George Santayana's Philosophy of Religion Edward W. Lovely, 2012-10-12 George Santayana 1862 1952 of Spanish descent and generally claimed to be in the canon of American philosophers was substantially influenced by his Roman Catholic origins in his philosophical disposition toward the value of tradition religious symbols and dogma His philosophical project sustained a respectful attitude toward the spiritual value of orthodox religion while the thrust of his philosophy was naturalistic and materialistic throughout There is a perception by some scholars that Santayana's philosophy evolved from a humanistic perspective to a more spiritual one in his later years It is the position of this thesis that his philosophy at the core depicting a harmonious striving toward individual happiness remained essentially consistent from his earliest publication of Interpretations of Poetry and Religion and The Life of Reason through his later works of Scepticism and Animal Faith Realms of Being Dominations and Powers and The Idea of Christ in the Gospels Santayana's philosophical approach is both phenomenological and social constructionist in its methodology significantly preempting the methodology of social constructionist theology and a post modern interpretation of religion His idiosyncratic phenomenological approach is compared with a benchmark methodology of Edmund Husserl the generally accepted founder of the phenomenological method There are also important similarities between Santayana's phenomenological approach and those of Charles Sanders Peirce and Alfred North Whitehead The basis for the comparison of the phenomenological methodology of Santayana and Husserl is their mutually similar fundamental theory of intuited essence Santayana's contribution to religious studies is not only philosophical but also theological where he has utilized Christian theological language in transposing and interpolating his philosophy of religion to the Christian drama of the salvational Christ Santayana's essay Ultimate Religion reflects his perspective of a disillusioned but still spiritual vision incorporating the piety discipline and spirituality of a life of reason Within the framework of this model Santayana's philosophy of religion is developed and explored Finally the relevance of Santayana's philosophy of religion to contemporary religious studies and selected religious issues is addressed with a delineation and discussion of some important aspects of his philosophical vision The Letters of George Santayana, Book *Eight, 1948-1952* George Santayana, 2001 Letters from the last years of Santayana's life written as he completed Dominations and Powers the final volume of his autobiography and the one volume abridgement of his early five part masterwork The Life of Reason This final volume of Santayana's letters spans the last five years of the philosopher's life Despite the increasing infirmities of age and illness Santayana continued to be remarkably productive during these years working steadily until September 1952 when he died of stomach cancer just three months short of his eighty ninth birthday Still living in the

nursing home run by the Blue Sisters of the Little Company of Mary in Rome now with such prewar luxuries as hot baths and central heating restored Santayana completed his book Dominations and Powers which had been more than fifty years in the making the final part of his autobiography Persons and Places published posthumously in 1953 as My Host the World and the abridgement of his early five part masterwork The Life of Reason into a single volume all while continuing to maintain a voluminous correspondence with friends and admirers The eight books of The Letters of George Santayana bring together over 3 000 letters many of which have been discovered in the fifty years since Santayana's death Letters in Book Eight are written to such correspondents as the young American poet Robert Lowell whom Santayana thinks of only as a friend and not merely as a celebrity and to whom he sends a wedding gift of 500 Ira D Cardiff the editor of Atoms of Thought a collection of excerpts from Santayana s writings which Santayana complained portrayed him as more akin to Tom Paine than Thomas Aguinas Richard Colton Lyon a young Texan who would later collect Santayana s writings about America in Santayana on America Essays Notes and Letters on American Life Literature and Philosophy 1968 and the humanist philosopher Corliss The Letters of George Santayana: 1941-1947 George Santayana, 2001 The seventh and penultimate book of the Lamont letters of American philosopher George Santayana covering the years 1941 to 1947 and including letters to such correspondents as Daniel Cory John Hall Wheelock Robert Lowell and others This penultimate volume of Santayana's letters chronicles Santayana's life during a difficult time the war years and the immediate postwar period The advent of World War II left Santayana isolated in Rome and the difficulties of wartime travel across borders forced him to abandon plans to move to more agreeable locations in Switzerland or Spain During these years Santayana lived in a single room in a nursing home run by the Blue Sisters of the Little Company of Mary in Rome where during the winter months he did much of his writing in bed wearing well mended gloves in order to stay warm And yet despite wartime deprivations illness and old age he was 77 in 1941 Santayana was remarkably productive completing both his autobiography Persons and Places and The Idea of Christ in the Gospels or God in Man and all but completing Dominations and Powers He confided to one correspondent that he had never been more at peace or more happy The eight books of The Letters of George Santayana bring together over 3 000 letters many of which have been discovered in the fifty years since Santayana's death Letters in Book Seven are written to such correspondents as his friend and prot g e Daniel Cory his financial manager and heir George Sturgis and the American poet Robert Lowell The correspondence with Lowell which began when the younger writer sent Santayana a copy of his Pulitzer Prize winning Lord Weary s Castle signals an important new friendship which became a source of affection and intellectual engagement in Santayana's final years Santayana the Philosopher Daniel Moreno, 2015-03-06 Regarding Santayana it has been claimed that he lacks a system while contradicting himself in outrageous ways An attentive analysis of his complete uvre however reveals something else entirely It is not easy to classify a thinker as a Platonic materialist an ironic nihilist a spiritual atheist and a conservative without political commitment but if one respects his own language one

discerns an astonishing little known Santayana whose philosophical leitmotif consists in 1 detecting the numerous false steps logical and moral supplied by the imagination when it confuses things with the names that designate them or the world with the feelings that it provokes in the human animal these errors assume diverse faces pantheism moralism egotism subjectivism transcendentalism Platonism Puritanism and utopianism 2 avoiding these illusions in such a way as to keep the spiritual door open as a form of life to be lived out in an honest fashion 3 recognizing the natural origin of these temptations and asking oneself what moves humans to succumb imperceptibly to these mistakes at times tragic at others comical and what precautions one can take to remain cognizant of the deceitful leaps that can hijack one s life and 4 proposing as an alternative the radical distinction between essence and existence which leads him to distinguish four realms of being the realm of essence the realm of matter the realm of truth and the realm of spirit Essence as logical identity matter as contingent existence truth as frozen history and spirit as the flames that part from contingency and approximate the eternal An attempt has been made in this book to expand on and clarify these questions The Works of George Santayana Santayana and America. Values, Liberties, Responsibility Krzysztof Piotr George Santayana, 1986 Skowronski, 2009-03-26 George Santayana 1863 1952 a Spanish American philosopher is an influential personage on the cultural stage in English and Spanish speaking countries His numerous books and papers on topics as varied as epistemology ontology aesthetics ethics anthropology value theory and American studies along with his best selling novel his sophisticated poetry and his famous autobiography make him a vivid and profound source of reflection on the history of American and European thought as well as a stimulus for future work Santayana's exceptionality was appreciated by William James and Josiah Royce his most eminent colleagues in Harvard University's Department of Philosophy and has been discussed by such respected authors as John Dewey Bertrand Russell Charles Hartshorne Eric Voegelin Alfred Schutz Richard Rorty Hilary Putnam Arthur Danto and Ferdinand Savater among others This book aims to understand Santayana by considering his often provocative views on America Other scholars have reconstructed his thought at various times and in a variety of ways but no one has yet considered Santayana's approach toward America in a serious and profound way at least not in the English language This book attempts to convince the reader that the impartiality of Santayana's philosophy its transcendence of cultural limits and mental borders makes it a living philosophy and that this is the strongest aspect of Santayana's thought

A Life of Scholarship with Santayana Herman J. Saatkamp Jr.,2021-01-25 An entire lifetime s work by Herman J Saatkamp is collected here in A Life of Scholarship with Santayana Essays and Reflections From the first essay published in 1972 to the latest in 2017 almost fifty years of scholarship is given a fresh embodiment of expression Saatkamp is considered by many to be the world s foremost authority on George Santayana s life and thought Not only does this volume bring into clear relief Saatkamp s understanding of Santayana the editing process and genetic concerns and the future of philosophy but it also betrays a lucid and humane understanding that aptly personifies a life spent in reflection a discerning sense of

appreciation and an affirmation of life and learning
The Conservative Tradition in America Charles W. Dunn, J. David Woodard, 1996 This book presents the first full scale survey written since the 1950s of American conservatism from the Founding to the Contract With America
Overheard in Seville 1985, 1985-10-15 An annual publication Overheard in Seville Bulletin of the Santayana Society includes scholarly articles on American philosopher poet critic and best selling novelist George Santayana as well as announcements of publications and meetings pertaining to Santayana scholarship

The 20th Century O-Z Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography One Hundred Twentieth-Century Philosophers Stuart Brown, Diane Collinson, Dr Robert Wilkinson, Robert Wilkinson, 2008-02-20 One Hundred Twentieth Century Philosophers offers biographical information and critical analysis of the life work and impact of some of the most significant figures in philosophy this century Taken from the acclaimed Biographical Dictionary of Twentieth Century Philosophers the 100 entries are alphabetically organised from Adorno to Zhang Binglin and cover individuals from both continental and analytic philosophy The entries have an identical four part structure making it easy to compare and contrast information comprising biographical details a bibliography of major works a listing of relevant secondary and critical literature an appraisal of the philosopher's thoughts and achievements A separate glossary provides an introduction to the origins development and main features of major philosophical schools and movements and offers select bibliographies to guide the reader to further research George Santayana Willard Eugene Arnett, 1968 Bulletin .1969 **Dictionary** of World Biography: The 20th century, O-Z Frank Northen Magill, Christina J. Moose, Alison Aves, 1999-11 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography American Philosophy Barbara MacKinnon, 1985-01-01 This anthology demonstrates the richness and diversity of the American intellectual heritage In it we see how Jonathan Edwards grapples with the problem of how to reconcile freedom and responsibility with Calvinist religious beliefs how Franklin and Jefferson exemplified American enlightenment thought and how the Transcendentalists Ralph Waldo Emerson and Henry David Thoreau formulated their

particular romantic idealist beliefs A second and significant portion of the anthology is devoted to Pragmatism Substantive excerpts from Peirce James and Dewey as well as Royce are collected here A third part is devoted to other Twentieth Century American philosophies No other collection of writings in this field includes the breadth of coverage that this one does Among the chapters in this third part of the book are those on early Process Philosophy Phenomenology Positivism and Language Philosophies Selections from such philosophers as Whitehead Weiss Buchler Gurwitsch Sellars Quine Davidson and Rawls along with many others are included in this part A final chapter is devoted to twentieth century American Moral Philosophy The book is specifically designed to be used as a text for courses in American philosophy A substantive introduction that emphasizes the historical setting as well as major interests and ideas of the philosophers accompanies each chapter Extensive bibliographies and study guide questions follow each chapter The selections include more than any one course will cover but in their completeness also allow individual teachers and readers to select what they want
