The Non-religion of the Future: A Sociological Study Jean-Marie Guyau,2015-01-09 Example in this ebook I Sociality the basis of religion Its definition I We shall meet in the course of this work many different definitions that have at one time

or another been given to religion Some were assigned from the point of view of physics others from that of metaphysics others from that of morals almost none from that of sociology And yet upon closer scrutiny the notion of a social bond between man and the powers superior to him but resembling him is precisely the point in which all religious conceptions are at one Man becomes truly religious in our judgment only when above the human society in which he lives he superimposes in his scheme of the world another society more powerful and more cultured a universal and so to speak a cosmic society The sphere of sociality which is one of the characteristics of humanity must be enlarged till it reaches to the stars Sociality is the firm foundation of the religious sentiment and a religious being might be defined as a being disposed to be sociable not only with all living creatures with whom experience makes him acquainted but also with the creatures of thought with whom he peoples the world That religion consists essentially in the establishment of a bond at first mythical and subsequently mystic in the first instance between man and the forces of the universe then between man and the universe itself and ultimately between man and the elements of the universe is distinctly the outcome of every study of religion but what we wish especially here to consider is the precise way in which this bond has been conceived Well it may appear more clearly at the close of this inquiry the religious bond has been conceived ex analogia societatis human the relations amicable and inimical of men to each other were employed first for the explanation of physical phenomena and natural forces then for the metaphysical explanation of the world of its creation conservation and government in short sociological laws were universalized and the state of war or peace which existed among men families tribes and nations was conceived as existing also among the volitions which were fancied to exist beneath or beyond the forces of nature A mythic or mystic sociology conceived as containing the secret of all things lies at the basis of all religions Religion is not simply the expression of an anthropomorphism animals and fantastic beings of various sorts have played no inconsiderable r le in different cults it is an imaginative extension a universalization of all the good or evil relations which exist among conscious beings of war and peace friendship and enmity obedience and rebellion protection and authority submission fear respect devotion love religion is a universal sociomorphism Social relations with animals with the dead intellectual and social relations with good and evil genii with the forces of nature are nothing more nor less than various forms of this universal sociology in which religion has sought to find the reason of things of physical phenomena such as thunder storm sickness death as well as of metaphysical relations the origin and destiny of things and of moral relations virtue vice law and sanction To be continue in this ebook

Law and Religion in the Commonwealth Renae Barker,Paul Babie,Neil Foster,2022-06-30 This book examines law and religion from the perspective of its case law Each chapter focuses on a specific case from a Commonwealth jurisdiction examining the history and impact of the case both within the originating jurisdiction and its wider global context The book contains chapters from leading and emerging scholars from across the Commonwealth including from the United Kingdom Canada Australia Pakistan Malaysia India and Nigeria The cases are divided into four sections covering Foundational Questions in Law and

Religion Freedom of Religion around the Commonwealth Religion and state relations around the Commonwealth Rights Relationships and Religion around the Commonwealth Like religion itself the case law covers a wide spectrum of life This diversity is reflected in the cases covered in this book which include Titular Roman Catholic Archbishop of Kuala Lumpur v Home Minister on the use of the Muslim name for God by non Muslims in Malaysia The Church of the New Faith v Commissioner of Pay roll Tax Vic which determined the meaning of religion in Australia Eweida v UK which clarified the application of Article 9 of the European Convention on Human Rights R v Big M Drug Mart on the individual protections of religious freedom under the Canadian Charter of Rights The book examines how legal disputes involving religion are among the most contested in the courts and shows that in these cases passions run high and the outcomes can have significant consequences for all involved
