Drezner,2013-04-17 Winner of the Association of Fundraising Professionals 2014 Skystone Partners Research Prize in Philanthropy and Fundraising Traditionally institutions have relied on wealthy White men to reach their fundraising goals But as state investment in public higher education lessens and institutions look to philanthropy to move from excellence to eminence advancement officers

continually need to engage all populations including many that have historically been excluded from fundraising strategies Based on theory research and past practice *Expanding the Donor Base in Higher Education* explores how colleges and universities can build culturally sensitive fundraising and engagement strategies This edited book presents emerging research on different communities that have not traditionally been approached for fundraising including Lesbian Gay Bisexual Transgender and Queer LGBTQ alumni African Americans Latinos graduate students young alumni women and faculty donors Chapters discuss and analyze successful programs and provide practical suggestions and strategies to create and implement fundraising programs that engage these new donor populations *Expanding the Donor Base in Higher Education* is an essential resource for any institution looking to expand their pool of donors and cultivate a more philanthropic mindset among alumni and students *Higher Education in the United States* James J. F. Forest, Kevin Kinser, 2002-06-21 Surveys the changing landscape of American higher education from academic freedom to virtual universities from campus crime to Pell Grants from the Student Privacy Act to student diversity In the years following World War II college and university enrollment doubled students revolted faculty unionized and community colleges evolved Tuition and technology soared as did the number of first generation minority and women students These changes radically transformed the American system of postsecondary education Today that system is in trouble Its aging professoriate prepares for retirement but low academic salaries can no longer attract the best minds to replace them A flood of corporate dollars funds commercial research but money for basic research the seedbed of American scientific preeminence has dried up Colleges and universities also face heated competition with for profit education providers for students faculty and external financial support along with the costs of providing remedial education to growing numbers of students who are unprepared for postsecondary education *Higher Education in the United States* provides a comprehensive analysis of these issues and others that scholars and practitioners of higher education study discuss and grapple with on a daily basis *Expanding Boundaries: Systems Thinking in the Built Environment* Guillaume Habert, Arno Schlueter, 2016-08-15 Consuming over 40% of total primary energy the built environment is in the centre of worldwide strategies and measures towards a more sustainable future To provide resilient solutions a simple optimisation of individual technologies will not be sufficient In contrast whole system thinking reveals and exploits connections between parts Each system interacts with others on different scales materials components buildings cities and domains ecology economy and social Whole system designers optimize the performance of such systems by understanding interconnections and identifying synergies The more complete the design integration the better the result In this book the reader will find the proceedings of the 2016 Sustainable Built Environment SBE Regional Conference in Zurich Papers have been written by academics and practitioners from all continents to bring forth the latest understanding on systems thinking in the built environment **College For Sale** Wesley Shumar, 2013-10-23 This text provides a framework for understanding higher education in the US and other western

countries since the 1970s whereby the logic of the market place has increasingly come to dominate all arenas and in context the education system The author calls this process commodification and he describes the transformation of universities in the US and elsewhere as they attempt to accommodate the enforced changes on their academic lives and those of their students The book chronicles changes with the increasing focus on career and the movement towards the instrumental functions of education the financial crisis and the development of a more corporate approach to education of consumption that produce universities heavy with expensive well equipped and powerful administrations and decreasing numbers of ever more disenfranchised faculty
