The European Center Right At The End Of The Twentieth Century:

The European Center-right at the End of the Twentieth Century Frank L. Wilson, 1998 This text aims to fill a gap in the literature by studying the moderate to right parties in nine Western European countries A chapter on each country explores the structures electoral bases programmes and strategies of the party in question

The New Right in the New Europe Seán Hanley, 2007-08-07 This book considers the emergence of centre right parties in Eastern Europe following the fall of communism focusing primarily on the case of the Czech Republic Although the country with the strongest social democratic traditions in Eastern Europe the Czech Republic also produced the region s strongest and most durable party of the free market right in V clav Klaus Civic Democratic Party ODS Se n Hanley considers the different varieties of right wing politics that emerged in post communist Europe exploring in particular detail the origins of the Czech neo liberal right tracing its genesis to the reactions of dissidents and technocrats to the collapse of 1960s reform communism He argues that rather than being shaped by distant historical legacies the emergence of centre right parties can best be understood by examining the responses of counter elites outside or marginal to the former communist party state establishment to the collapse of communism and the imperatives of market reform and decommunization This volume goes on to consider the emergence of right wing forces in the disintegrating Civic Forum movement in 1990 the foundation of the ODS the right s period in office under Klaus in 1992 97 and its subsequent divisions and decline It concludes by analyzing the ideology of the Czech Right and its growing euroscepticism

The United States and the World Andrzej Mania, Łukasz Wordliczek, 2010-01-15 The conference The United States and the World from Imitation to Challenge was meant to gather those interested in various aspects of the mutual connections between the United States and the world It concentrated on the problem of the model of American democracy the presidential system American politics American society American culture and the world s reflections about them from imitation to challenge For this there was an invitation to scholars from many research fields political science philosophy law culture studies economy and sociology It was a result of our vision of American Studies as an interdisciplinary effort And so thanks to the rich and diverse approaches of the participants our vision turned out to be true The effect of the conference is reflected in the contributions that follow in this volume and in the rich interdisciplinary debate over the American impact on the world integration in Pax Americana and patterns of integration in other parts of the world different and or similar approaches to challenges to international order and last but not least the issue of continuity and change in politics Here one also needs to mention the ever present debate on the American export of values separation of church and state human rights the idea of sovereignty the rule of separation of powers modern federalism democratization approaches Americanism American Studies dilemmas American exceptionalism uniqueness in contemporary American society and patterns in foreign policy

Centre-Right Parties in Post-Communist East-Central Europe Seán Hanley, Aleks Szczerbiak, 2020-09-10 This is the first book to cover the centre right in post communist Eastern

Europe It makes an vital contribution to the broader research agenda on the Central and East European centre right by focusing on one specific question why strong and cohesive centre right formations have developed in some post communist states but not others It also delves into the attempts to develop centre right parties after 1989 in four nations the Czech Republic Hungary Poland and Slovakia The authors of these fresh case studies use a common analytical framework to analyse and provide fascinating insights into the varying levels of cohesion in centre right parties across the region This volume was previously published as a special issue of the Journal of Communist Studies and Transition Politics **East Central European Crisis Discourses in the Twentieth Century** Balázs Trencsényi, Lucija Balikić, Una Blagojević, Isidora Grubački, 2024-08-20 The term crisis with its complex history has emerged as one of the pivotal notions of political modernity As such reconstructing the ways the discourse of crisis functioned in various contexts and historical moments gives us a unique insight not only into a series of conceptual transformations but also into the underlying logic of key political and intellectual controversies of the last two centuries Studying the ways crisis was experienced conceptualized and negotiated can contribute to the understanding of how various visions of time and history shape political thinking and conversely how political and social reconfigurations frame our assumptions about temporality and spatiality A historical region wedged in between various competing imperial centers East Central Europe has been an area often associated with crisis phenomena by both internal and external observers Seeking to employ the regional gaze as a vantage point to reflect on issues which are relevant well beyond those countries between the Baltic and the Adriatic this project is also in dialogue with a number of recent transnational attempts to rethink political and intellectual history with regard to the recurrent epistemological frames that structure the political and cultural debate This book will thus be useful both for researchers from the field of intellectual history and numerous adjacent fields and graduate university students alike **Encyclopedia of Contemporary Italian Culture** Gino Moliterno, 2023-06-14 This rigorously compiled A Z volume offers rich readable coverage of the diverse forms of post 1945 Italian culture With over 900 entries by international contributors this volume is genuinely interdisciplinary in character treating traditional political economic and legal concerns with a particular emphasis on neglected areas of popular culture Entries range from short definitions histories or biographies to longer overviews covering themes movements institutions and personalities from advertising to fascism and Pirelli to Zeffirelli The Encyclopedia aims to inform and inspire both teachers and students in the following fields Italian language and literature Arts Humanities and Social Sciences European Studies Media and Cultural Studies Business and Management Art and Design It is extensively cross referenced has a thematic contents list and suggestions for further reading **Authoritarian Party Structures and Democratic Political Setting in Turkey** P. Musil, 2011-12-22 Conducting a comparative case study among four parties in the Turkish political system this study shows how the variance in interest configurations and the power resources of local party activists constitute these changing patterns **Greece's New Political Economy** George Pagoulatos, 2003-03-12 Greece s New

Political Economy traces the course of Greece from a postwar developmental state to its current participation in the Euro zone Taking an innovative comparative approach George Pagoulatos examines the political economy of financial interventionism and liberalization banking politics relations between the government and central bank the winners and losers of financial reform the effects of globalization and EMU and the implications of the new economic role of the state This book will be an indispensable reference work for anyone seeking to understand the Greek political economy in the light of major contemporary debates

Party Change in Southern Europe Anna Bosco, Leonardo Morlino, 2007-02-01 It has been argued that political parties are weakening In Southern Europe however political parties have shown remarkable pragmatism Not only have they played a crucial role in the installation and consolidation of democracy mostly in the 1970s and 1980s but they have also adapted to the aftermaths of severe political crises during the 1990s

Partnering with Extremists Kimberly A Twist, 2019-12-06 As long as far right parties known chiefly for their vehement opposition to immigration have competed in contemporary Western Europe many have worried about these parties acceptability to democratic voters and mainstream parties Yet rather than treating the far right as pariahs major mainstream right parties have included the far right in 15 governing coalitions from 1994 to 2017 Parties do not care equally about all issues at any given time and Kimberly Twist demonstrates that far right parties will agree to support the mainstream right s goals more readily than many other parties making them appealing partners Partnering with Extremists builds on existing work on coalition formation and party goals to propose a theory of coalition formation that works across countries and over time The evidence comes from 19 case studies of coalition formation in Austria and the Netherlands countries where far right parties have been excluded when they could have been included and included when the mainstream right had other options The argument is then extended to countries where coalitions are less common France and the United Kingdom and to cases of mainstream right adoption of far right themes Twist incorporates both office and policy considerations in her argument and reimagines policy to be a two dimensional factor it matters not just where parties are located on an issue but how firmly they hold those positions

Cultural Backlash Pippa Norris, Ronald Inglehart, 2019-02-14 Authoritarian populist parties have advanced in many countries and entered government in states as diverse as Austria Italy the Netherlands Poland and Switzerland Even small parties can still shift the policy agenda as demonstrated by UKIP s role in catalyzing Brexit Drawing on new evidence this book advances a general theory why the silent revolution in values triggered a backlash fuelling support for authoritarian populist parties and leaders in the US and Europe The conclusion highlights the dangers of this development and what could be done to mitigate the risks to liberal democracy

The Logic of Pre-electoral Coalition Formation Sona Nadenichek Golder, 2006 Why do some parties coordinate their electoral strategies as part of a pre electoral coalition while others choose to compete independently at election time Scholars have long ignored pre electoral coalitions in favor of focusing on the government coalitions that form after parliamentary elections Yet electoral coalitions are common they affect electoral

outcomes and they have important implications for democratic policy making itself

The Logic of Pre Electoral Coalition Formation by Sona Nadenichek Golder includes a combination of methodological approaches game theoretic statistical and historical to explain why pre electoral coalitions form in some instances but not in others The results indicate that pre electoral coalitions are more likely to form between ideologically compatible parties They are also more likely to form when the expected coalition size is large but not too large and when the potential coalition partners are similar in size Ideologically polarized party systems and disproportional electoral rules in combination also increase the likelihood of electoral coalition formation Golder links the analysis of pre electoral coalition formation to the larger government coalition literature by showing that pre electoral agreements increase a the likelihood that a party will enter government b the ideological compatibility of governments and c the speed with which governments take office In addition pre electoral coalitions provide an opportunity for combining the best elements of the majoritarian vision of democracy with the best elements of the proportional vision of democracy

The Politics of Party Leadership William Cross, Jean-Benoit Pilet, 2015-11-26 Making use of a unique data set that includes more than 1000 leadership elections from over 100 parties in 14 countries over an almost 50 year period this volume provides the first comprehensive comparative examination of how parties choose their leaders and the impact of the different decisions they make in this regard Among the issues examined are how leaders are chosen the factors that result in parties changing their selection rules how the rules affect the competitiveness of leadership elections the types of leaders chosen the impact of leadership transition on electoral outcomes the factors affecting the length of leadership tenures and how leadership tenures come to an end This volume is situated in the literature on intra party decision making and party organizational reform and makes unique and important contributions to our understanding of these areas The analysis includes parties in Australia Austria Belgium Canada Denmark Germany Hungary Israel Italy Portugal Romania Spain Norway and the United Kingdom

Europeanization and the Southern Periphery Kevin Featherstone, George Kazamias, 2014-05-12 Europeanization is a term increasingly used in the social sciences to describe the impact convergence or response of politicians and institutions in relation to the European Union This volume explores the concept in a variety of different settings in order to clarify its meaning

Twentieth Century Encyclopædia Charles Morris, 1912

Law and Competition in Twentieth Century Europe David J. Gerber, 1998 Protecting economic competition has become a major objective of European governments David Gerber explains the framework of competition law and emphasises the political and economic issues it raises

Reforming Europe Constantine Arvanitopoulos, 2010-04-06 In the 2009 elections the European centre right emerged victorious thus affirming its political

domination in contemporary European politics The aim of this book is not to provide an analysis of the factors that contributed to the EPP's political prevalence Instead it is to help this large political family maintain its vigour of political thought and policy prescriptions The book provides a forum for prominent centre right thinkers to debate the major European problems of our times with particular emphasis on the management of the financial crisis and the next institutional steps regarding the European integration project It assembles the views of politicians academics and think tank fellows from different national backgrounds and dissimilar ideological perspectives who unfold their vision for Europe's future Overall the book attempts to both highlight and stimulate the centre right contribution to the discussion of Europe's main contemporary challenges
