Lefler, Frederic Wright Gleach, 2002 Ranging in setting from a children's summer school program to a museum of history and culture to a fatherhood project these eleven papers document some of the many ways in which anthropologists and Native Americans are striving to work together at higher levels of accountability reciprocity and mutual enrichment The Native American groups discussed in the volume include the Yuchi of Oklahoma the Eastern Band of Cherokee Indians in western North Carolina the Powhatans of Virginia the Chickasaw Nation of Oklahoma the Seminole Tribe of Florida and the Waccamaw Siouan community of coastal North Carolina The volume's contributors consider such issues as education community development funding and the preservation of languages sacred texts oral traditions and artifacts At the same time they offer personal insights into the pressures that can bear on working relationships between anthropologists and Native Americans Not only must all concerned find a balance between their official and informal individual and group selves but Native Americans especially often feel caught between history and the present One contributor for instance discusses the

problems that arose from the discovery of Native American graves on land owned by the Cherokees on the site of a planned casino parking lot The anthropological work discussed here suggests strong potential for continuing research partnerships It also illustrates the potential benefits of such partnerships for anthropologists and for Native Americans *Gathering a Heritage* Thomas M. Prymak, 2015-01-15 Since the 1970s and 1980s the study of immigration and ethnicity has grown to become an essential aspect of North American history In *Gathering a Heritage* Thomas M Prymak uses the essays and articles he has written over the past thirty years as a historian of Ukrainian and Ukrainian Canadian history to reflect on the evolution of ethnic studies in Canada and the United States The essays included in this book explore the history of Ukrainian and Slavonic immigration to North America and the literature through which these communities and their historians have sought to recapture their past Each previously published essay is revised and expanded and several more appear here for the first time including the fascinating story of French Canadian writer Gabrielle Roy's connections with Ukrainian Canadians and her tumultuous affair with a Ukrainian Canadian nationalist in pre war London Staging Ghana Paul Schauert, 2015-09-07 The Ghana Dance Ensemble takes Ghana's national culture and interprets it in performance using authentic dance forms adapted for local or foreign audiences Often says Paul Schauert the aims of the ensemble and the aims of the individual performers work in opposition Schauert discusses the history of the dance troupe and its role in Ghana's post independence nation building strategy and illustrates how the nation's culture makes its way onto the stage He argues that as dancers negotiate the terrain of what is or is not authentic they also find ways to express their personal aspirations discovering within the framework of nationalism or collective identity that there is considerable room to reform national ideals through individual virtuosity Subjects, Citizens, and Others Benno Gammerl, 2017-11-01 Bosnian Muslims East African Masai Czech speaking Austrians North American indigenous peoples and Jewish immigrants from across Europe the nineteenth century British and Habsburg Empires were characterized by incredible cultural and racial ethnic diversity Notwithstanding their many differences both empires faced similar administrative questions as a result Who was excluded or admitted What advantages were granted to which groups And how could diversity be reconciled with demands for national autonomy and democratic participation In this pioneering study Benno Gammerl compares Habsburg and British approaches to governing their diverse populations analyzing imperial formations to reveal the legal and political conditions that fostered heterogeneity *The Social Science Encyclopedia* Adam Kuper, 2004-10-14 The Social Science Encyclopedia first published in 1985 to acclaim from social scientists librarians and students was thoroughly revised in 1996 when reviewers began to describe it as a classic This third edition has been radically recast Over half the entries are new or have been entirely rewritten and most of the balance have been substantially revised Written by an international team of contributors the Encyclopedia offers a global perspective on key issues within the social sciences Some 500 entries cover a variety of enduring and newly vital areas of study and research methods Experts review theoretical debates from neo evolutionism and

rational choice theory to poststructuralism and address the great questions that cut across the social sciences What is the influence of genes on behaviour What is the nature of consciousness and cognition What are the causes of poverty and wealth What are the roots of conflict wars revolutions and genocidal violence This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society **Ethnic Europe** Roland Hsu, 2010-02-05 Ethnic Europe examines the increasingly complex ethnic challenges facing the expanding European Union Essays from eleven experts tackle such issues as labor migration strains on welfare economies the durability of local traditions the effects of globalized cultures and the role of Islamic diasporas separatist movements and threats of terrorism With Europe now a destination for global immigration European countries are increasingly alert to the difficult struggle to balance minority rights with social cohesion In pondering these dilemmas the contributors to this volume take us from theory history and broad views of diasporas to the particularities of neighborhoods borderlands and popular literature and film that have been shaped by the mixing of ethnic cultures **The Dilemmas of Ethnic Policy** John Gaffar La Guerre, 2017-01-03 The Dilemmas of Ethnic Policy A Global Perspective argues that ethnic conflict increases or decreases in relation to changes in the social structure and the location and distribution of political power Ethnic grievances derive from lack of access to valued resources and elites play a crucial role in allocating those resources This book examines the experiences of five countries with a history of ethnic conflict former Yugoslavia Bosnia Herzegovina Guyana Trinidad and Tobago and the United States It finds that in many cases solutions adopted to mitigate ethnic conflict have unintended consequences Often supposed solutions confuse cause and effect and in fact worsen ethnic conflict Attempts to address identity issues by pandering to them often led to further ethnic demands This book argues that based on the experiences of the countries under examination the best course is to adopt policies that encourage alliances between and among ethnic groups **The Handbook of Sociocultural Anthropology** James G.
