression He examines many apparent excesses in style and tone many aberrations in structure and generic characteristics and identifies them not as needless experimentation but as a necessary result of the attempt to find appropriate forms for extreme situations and complex ideas Dierick s analysis makes clear that Expressionist prose has an intrinsic artistic value and because of certain nuances and different accents must be included in any estimation of the nature and importance of Expressionism as a whole      *Readings in Christian Thought* Hugh T. vibrating with certain energy fields that no other country can claim For almost ten thousand years thousands of people have reached to the ultimate explosion of consciousness Their vibration is still alive their impact is in the very air you just need a certain perceptivity a certain capacity to receive the invisible that surrounds this strange land It is strange because it has renounced everything for a single search the search for the truth In these pages we are treated to a spellbinding vision of what Osho calls the real India the India that has given birth to enlightened mystics and master musicians to the inspired poetry of the Upanishads and the breathtaking architecture of the Taj Mahal We travel through the landscape of India s golden past with Alexander the Great and meet the strange people he met along the way We are given a front row seat in the proceedings of the legendary court of the Moghul Emperor Akbar and an insider s view of the assemblies of Gautama the Buddha and his disciples In the process we discover just what it is about India that has made it a magnet for seekers for centuries and the importance of India s unique contribution to our human search for truth *Islam* A.S.
