**A History of the Hebrew Language** Edward Yechezkel Kutscher, 1982      *In the Beginning* Joel Hoffman, 2004-08-01

Decodes the long history of Hebrew and its influential place as the ancestor of many modern written languages Hebrew as a language is just over 3 000 years old and the story of its alphabet is unique among the languages of the world Hebrew set the stage for almost every modern alphabet and was arguably the first written language simple enough for everyone not just scribes to learn making it possible to make a written record available to the masses for the first time Written language has existed for so many years since around 3500 BCE that most of us take it for granted But as Hoffman reveals in this entertaining and informative work even the idea that speech can be divided into units called words and that these words can be represented with marks on a page had to be discovered As Hoffman points out almost every modern system of writing descends from Hebrew by studying the history of this language we can learn a good deal about how we express ourselves today Hoffman follows and decodes the adventure that is the history of Hebrew illuminating how the written record has survived the significance of the Dead Sea Scrolls and ancient translations and attempts to determine how the language actually sounded He places these developments into a historical context and shows their continuing impact on the modern world This sweeping history traces Hebrew's development as one of the first languages to make use of vowels Hoffman also covers the dramatic story of the rebirth of Hebrew as a modern spoken language Packed with lively information about language and linguistics and history *In the Beginning* is essential reading for both newcomers and scholars interested in learning more about Hebrew and languages in general

**Historical Continuity in the Emergence of Modern Hebrew** Yael Reshef, 2019-11-13 *Historical Continuity in the Emergence of Modern Hebrew* offers a new perspective on the emergence processes of Modern Hebrew and its relationship to earlier forms of Hebrew Based on a textual examination of select case studies of language use throughout the modernization of Hebrew this book shows that due to the unconventional sociolinguistic circumstances in the budding speech community linguistic processes did not necessarily evolve in a linear manner blurring the distinction between true and apparent historical continuity The emergent language's standardization involved the restructuring of linguistic habits that had initially taken root among the first speakers often leading to a retreat from early contact induced or non classical phenomena Yael Reshef demonstrates that as a result superficial similarity to earlier forms of Hebrew did not necessarily stem from continuity and deviation from canonical Hebrew features does not necessarily stem from change

**Language Contact, Continuity and Change in the Genesis of Modern Hebrew** Edit Doron, Malka Rappaport Hovav, Yael Reshef, Moshe Taube, 2019-09-18 The emergence of Modern Hebrew as a spoken language constitutes a unique event in modern history a language which for generations only existed in the written mode underwent a process popularly called revival acquiring native speakers and becoming a language spoken for everyday use Despite the attention it has drawn this particular case of language shift which differs from the better documented cases of

creoles and mixed languages has not been discussed within the framework of the literature on contact induced change The linguistic properties of the process have not been systematically studied and the status of the emergent language as a discontinuous stage of its historical sources has not been evaluated in the context of other known cases of language shift The present collection presents detailed case studies of the syntactic evolution of Modern Hebrew alongside general theoretical discussion with the aim of bringing the case of Hebrew to the attention of language contact scholars while bringing the insights of the literature on language contact to help shed light on the case of Hebrew
